

RG 12 Public Works section fonds

Scope and Content

Fonds consists of the administrative and operational records created, accumulated, and used by the Public Works section at the City of Red Deer between 1948 and 2009.

The types of records included are correspondence, memoranda, minutes and agendas, reports, news clippings (limited), statistics, charts, plans, and video tapes. The topics covered by the records include water treatment, waste water treatment, fluoridation, chlorination, snow removal operations, Environmental Advisory Boards, landfills, sewers, roads, institution of recycling and blue-box programs, Emergency Measures including 1993 Windsor Hotel fire, 1988 snowstorm and Red Deer River flood information, utilities, airport, Waskasoo Park signage plans, annual reports, safety, Red Deer Airport, external buildings and residential permit reports (2004-2005), paralegic ramps policy (accessible ramps policy), Summer Games, Westerner Parade, rodeo, and Sunnybrook South Neighbourhood Area Structure Plan.

No series assignment has been applied to the records in this fonds.

Date of Records

1948-2008

Physical Description

12.089 m of textual records

ca. 1559 photographs : col., electronic (jpeg)

32 technical drawings

4 video cassettes : VHS

4 maps

1 CD-ROM (146 MB) : Microsoft Powerpoint

Material Types (GMD)

Textual Records

Graphic Materials

Architectural and Technical Drawings

Moving Images

Cartographic Materials

Restrictions on Access

Some records subject to restrictions.

Terms Governing Use, Reproduction, and Publication

Copyright is unknown for most plans.

Creator Information

Authority Name City of Red Deer Public Works section

Authority History Public Works was started at the first Town of Red Deer meeting on July 6, 1901, initially as the Public Works Committee of Council. In 1907, it became a department reporting to the Mayor and Town Commissioner.

It moved around the organizational chart several times. In 1943, it was

moved under Electric Light and Power, and then moved back out to its own area in 1946. In 1949, it moved under the City Engineer alongside Parks. Between 1954 and 1969 it was under Engineering but generally listed in the charts as two component parts (Roads and Utilities). In 1970, Public Works remained part of Engineering but was now referred to as Public Works again.

In 1995, Development Services division was created. Its member departments included Public Works, Engineering, Fire, Electric Light and Power, Land and Economic Development, and Bylaw / Inspections and Licensing.

In 2020, a significant reorganization took place. The Public Works department merged with the Parks department to create Parks & Public Works department under the Community Services division. Its corporate identifier was changed to PWS and it became the Public Works section. Public Works functions may also be tracked under the names Roads and Infrastructure Management.

The facilities and asset management function moved to the new Safe & Healthy Communities department, and the garage and materiel management functions moved to the new Transit & Fleet department.
