Creator Information

Authority Name City of Red Deer Assessment and tax department

Authority History In 1907, the Town of Red Deer Commissioner provided for the assessment and collection of the town taxes, licenses, water rates, sewer rates and to have care, management, control and direction of all Town owned property, including, improvements, roads, parks.

By 1916, the City of Red Deer Council appointed a tax collector who was responsible for the assessment of all properties and the collection of monies, of which he received one percent of monthly collections.

Prior to 1955, the City had a combined building inspector and assessor. In 1955 this position was split when the building assessment departments were split.

In 1970, a department was created called Assessment, Taxation, and Land. It reported reported to the Director of Finance / City Treasurer and then the Financial Services Directorate.

Following the 1994-1995 reorganization into Divisions, the Assessment and Tax department (sometimes called the Assessment and Taxation Services department) was created and it became part of the Corporate Services division.

The Assessment and Tax department was responsible for assigning civic addresses to property within the city of Red Deer, placing value on properties taxation purposes, and collecting property and business revitalization zone tax on behalf of The City, Alberta Education, Public Library, and the Business Revitalization Zone.

The department was broken down into two sections. The Assessment section was responsible for property assessment; conducting market based assessments annually, sending out assessment notices within legislated deadlines, and calculating an assessment for businesses located within the boundaries of the downtown Business Revitalization Zone. The Taxation section was responsible for the collection of taxes and the administration of the civic address system and the Tax Installment Plan.

In 2012, the Revenue and Assessment Services department was formed and Assessment and Taxation became a section under that department. The functions did not change.
