**DATE:** September 6, 2005

**TO:** City Council

**FROM:** Legislative & Administrative Services Manager

**SUBJECT:** Proposed Plan Amendments:  
Northwest Major Area Structure Plan Bylaw Amendment 3213/B-2005  
Kentwood Northeast Neighbourhood Area Structure Plan Bylaw  
Amendment 3217/E-2005  
Land Use Bylaw Amendment 3156/BB-2005 – Map 24/2005

---

***History:***

At the Monday, August 15, 2005 Council meeting, Council gave first reading to Northwest Major Area Structure Plan Bylaw Amendment 3213/B-2005, Kentwood Northeast Neighbourhood Area Structure Plan Bylaw Amendment 3217/E-2005 and Land Use Bylaw Amendment 3156/BB-2005

The above referenced bylaws include corrections of minor technical and typographical errors that were noticed after the Bylaws 3213/A-2005 – Northwest Major Area Structure Plan, 3217/D-2005 Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan, and 3156/S-2005 Land Use Bylaw Amendment, were adopted. The errors do not impact the intent or the effect of the original bylaw amendments. Changes include a 2.99 m wide strip of land approximately 95 m long along the south boundary of a commercial parcel that was incorrectly designated C2 Commercial instead of Road. This piece of land needs to be changed back to Road in the above referenced bylaw amendments. Other changes include an adjustment of numbers on Table 1 Plan Statistics of the Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan, changing a designation of a portion of wetland from residential to Open Space, in the Northwest Major Area Structure Plan, and correcting dates on Map 4 of the Northwest Major Area Structure Plan, and paragraph numbering.

***Public Consultation Process***

Public Hearings were advertised for Monday, September 12, 2005 at 7:00 p.m. in Council Chambers, during Council's regular meeting. The owners of the properties bordering the site have been notified by letter of the Public Hearings.

***Recommendations***

That following the Public Hearings, Council proceed with second and third readings of:

- (a) Northwest Major Area Structure Plan Bylaw Amendment 3213/B-2005
- (b) Kentwood Northeast Neighbourhood Area Structure Plan Bylaw Amendment 3217/E-2005
- (c) Land Use Bylaw Amendment 3156/BB-2005 and Map 24/2005

**TO:** Kelly Kloss, Manager, Legislative & Administrative Services

**RE:** Proposed Plan Amendments

- Northwest Major Area Structure Plan (Bylaw Amendment No. 3213/B-2005)
- Kentwood Northeast Neighbourhood Area Structure Plan (Bylaw Amendment No. 3217/E-2005)
- Land Use Bylaw (Bylaw Amendment 3156/BB-2005 and Map 24/2005)

---

### **BACKGROUND**

On July 18, 2005 City Council adopted three bylaws pertaining to a proposed commercial parcel in Kentwood Northeast. These bylaws were:

- 3213/A-2005 The Northwest Major Area Structure Plan
- 3217/D-2005 Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan
- 3156/S-2005 The Land Use Bylaw

The intent of these bylaws was to identify the subject parcel for regional commercial instead of highway commercial purposes, to increase the size of the proposed commercial parcel and to redistrict it from A1 Future Urban Development District to C2 Commercial (Regional or District Shopping Centre) District.

### **PROPOSED AMENDMENTS**

After the bylaws were adopted a number of minor technical and typographical errors were noticed, including some technical errors relating to mapping. Some of the errors occurred initially in the Northwest Major Area Structure Plan and were carried through to the other two bylaw amendments. ***The errors do not impact the intent or the effect of the original bylaw amendments.***

The mapping errors described below are identified on the attached maps and are in regard to the following:

1. A 2.99 m wide strip of land approximately 95 m long along the south boundary of the proposed Quantum IV commercial parcel was incorrectly designated "C2 COMMERCIAL" instead of "ROAD", which was its designation prior to the amendment. The designation of this piece of land therefore needs to be changed back to "ROAD" in the Northwest Major Area Structure Plan (Bylaw Amendment No. 3213/B-2005), the Kentwood Northeast Neighbourhood Area Structure Plan (Bylaw Amendment No. 3217/E-2005) and the Land Use Bylaw (Bylaw Amendment No. 3156/BB-2005). The changes to the Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan also include adjustment of numbers in Table 1 Plan Statistics to reflect the mapping change.

2. In the Northwest Major Area Structure Plan a portion of the wetland on the land west of the Quantum IV commercial parcel was inadvertently designated "RESIDENTIAL" instead of "OPEN SPACE", which was its designation prior to the amendment. The designation of this portion of the wetland will be changed back to "OPEN SPACE" in the Northwest Major Area Structure Plan (Bylaw Amendment No. 3213/B-2005).

Typographical errors are:

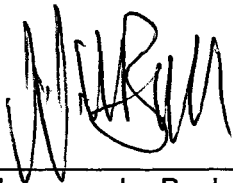

1. The date on Map 4 of the Northwest Major Area Structure Plan should be July 2005 and not May 2003.
2. The paragraph numbering on page 4 of 9 of the Northwest Major Area Structure Plan should start at 4.3 (not 4.1) and continue through to 4.6 (not 4.4) at the bottom of the page.

Planning staff contacted surrounding land owners (i.e. Laebon Developments Ltd, Quantum IV Developments Inc and the owners of the land west of the proposed commercial site). They have no concerns regarding the proposed amendments to correct the errors described above.

### **RECOMMENDATION**

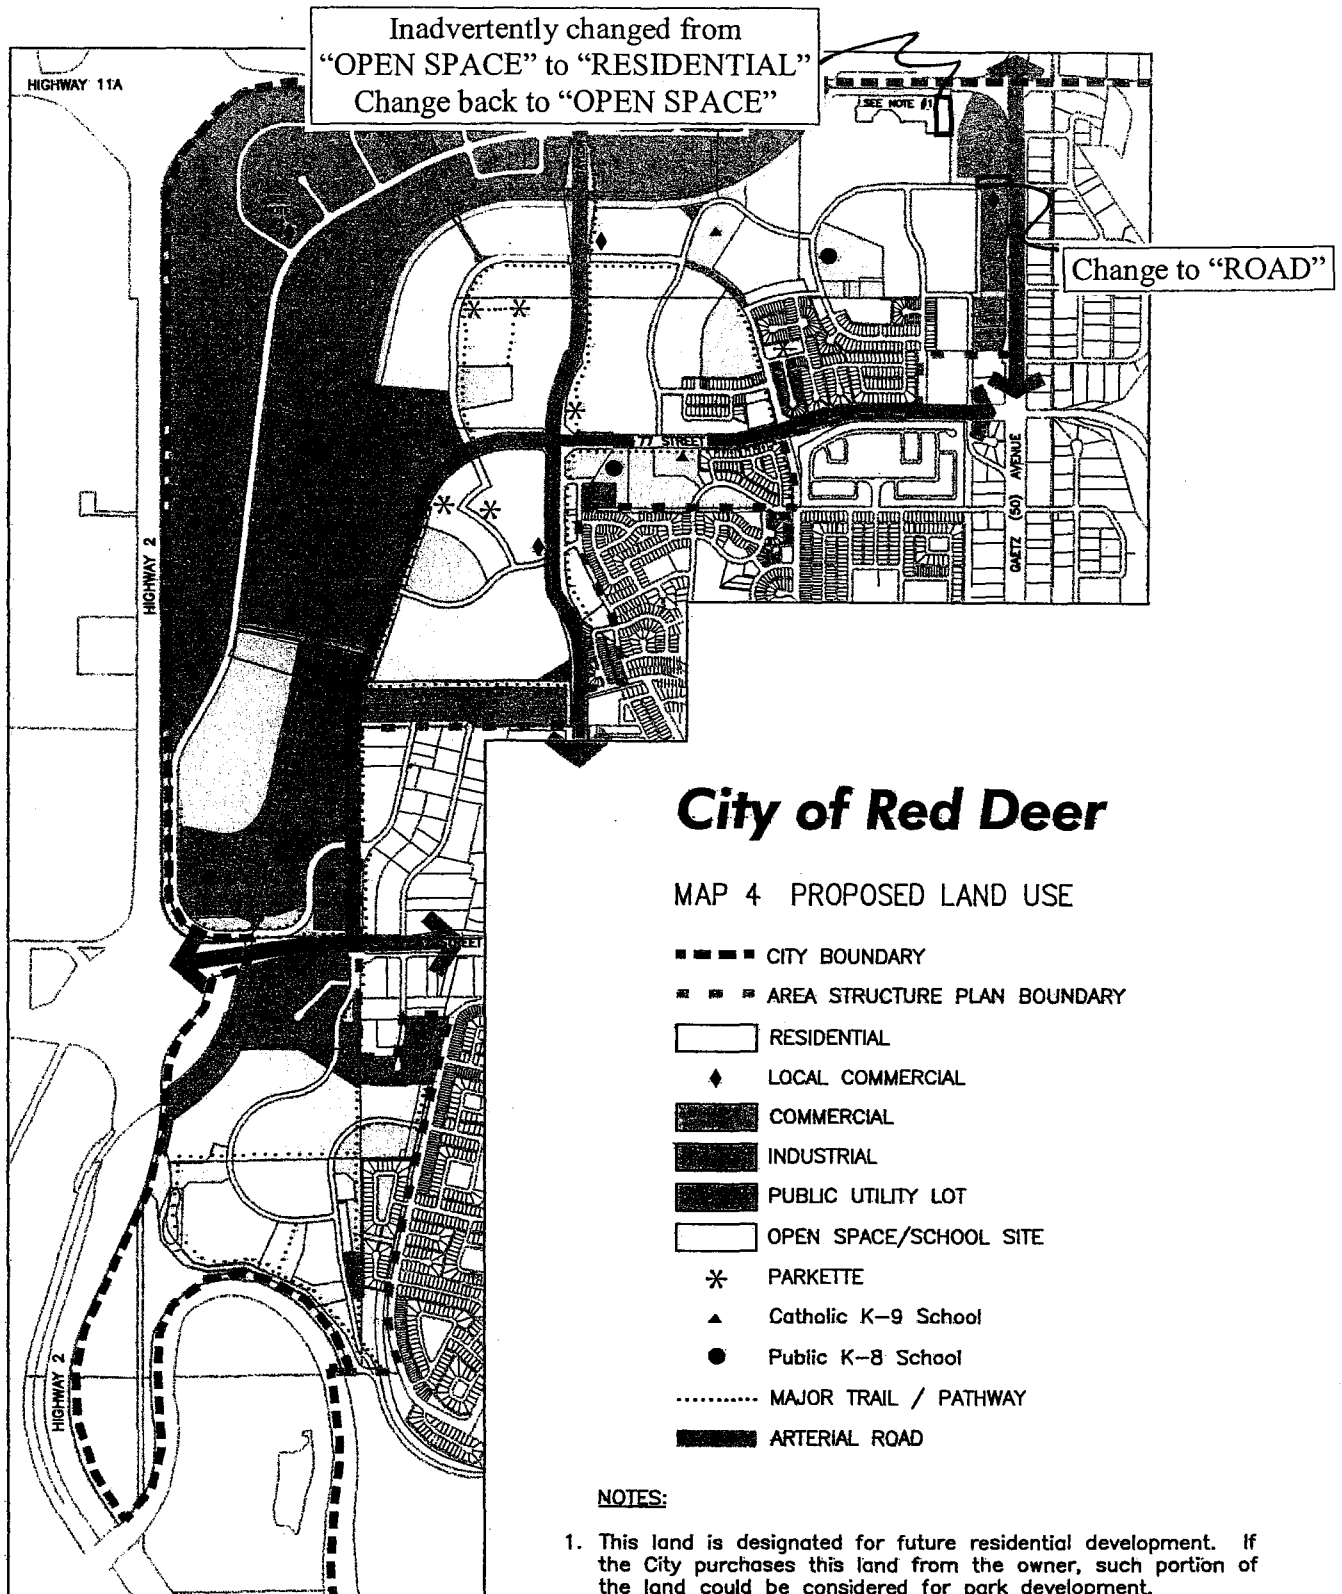

That City Council considers first reading of the following bylaw amendments:

- the Northwest Major Area Structure Plan Bylaw Amendment No. 3213/B-2005
- Kentwood Northeast Neighbourhood Area Structure Plan Bylaw Amendment No. 3217/E-2005 and
- Land Use Bylaw Amendment No. 3156/BB-2005

Dear Sir/Madam:

**Re: Northwest Major Area Structure Plan  
Kentwood Northeast Neighbourhood Area Structure Plan  
Land Use Bylaw Amendment 3156/BB-2005**

---

Red Deer City Council is considering a change to the Land Use Bylaw that controls the use and development of land and buildings in the city. As a property owner in the Kentwood area, you have an opportunity to ask questions about the intended use and to let Council know your views.

On July 18, 2005, Red Deer City Council adopted three bylaws pertaining to a proposed commercial parcel in Kentwood Northeast. These bylaws were: Northwest Major Area Structure Plan Bylaw Amendment 3213/A-2005, Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan Amendment 3217/D-2005, and Land Use Bylaw Amendment 3156/S-2005. After the bylaws were adopted, a number of minor technical and typographical errors were noticed. The errors do not impact the intent or the effect of the original bylaw amendments.

Red Deer City Council now proposes to correct these errors by passing an amendment to the Northwest Major Area Structure Plan under Bylaw 3213/B-2005, and an amendment to the Kentwood Northeast Neighbourhood area Structure Plan under Bylaw 3217/E-2005, as well as Land Use Bylaw Amendment 3156/BB-2005. A 2.99 m wide strip of land approximately 95 m long was incorrectly designated "C2 Commercial" instead of "Road" and will now be changed back to "Road". In the Northwest Major Area Structure Plan, a portion of wetland on the land west of the commercial parcel was inadvertently designated "Residential" instead of "Open Space". This will now be changed back to "Open Space". Other corrections include paragraph renumbering and date corrections on maps. The land affected is described as Block 3, Plan 2122HW in the NE ¼ Section 32-38-27-4 (southwest corner of the intersection of Gaetz Avenue and Highway 11A).

The proposed bylaws may be inspected by the public at Legislative & Administrative Services, 2<sup>nd</sup> Floor of City Hall during regular office hours or for more details, contact the city planners at Parkland Community Planning Services 343-3394.

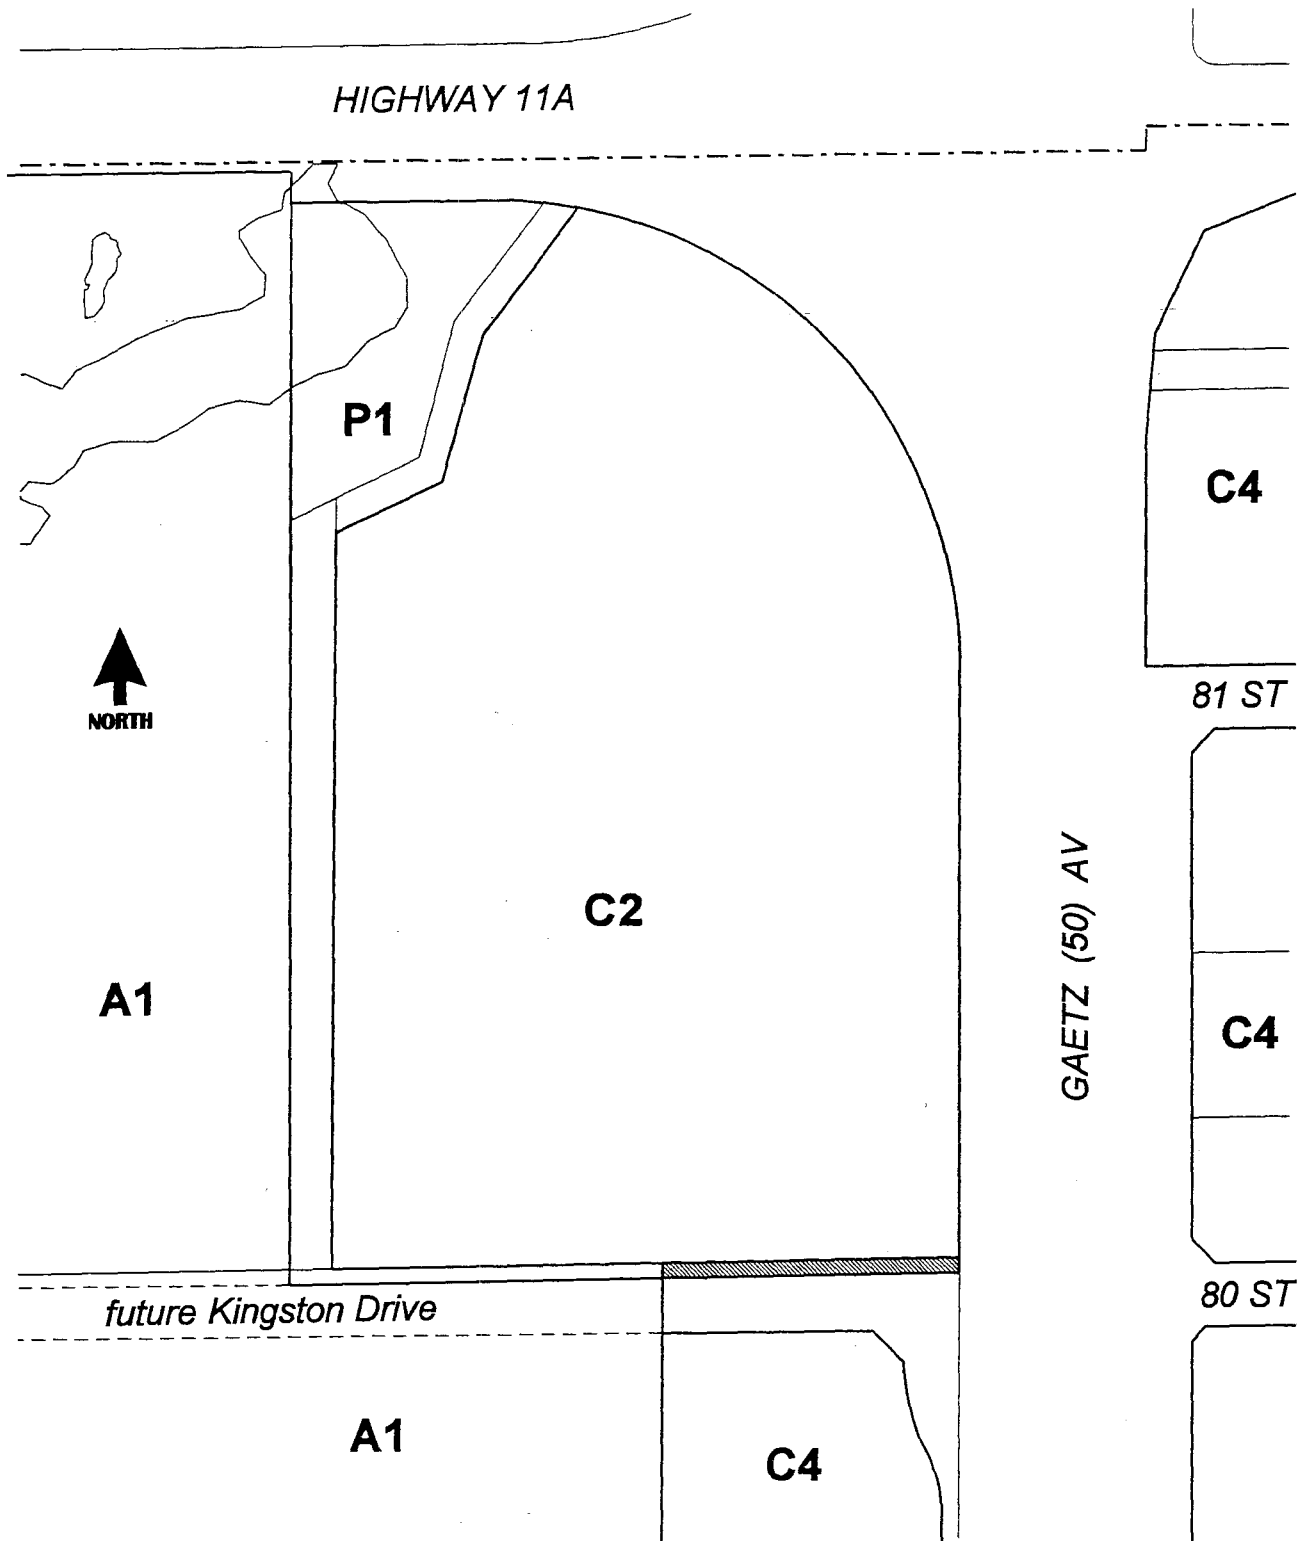

City Council will hear from any person claiming to be affected by the proposed bylaw at a Public Hearing on **September 12, 2005** at 7:00 p.m. in Council Chambers, 2<sup>nd</sup> floor of City Hall. If you want your letter or petition included on the Council agenda you must submit it to the Legislative and Administrative Services Manager by **September 6, 2005**. Otherwise, you may submit your letter or petition at the Council meeting or you can simply tell Council your views at the Public Hearing. Any submission will be public information. If you have any questions regarding the use of this information, please contact Legislative & Administrative Services at 342-8132.

Yours truly,

Kelly Kloss  
Manager, Legislative & Administrative Services

**TO:** Kelly Kloss, Manager, Legislative & Administrative Services

**RE:** Proposed Plan Amendments

- Northwest Major Area Structure Plan (Bylaw Amendment No. 3213/B-2005)
- Kentwood Northeast Neighbourhood Area Structure Plan (Bylaw Amendment No. 3217/E-2005)
- Land Use Bylaw (Bylaw Amendment 3156/BB-2005 and Map 24/2005)

---

**BACKGROUND**

On July 18, 2005 City Council adopted three bylaws pertaining to a proposed commercial parcel in Kentwood Northeast. These bylaws were:

- 3213/A-2005 The Northwest Major Area Structure Plan
- 3217/D-2005 Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan
- 3156/S-2005 The Land Use Bylaw

The intent of these bylaws was to identify the subject parcel for regional commercial instead of highway commercial purposes, to increase the size of the proposed commercial parcel and to redistrict it from A1 Future Urban Development District to C2 Commercial (Regional or District Shopping Centre) District.

**PROPOSED AMENDMENTS**

After the bylaws were adopted a number of minor technical and typographical errors were noticed, including some technical errors relating to mapping. Some of the errors occurred initially in the Northwest Major Area Structure Plan and were carried through to the other two bylaw amendments. ***The errors do not impact the intent or the effect of the original bylaw amendments.***

The mapping errors described below are identified on the attached maps and are in regard to the following:

1. A 2.99 m wide strip of land approximately 95 m long along the south boundary of the proposed Quantum IV commercial parcel was incorrectly designated "C2 COMMERCIAL" instead of "ROAD", which was its designation prior to the amendment. The designation of this piece of land therefore needs to be changed back to "ROAD" in the Northwest Major Area Structure Plan (Bylaw Amendment No. 3213/B-2005), the Kentwood Northeast Neighbourhood Area Structure Plan (Bylaw Amendment No. 3217/E-2005) and the Land Use Bylaw (Bylaw Amendment No. 3156/BB-2005). The changes to the Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan also include adjustment of numbers in Table 1 Plan Statistics to reflect the mapping change.

2. In the Northwest Major Area Structure Plan a portion of the wetland on the land west of the Quantum IV commercial parcel was inadvertently designated "RESIDENTIAL" instead of "OPEN SPACE", which was its designation prior to the amendment. The designation of this portion of the wetland will be changed back to "OPEN SPACE" in the Northwest Major Area Structure Plan (Bylaw Amendment No. 3213/B-2005).

Typographical errors are:

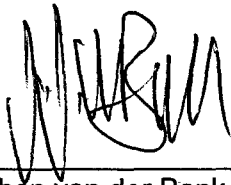

1. The date on Map 4 of the Northwest Major Area Structure Plan should be July 2005 and not May 2003.
2. The paragraph numbering on page 4 of 9 of the Northwest Major Area Structure Plan should start at 4.3 (not 4.1) and continue through to 4.6 (not 4.4) at the bottom of the page.

Planning staff contacted surrounding land owners (i.e. Laebon Developments Ltd, Quantum IV Developments Inc and the owners of the land west of the proposed commercial site). They have no concerns regarding the proposed amendments to correct the errors described above.

### **RECOMMENDATION**

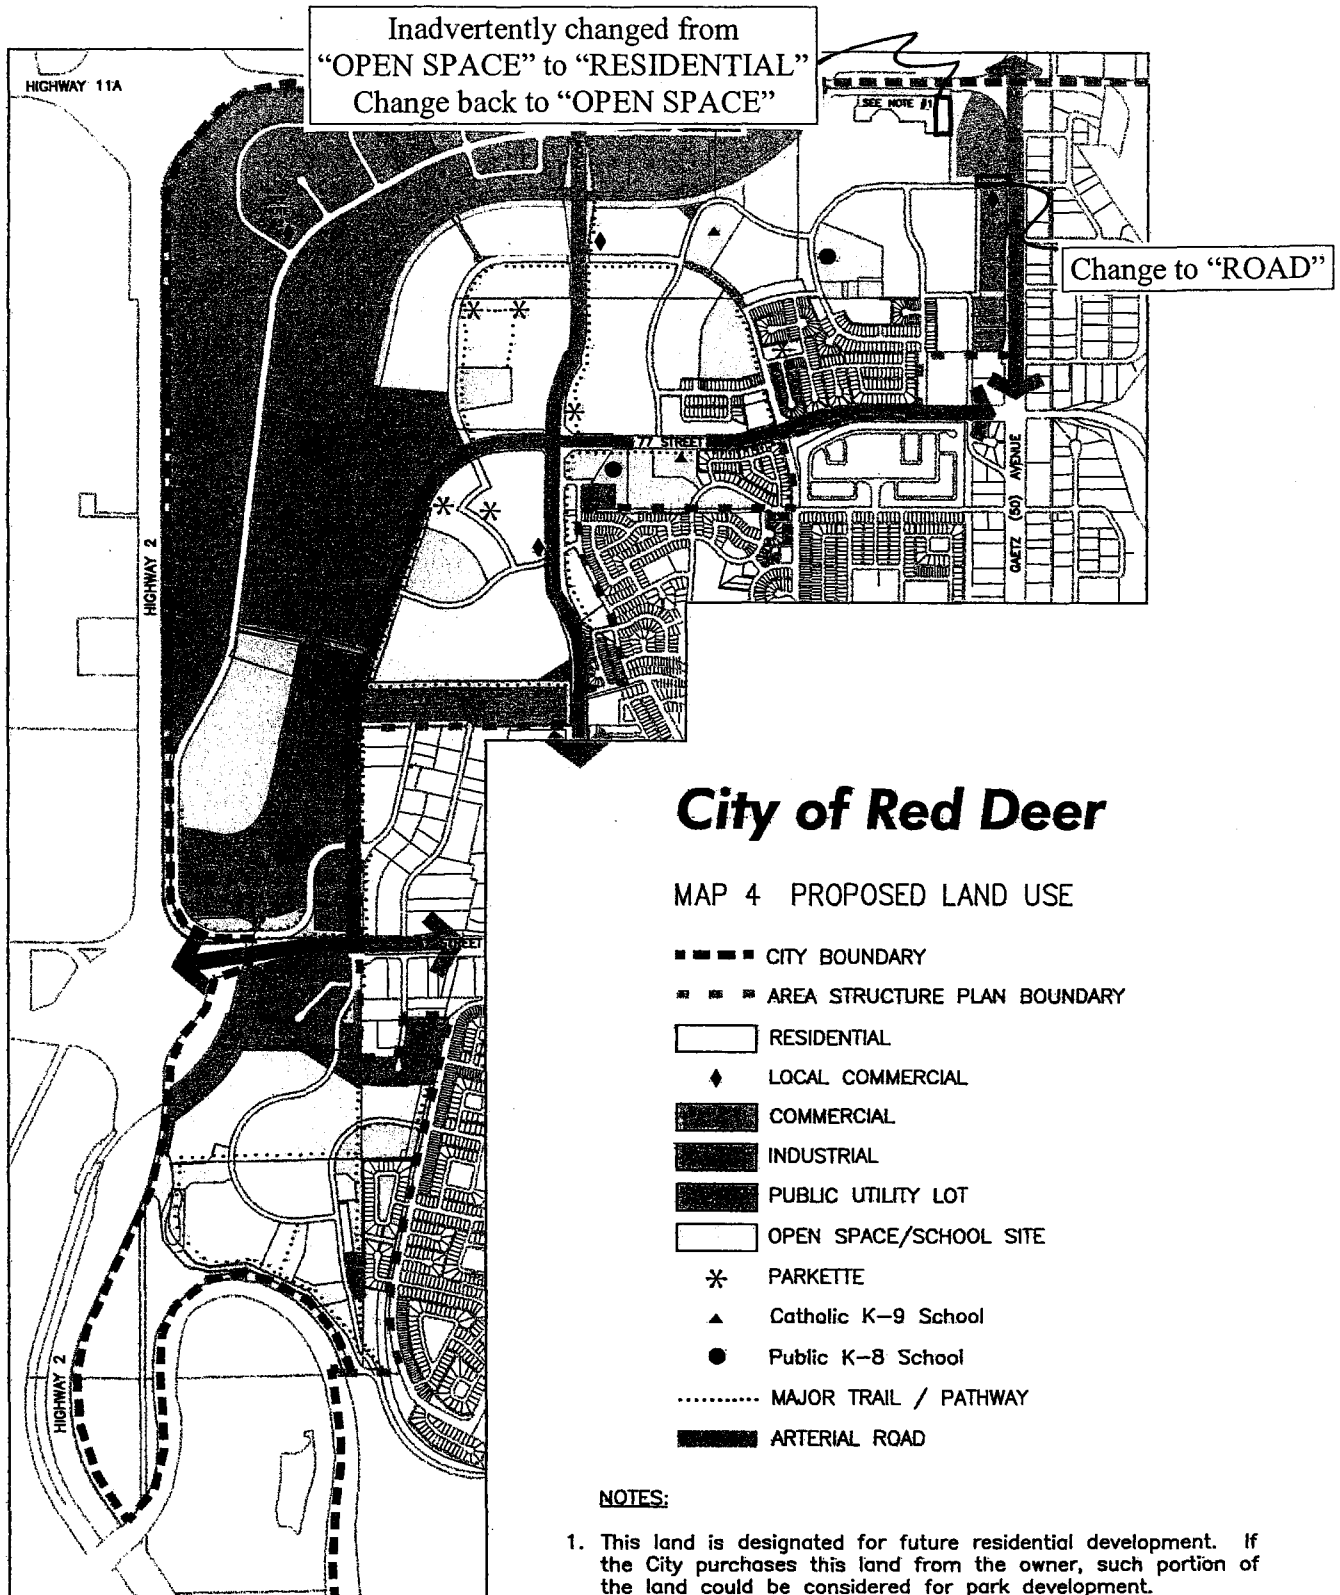

That City Council considers first reading of the following bylaw amendments:

- the Northwest Major Area Structure Plan Bylaw Amendment No. 3213/B-2005
- Kentwood Northeast Neighbourhood Area Structure Plan Bylaw Amendment No. 3217/E-2005 and
- Land Use Bylaw Amendment No. 3156/BB-2005

**BYLAW NO. 3213/B-2005**

Being a bylaw to amend Bylaw No. 3213/98, the bylaw adopting the Northwest Major Area Structure Plan as a bylaw of the City of Red Deer.

COUNCIL OF THE CITY OF RED DEER, ALBERTA, ENACTS AS FOLLOWS:

1. That Bylaw No. 3213/98 is hereby amended:

By substituting the revised page 4 of 9 and Map 4: Proposed Land Use, attached hereto and forming part of the bylaw, for the existing page 4 of 9 and Map 4: Proposed Land Use in the Northwest Major Area Structure Plan.

READ A FIRST TIME IN OPEN COUNCIL this 15<sup>th</sup> day of August 2005.  
READ A SECOND TIME IN OPEN COUNCIL this day of 2005.  
READ A THIRD TIME IN OPEN COUNCIL this day of 2005.

CITY CLERK

The density for new residential neighbourhoods shall be between 12.35 and 17.30 dwelling units per gross developable hectare, if the major utility infrastructure so permits.

#### **4.3 Industrial**

Industrial growth within the plan area is primarily focused in the area west of the railway, however there are two additional areas where industrial growth will occur. The first additional area is at the south end of Johnstone Park where there will be a small extension of the Golden West Industrial area. This extension will allow the roads to be looped; the roads currently dead-end at the quarter section line. The second additional industrial area is the area between 68<sup>th</sup> Avenue and the railway tracks. No heavy industrial uses shall be allowed in the area covered by this plan.

#### **4.4 Commercial**

There are three major commercial areas within the Northwest Area Structure Plan. These include two areas north and south of 67<sup>th</sup> Street and an area along Gaetz Avenue. All of the areas will be districted to an appropriate land use district allowing for a wide range of retail uses. These areas together with existing commercial uses along Gaetz Avenue and 67<sup>th</sup> Street will serve the northwest district.

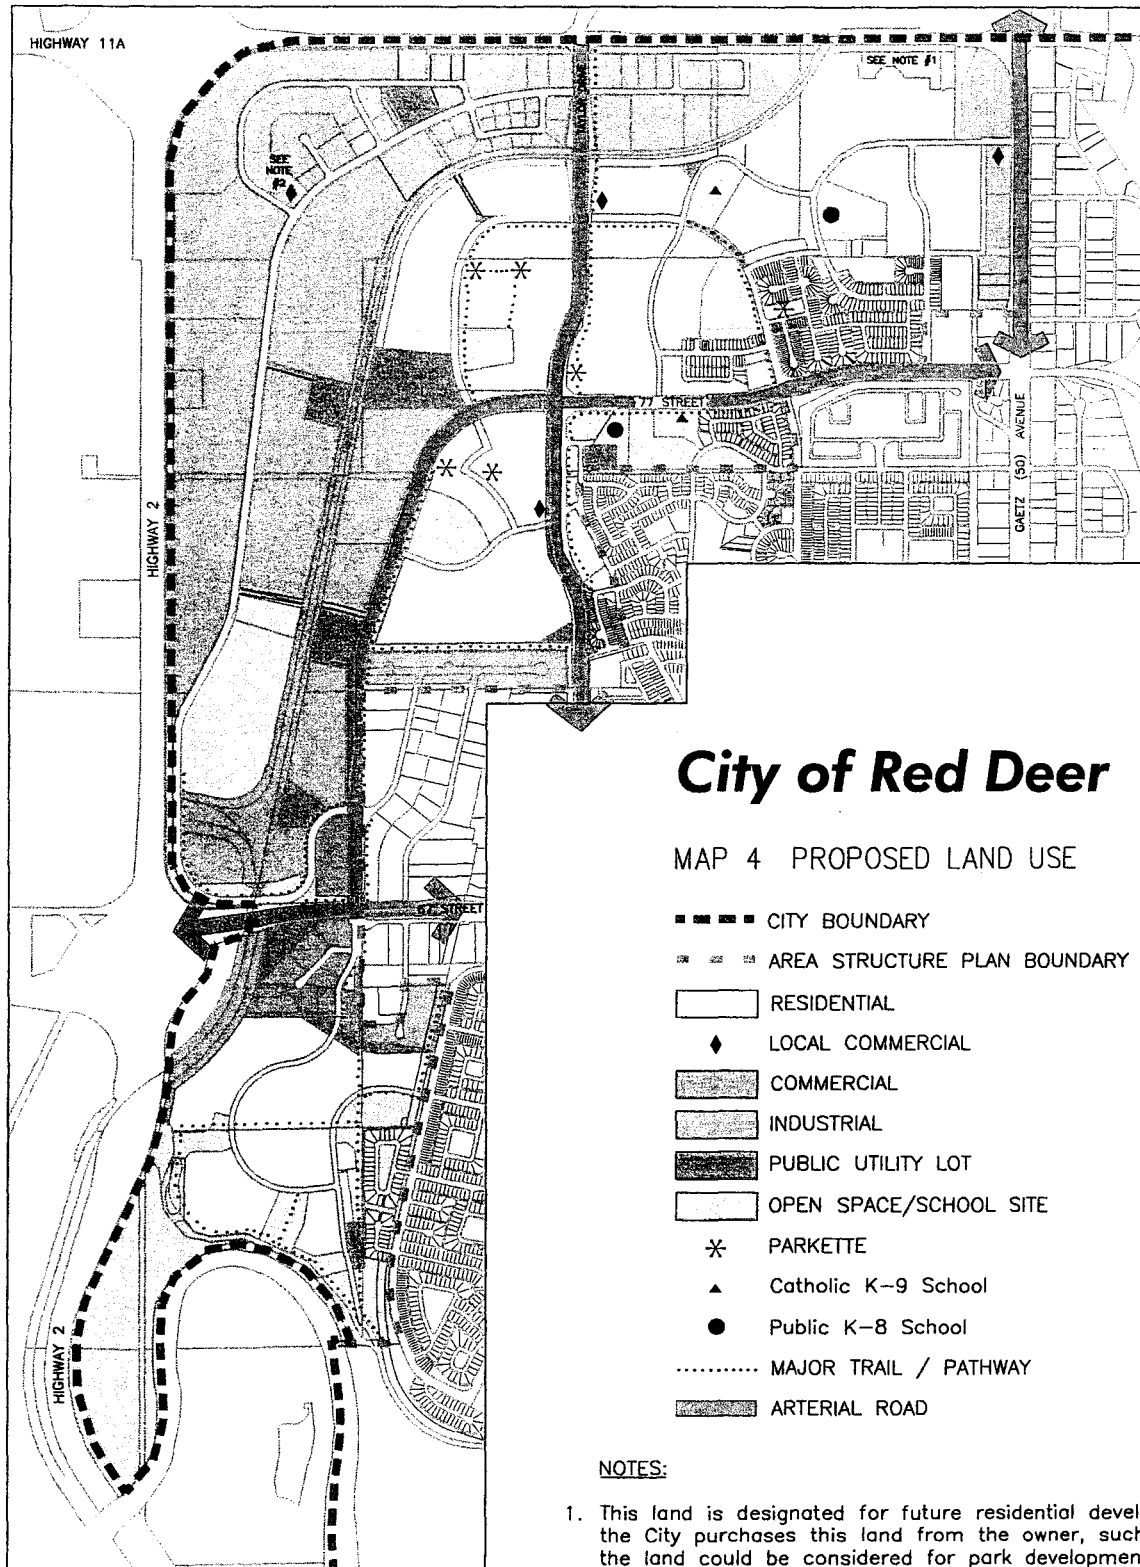

In addition to the commercial sites noted above, there are two neighbourhood convenience sites. These sites are intended to provide neighbourhood conveniences, including convenience store/gas bar, doctor's offices, hairdressing, pharmacy, video store, etc., each serving approximately two quarter sections of development.

#### **4.5 Schools**

Four school sites are proposed for the plan area. Two of the sites in the Glendale neighbourhood are existing. The two new sites include a Catholic K-9 school in Kentwood and a Public K-8 school in Kentwood. In accordance with the agreement between the City and the School Board, the school sites are provided through Municipal Reserve dedication; each school is located within a large central park site.

#### **4.6 City Level Facilities**

City level facilities are intended to serve the entire community and include arenas, recreation centres and large scale parks. Two large scale parks exist within the plan area. The first City level park is the Edgar Athletic Park which will contain a large number of sports fields. The second City level park is the Maskepetoon Natural Area. This Natural Area is intended for passive use.

Change from :

C2 to Road

MAP No. 24 / 2005  
BYLAW No. 3156 / BB - 2005

LEGISLATIVE & ADMINISTRATIVE SERVICES

August 16, 2006

Mr. David Everett  
Quantum IV Developments Inc.  
7159 – 50 Avenue  
Red Deer, AB T4N 4E4

Dear Mr. Everett:

***Northwest Major Area Structure Plan Amendment 3213/B-2005  
Kentwood Northeast Neighbourhood Area Structure Plan Bylaw Amendment 3217/E-2005  
Land Use Bylaw Amendment 3156/BB-2005  
Quantum IV Developments Inc.***

At the Monday, August 15, 2005 Council meeting, Council gave first reading to Northwest Major Area Structure Plan Bylaw Amendment 3213/B-2005, Kentwood Northeast Neighbourhood Area Structure Plan Bylaw Amendment 3217/E-2005 and Land Use Bylaw Amendment 3156/BB-2005. Copies of the bylaws are attached.

The above referenced bylaws include corrections of minor technical and typographical errors that were noticed after the Bylaws 3213/A-2005 – Northwest Major Area Structure Plan, 3217/D-2005 Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan, and 3156/S-2005 Land Use Bylaw Amendment, were adopted. The errors do not impact the intent or the effect of the original bylaw amendments. Changes include a 2.99 m wide strip of land approximately 95 m long along the south boundary of a commercial parcel that was incorrectly designated C2 Commercial instead of Road. This piece of land needs to be changed back to Road in the above referenced bylaw amendments. Other changes include an adjustment of numbers on Table 1 Plan Statistics of the Kentwood Northeast (Kingston) Neighbourhood Area Structure Plan, changing a designation of a portion of wetland from residential to Open Space, in the Northwest Major Area Structure Plan, and correcting dates on Map 4 of the Northwest Major Area Structure Plan, and paragraph numbering.

Public Hearings will be advertised for Monday, September 12, 2005 at 7:00 p.m. in Council Chambers, during Council's regular meeting. The owners of the properties bordering the site will be notified by letter of the Public Hearings. The City will be responsible for the cost of advertising in this instance.

Portion of NE ¼ Sec. 19-38-27- W4M  
Oriole Park West – Phase 8  
Reid Worldwide Corporation

---

***History***

At the Monday, August 15, 2005 Council meeting, Council gave first reading to Land Use Bylaw Amendment 3156/AA-2005.

Land Use Bylaw Amendment 3156/AA-2005 provides for the rezoning of approximately 10.11 ha (24.98 ac) of land from A1 Future Urban Development District to R1 Residential Low Density District, R1A Residential (Semi-Detached Dwelling) District, R1N Residential Narrow Lot District and P1 Parks and Recreation District in order to develop Phase 8 of the Oriole Park West neighbourhood. This will create 122 residential lots, 6 public utility lots and 4 municipal reserve lots.

***Public Consultation Process***

A Public Hearing has been advertised for Monday, September 12, 2005 at 7:00 p.m. in Council Chambers, during Council's regular meeting. The owners of the properties bordering the site have been notified by letter of the Public Hearing.

***Recommendations***

That following the Public Hearing, Council may proceed with second and third readings of the bylaw.

Portion of NE ¼ Sec. 19-38-27-W4M  
Oriole Park West - Phase 8  
Reid Worldwide Corporation

---

**Proposal**

Reid Worldwide Corporation is proposing to develop Phase 8 of the Oriole Park West neighbourhood. Phase 8 is located within the central portion of the Oriole Park West Neighbourhood Area Structure Plan (NASP). The applicant seeks to rezone approximately 10.11 ha (24.98 ac.) of land from A1 Future Urban Development District to R1 Residential Low Density District, R1A Residential (Semi-Detached Dwelling) District, R1N Residential Narrow Lot District and P1 Parks and Recreation District for the purpose of 122 residential lots, 6 public utility lots and 4 municipal reserve lots.

**Staff Recommendation**

The proposal conforms with the Oriole Park West Neighbourhood Area Structure Plan and therefore it is recommended that City Council proceed with first reading of Land Use Bylaw Amendment 3156/AA-2005.

Nona, we are in receipt of your letter of August 16, 2005 requesting payment of \$400.00 being the estimated advertising cost of rezoning approximately 10.11 ha of land provided under Land Use Bylaw Amendment 3156/AA-2005, which monies were required by today, August 24th.

As discussed just moments ago, rather than forwarding this payment at this time, please forward your invoice to my attention for the actual advertising cost once this has been determined.

Thank you for your consideration. Please call should you have any further questions or concerns in this matter.

Dear Sir/Madam:

**Re: Rezoning Oriole Park West  
Land Use Bylaw Amendment 3156/AA-2005**

---

Red Deer City Council is considering a change to the Land Use Bylaw that controls the use and development of land and buildings in the city. As a property owner in the Oriole Park West area, you have an opportunity to ask questions about the intended use and to let Council know your views.

City Council proposes to pass **Land Use Bylaw Amendment 3156/AA-2005**, which provides for the rezoning of lands in Oriole Park West, Phase 8, described as 'Portion of NE ¼ Sec. 19-38-27 W4M'. This bylaw provides for the rezoning of approximately 10.11 ha (24.98 ac) of land from A1 Future Urban Development District to R1 Residential Low Density District, R1A Residential (Semi-Detached Dwelling) District, R1N Residential Narrow lot District and P1 Parks and Recreation District. This will create 122 residential lots, 6 public utility lots, and 4 municipal reserve lots. The proposed bylaw may be inspected by the public at Legislative & Administrative Services, 2<sup>nd</sup> Floor of City Hall during regular office hours or for more details, contact the city planners at Parkland Community Planning Services 343-3394.

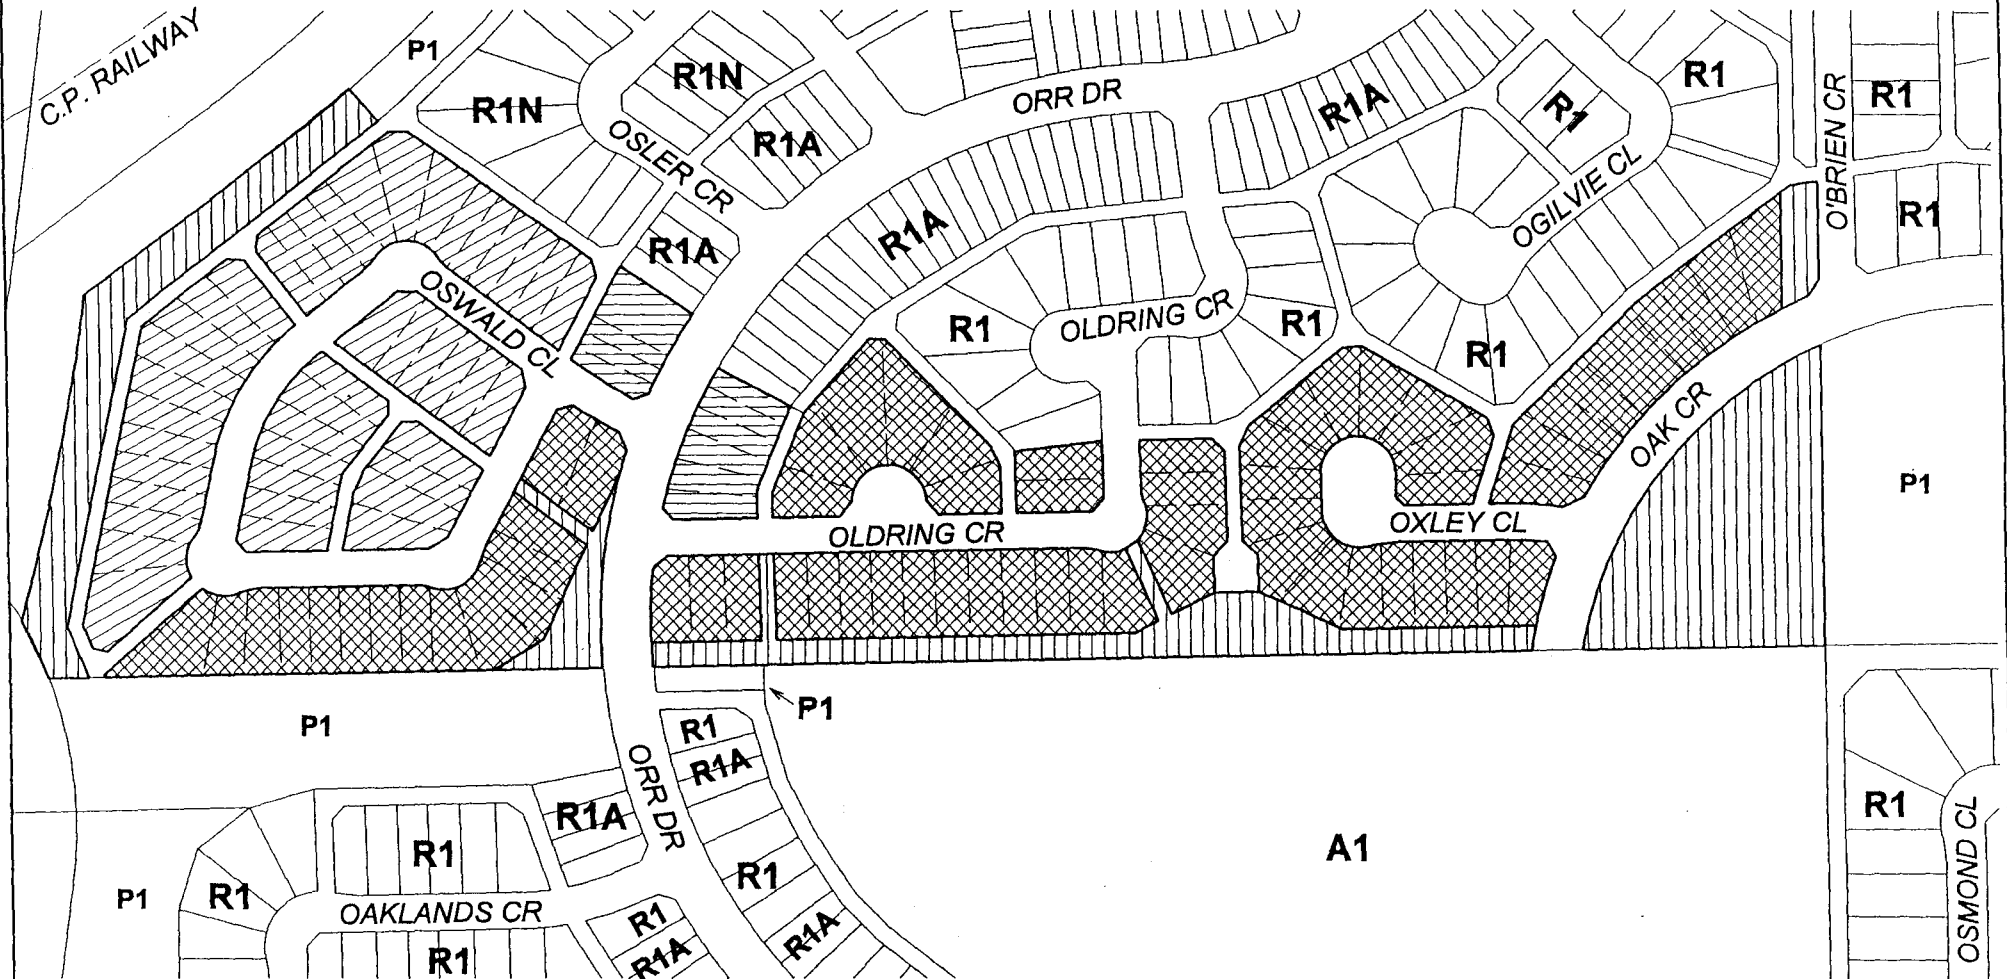

City Council will hear from any person claiming to be affected by the proposed bylaw at a Public Hearing on **September 12, 2005** at 7:00 p.m. in Council Chambers, 2<sup>nd</sup> floor of City Hall. If you want your letter or petition included on the Council agenda you must submit it to the Legislative and Administrative Services Manager by **September 6, 2005**. Otherwise, you may submit your letter or petition at the Council meeting or you can simply tell Council your views at the Public Hearing. Any submission will be public information. If you have any questions regarding the use of this information, please contact Legislative & Administrative Services at 342-8132.

Yours truly,

Kelly Kloss  
Manager, Legislative & Administrative Services

**Oriole Park West – Phase 8  
Land Use Bylaw Amendment**

Red Deer City Council proposes to pass **Land Use Bylaw Amendment 3156/AA-2005**, which provides for the rezoning of lands in Oriole Park West – Phase 8. This Bylaw provides for the rezoning of approximately 10.11 hectares (24.98 acres) of land from A1 Future Urban Development District to R1 Residential Low Density District, R1A Residential (Semi-Detached Dwelling) District, R1N Residential Narrow Lot District and P1 Parks and Recreation District. This will create 122 residential lots, 6 public utility lots and 4 municipal reserve lots.

The area to be rezoned is described as follows:

Portion of NE ¼ Sec. 19-38-27-W4M

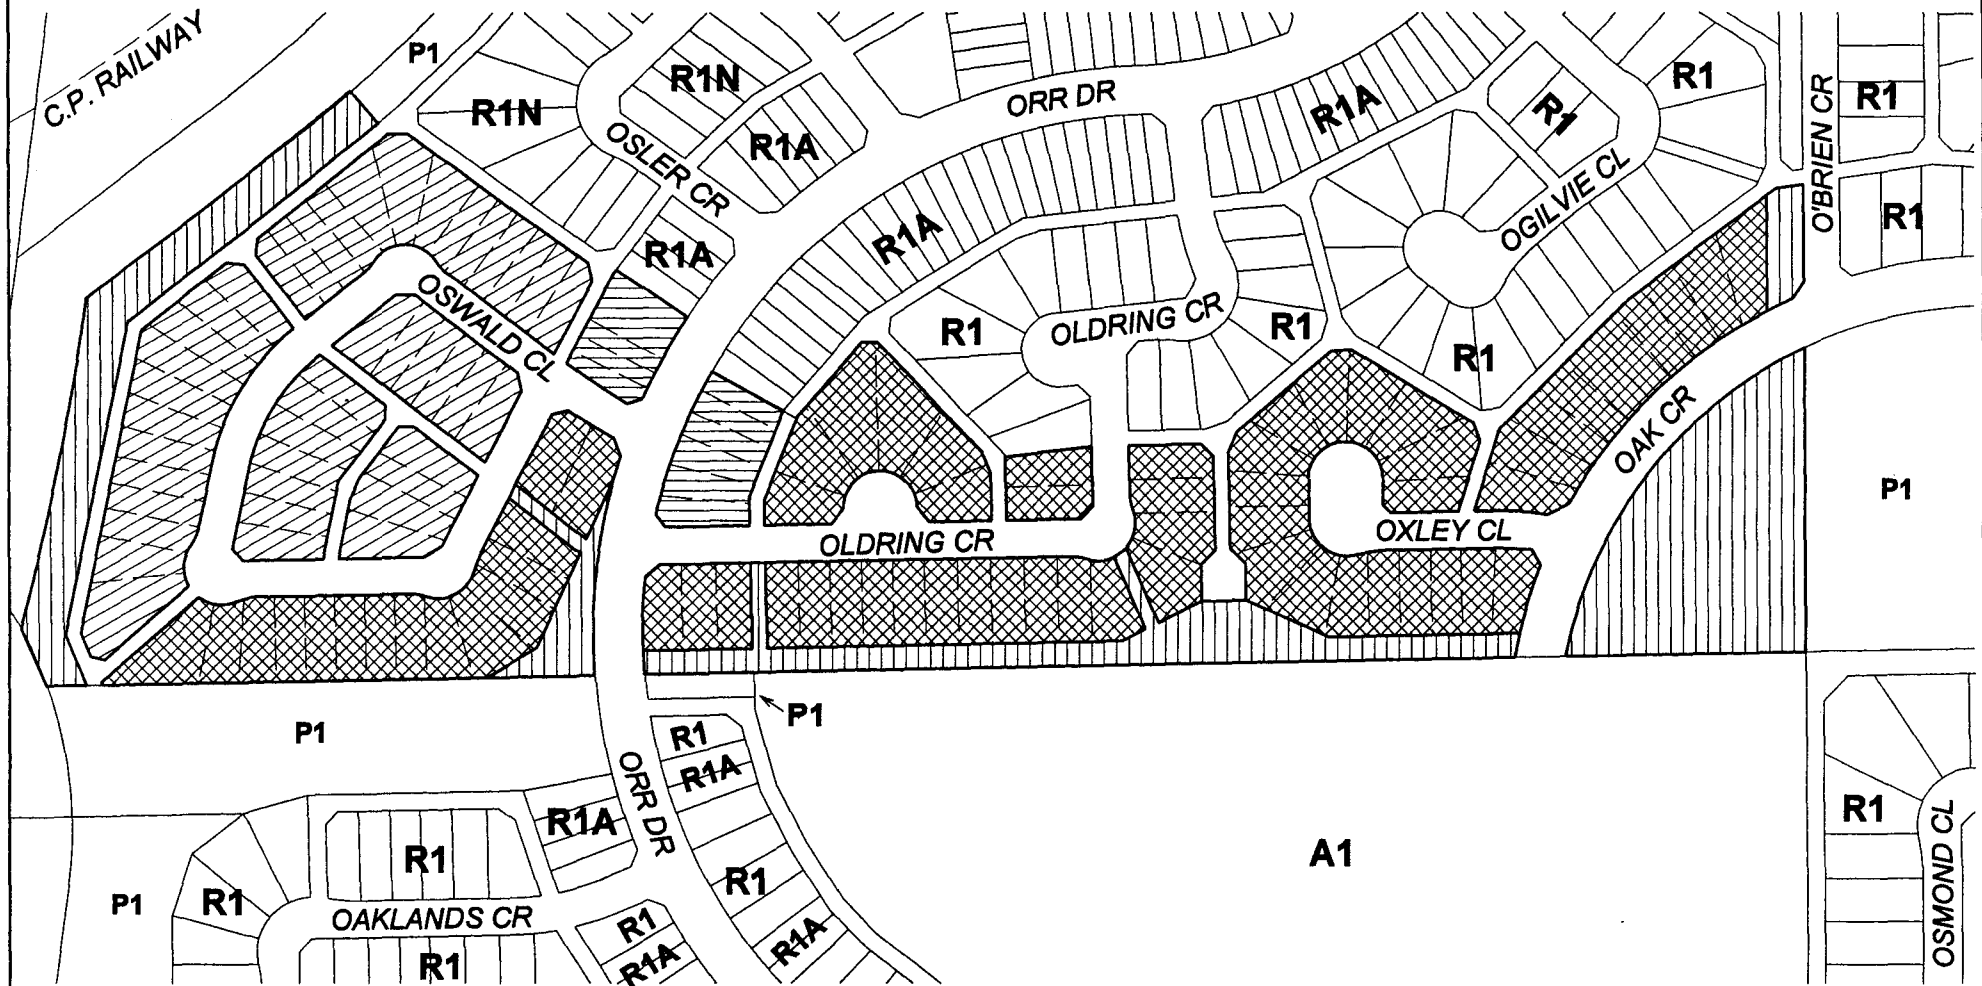

**“Map”**

The proposed bylaw may be inspected by the public at Legislative & Administrative Services, 2<sup>nd</sup> Floor of City Hall during regular office hours or for more details, contact the city planners at Parkland Community Planning Services 343-3394.

City Council will hear from any person claiming to be affected by the proposed bylaws at a Public Hearing on **Monday, September 12, 2005** at 7:00 p.m. in Council Chambers, 2<sup>nd</sup> floor of City Hall. If you want your letter or petition included on the Council agenda you must submit it to the Manager, Legislative & Administrative Services by **Tuesday, September 6, 2005**. Otherwise, you may submit your letter or petition at the Council meeting or you can simply tell Council your views at the Public Hearing. Any submission will be public information. If you have any questions regarding the use of this information please contact the Manager, Legislative & Administrative Services at 342-8132.

Portion of NE ¼ Sec. 19-38-27-W4M  
Oriole Park West - Phase 8  
Reid Worldwide Corporation

---

**Proposal**

Reid Worldwide Corporation is proposing to develop Phase 8 of the Oriole Park West neighbourhood. Phase 8 is located within the central portion of the Oriole Park West Neighbourhood Area Structure Plan (NASP). The applicant seeks to rezone approximately 10.11 ha (24.98 ac.) of land from A1 Future Urban Development District to R1 Residential Low Density District, R1A Residential (Semi-Detached Dwelling) District, R1N Residential Narrow Lot District and P1 Parks and Recreation District for the purpose of 122 residential lots, 6 public utility lots and 4 municipal reserve lots.

**Staff Recommendation**

The proposal conforms with the Oriole Park West Neighbourhood Area Structure Plan and therefore it is recommended that City Council proceed with first reading of Land Use Bylaw Amendment 3156/AA-2005.

***Oriole Park West – Phase 8***

Red Deer City Council gave first reading to *Land Use Bylaw Amendment 3156/AA-2005* at the City of Red Deer's Council Meeting held Monday, August 15, 2005. For your information, a copy of the bylaw is attached.

Land Use Bylaw Amendment 3156/AA-2005 provides for the rezoning of approximately 10.11 ha (24.98 ac) of land from A1 Future Urban Development District to R1 Residential Low Density District, R1A Residential (Semi-Detached Dwelling) District, R1N Residential Narrow Lot District and P1 Parks and Recreation District in order to develop Phase 8 of the Oriole Park West neighbourhood. This will create 122 residential lots, 6 public utility lots and 4 municipal reserve lots.

Council must hold a Public Hearing before giving second and third readings to the bylaw. This office will now advertise for a Public Hearing to be held on Monday, September 12, 2005 at 7:00 p.m. in Council Chambers of City Hall during Council's regular meeting.

According to the *Land Use Bylaw*, The City requires a deposit before public advertising. An amount equal to the estimated cost of advertising, which in this instance is \$400, is required by Wednesday, August 24, 2005. You will be invoiced for or refunded the difference once the actual cost of advertising is known.

*History*

At the Monday, August 15, 2005 Council meeting, Council gave first reading to Land Use Bylaw Amendment 3156/CC-2005.

Land Use Bylaw Amendment 3156/CC-2005 provides for the rezoning of approximately 8.39 ha (20.73 ac) of land from A1 Future Urban Development District to R1 Residential Low Density District, R3-D80 Residential (Multiple Family) District, with a maximum density of 80 units per hectare, and P1 Parks and Recreation District. This will create 59 residential lots and 3 public utility lots in order to develop Phase 6 of the Inglewood East neighbourhood.

*Public Consultation Process*

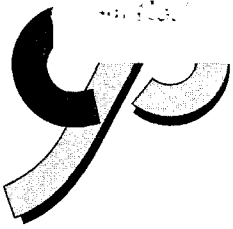

A Public Hearing has been advertised for Monday, September 12, 2005 at 7:00 p.m. in Council Chambers, during Council's regular meeting. The owners of the properties bordering the site have been notified by letter of the Public Hearing.

*Recommendations*

That following the Public Hearing, Council may proceed with second and third readings of the bylaw.

Dear Sir/Madam:

**Re: Rezoning Inglewood East  
Land Use Bylaw Amendment 3156/CC-2005**

---

Red Deer City Council is considering a change to the Land Use Bylaw that controls the use and development of land and buildings in the city. As a property owner in the Inglewood East area, you have an opportunity to ask questions about the intended use and to let Council know your views.

City Council proposes to pass **Land Use Bylaw Amendment 3156/CC-2005**, which provides for the rezoning of land in the Inglewood East Phase 6 area described as 'Portion of SE ¼ Sec. 3-38-27 W4M'. This bylaw provides for the rezoning of approximately 8.39 ha (20.73 ac) of land from A1 Future Urban Development District to R1 Residential Low Density District, R3-D80 Residential (Multiple Family) District, with a maximum density of 80 units per hectare, and P1 Parks and Recreation District. This will create 59 residential lots and 3 public utility lots. The proposed bylaw may be inspected by the public at Legislative & Administrative Services, 2<sup>nd</sup> Floor of City Hall during regular office hours or for more details, contact the city planners at Parkland Community Planning Services 343-3394.

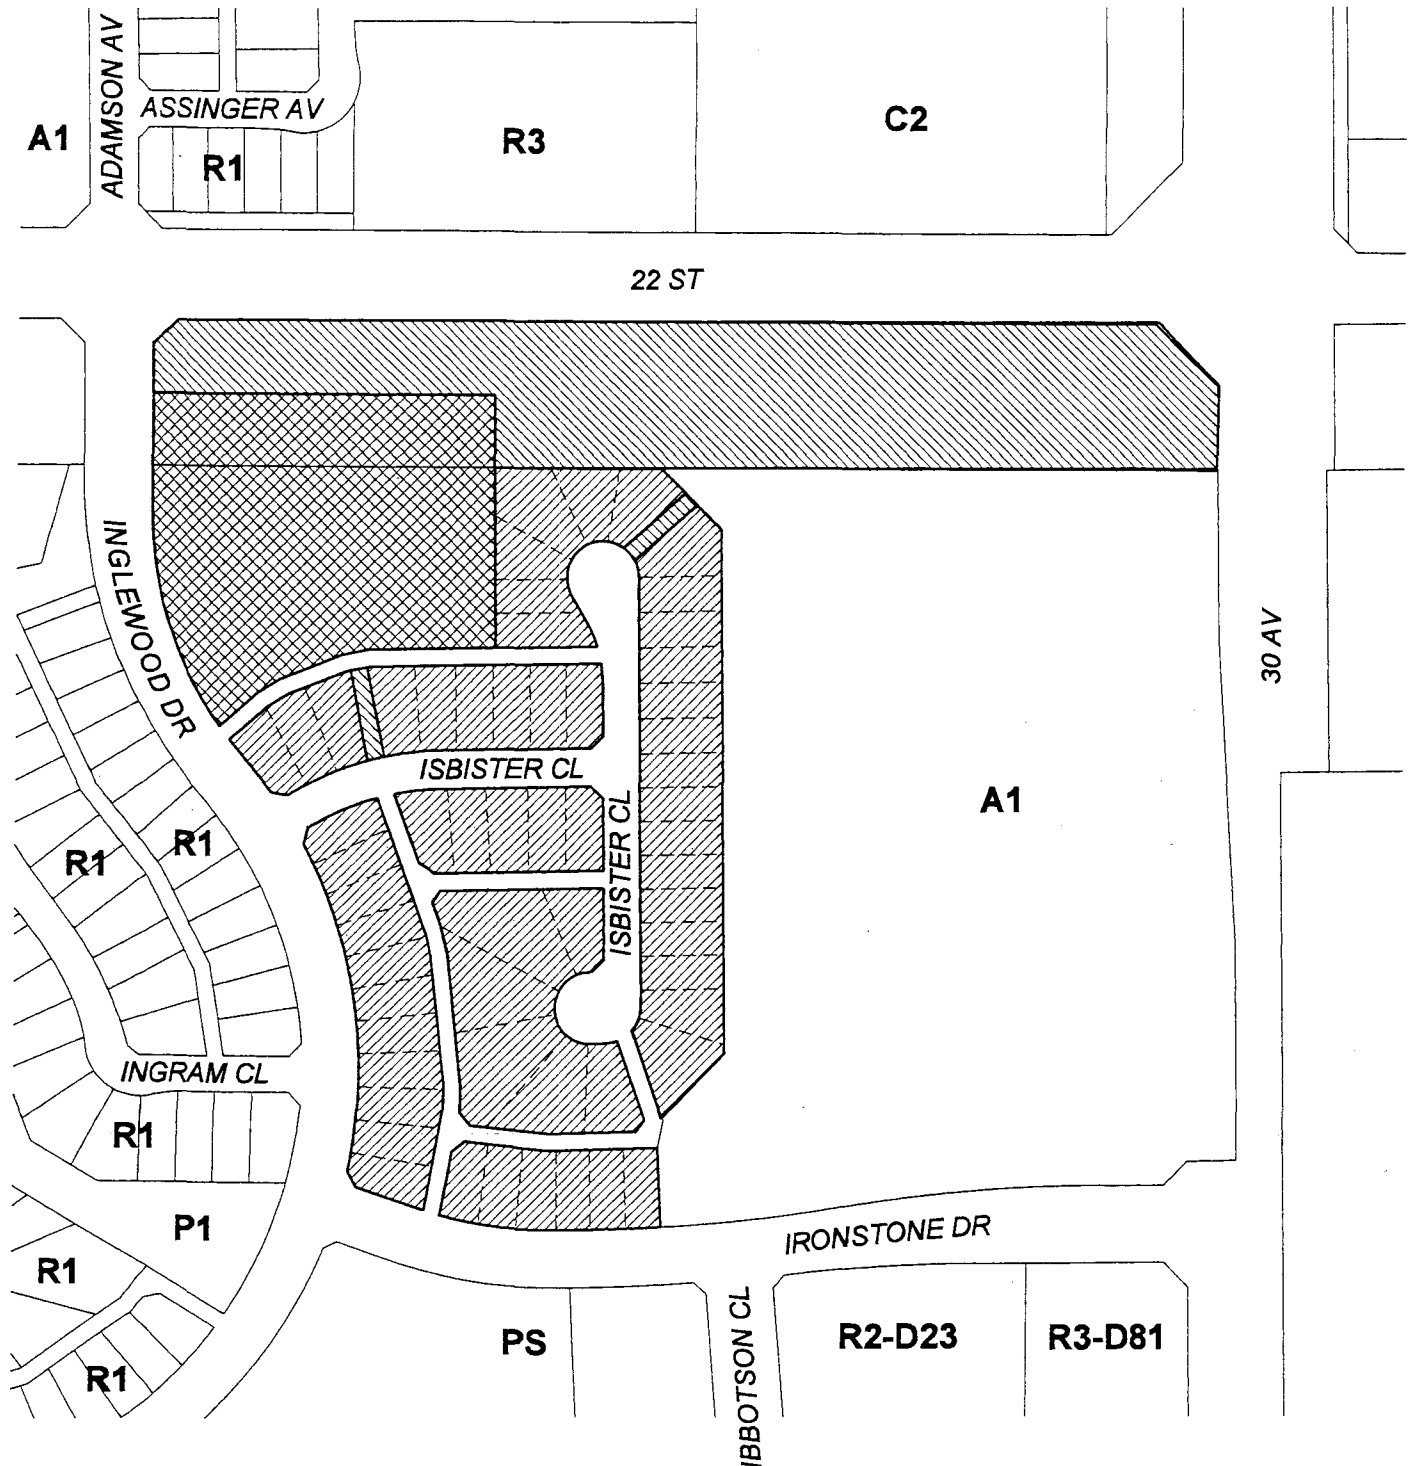

City Council will hear from any person claiming to be affected by the proposed bylaw at a Public Hearing on **September 12, 2005** at 7:00 p.m. in Council Chambers, 2<sup>nd</sup> floor of City Hall. If you want your letter or petition included on the Council agenda you must submit it to the Legislative and Administrative Services Manager by **September 6, 2005**. Otherwise, you may submit your letter or petition at the Council meeting or you can simply tell Council your views at the Public Hearing. Any submission will be public information. If you have any questions regarding the use of this information, please contact Legislative & Administrative Services at 342-8132.

Yours truly,

Kelly Kloss  
Manager, Legislative & Administrative Services

**FROM:** Martin Kvapil, Planning Assistant

**RE:** Land Use Bylaw Amendment No. 3156/CC-2005  
Portion of SE ¼ Sec. 3-38-27-W4M  
Inglewood East – Phase 6  
Melcor Developments Ltd.

---

**Proposal**

Melcor Developments Ltd. is proposing to develop Phase 6 of the Inglewood East neighbourhood. Phase 6 is located within the north central portion of the Inglewood East Neighbourhood Area Structure Plan (NASP). The applicant seeks to rezone approximately 8.39 ha (20.73 ac.) of land from A1 Future Urban Development District to R1 Residential Low Density District, R3-D80 Residential (Multiple Family) District with a maximum density of 80 units per hectare, and P1 Parks and Recreation District for the purpose of creating 59 residential lots and 3 public utility lots.

**Staff Recommendation**

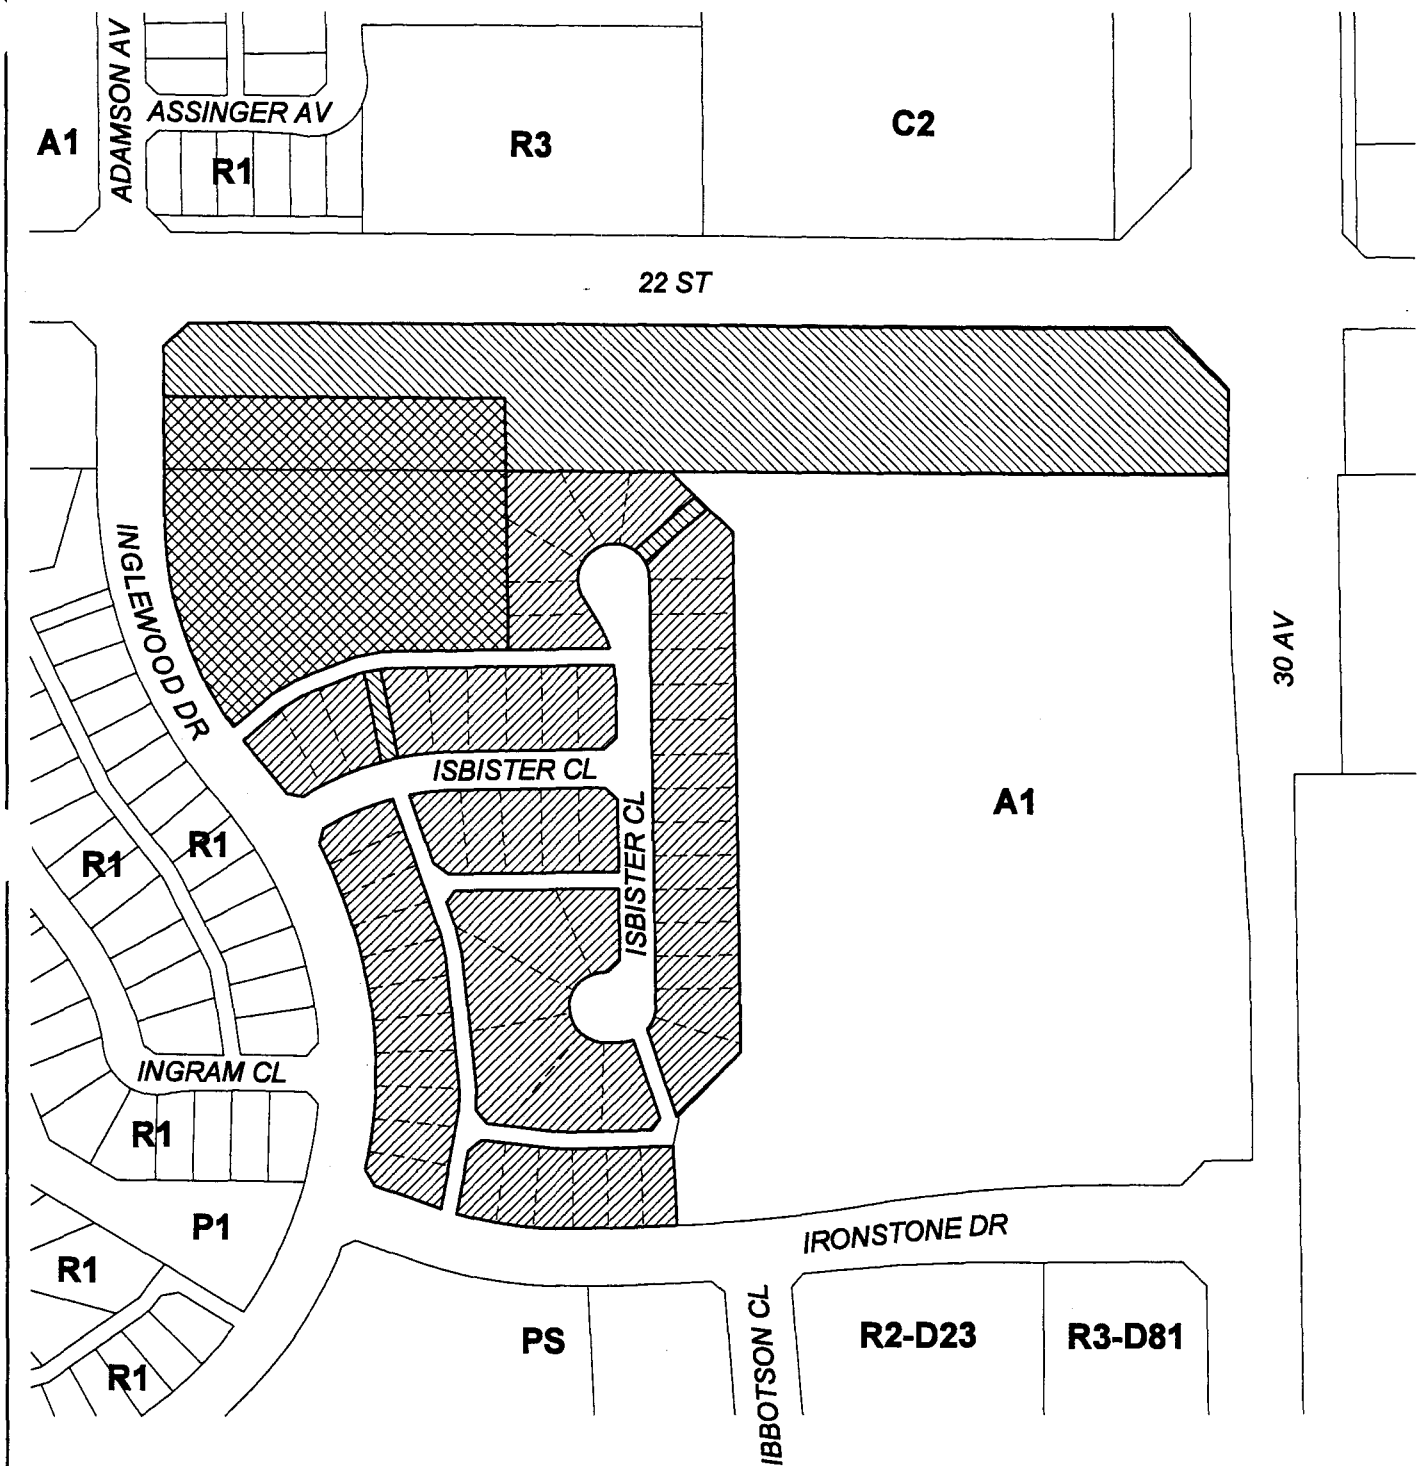

The proposal conforms with the Inglewood East Neighbourhood Area Structure Plan and therefore it is recommended that City Council proceed with first reading of Land Use Bylaw Amendment 3156/CC-2005.

*Reference Report:*

Parkland Community Planning Services, dated August 5, 2005

*Bylaw Readings:*

Land Use Bylaw Amendment 3156/CC-2005 was given first reading. A copy of the bylaw is attached.

*Report Back to Council:* Yes

A Public Hearing will be held on Monday, September 12, 2005 at 7:00 p.m. in Council Chambers, during Council's regular meeting.

*Comments/Further Action*

Land Use Bylaw Amendment 3156/CC-2005 provides for the rezoning of approximately 8.39 ha (20.73 ac) of land from A1 Future Urban Development District to R1 Residential Low Density District, R3-D80 Residential (Multiple Family) District, with a maximum density of 80 units per hectare, and P1 Parks and Recreation District. This will create 59 residential lots and 3 public utility lots in order to develop Phase 6 of the Inglewood East neighbourhood. This office will now proceed with the advertising for a Public Hearing. Melcor Developments Ltd. will be responsible for the advertising costs in this instance.

Dear Sirs:

***Land Use Bylaw Amendment 3156/CC-2005***  
***Portion of SE ¼ Sec. 3-38-27- W4M***  
***Inglewood East – Phase 6***

Red Deer City Council gave first reading to *Land Use Bylaw Amendment 3156/CC-2005* at the City of Red Deer's Council Meeting held Monday, August 15, 2005. For your information, a copy of the bylaw is attached.

Land Use Bylaw Amendment 3156/CC-2005 provides for the rezoning of approximately 8.39 ha (20.73 ac) of land from A1 Future Urban Development District to R1 Residential Low Density District, R3-D80 Residential (Multiple Family) District, with a maximum density of 80 units per hectare, and P1 Parks and Recreation District. This will create 59 residential lots and 3 public utility lots in order to develop Phase 6 of the Inglewood East neighbourhood.

Council must hold a Public Hearing before giving second and third readings to the bylaw. This office will now advertise for a Public Hearing to be held on Monday, September 12, 2005 at 7:00 p.m. in Council Chambers of City Hall during Council's regular meeting.

According to the *Land Use Bylaw*, The City requires a deposit before public advertising. An amount equal to the estimated cost of advertising, which in this instance is \$400, is required by Wednesday, August 24, 2005. You will be invoiced for or refunded the difference once the actual cost of advertising is known.

**TO:** City Council

**FROM:** Greg Scott, Manager  
Recreation, Parks & Culture

Jeff Graves, Superintendent  
Recreation & Culture Facilities

**SUBJECT:** Recreation Centre Renovations Project

---

## INTRODUCTION

The Recreation Parks and Culture Department has been overseeing the detailed design stage of the Recreation Centre Renovations Project and in accordance with the Major Facilities Planning and Construction Template, 'Phase III A' wish to seek Council approval to proceed to the 'Phase III B' Construction Phase of this project.

This report will outline and discuss the following:

- A. The Capital Cost of the Project
- B. One Time Start up Costs
- C. Proposed Annual Operating Costs
- D. Capital Cost Funding Opportunities
- E. Timeline for the Project
- F. Relocation Plans for Staff During the Project

## BACKGROUND

The Recreation Centre renovation project received Capital Budget funding approval from City Council in 2004. Funding in the amount of \$5,090,000 plus \$55,000 for public art was also approved for 2004 and 2005, which was to be available as the initial amount if the project was approved after tendering.

The original preliminary cost estimates, which was formulated from the Simpson Roberts study of the Rotary Recreation Park Facilities project, was a very preliminary costing based upon a broad concept model. It was by no means as detailed a concept as is now completed through the Major Facilities Planning and Construction template.

The Recreation Centre Renovation Project is part of The City's broader vision and planning to accommodate and respond to our growing population's needs. The 43-year-old building is in need of major repairs and upgrading. This renovation project is an important reinvestment in the Centre to bring it to current building standards and provide enhancements to more efficiently meet the needs of our users.

The renovations will upgrade and modernize the building existing 46,930 sq. feet and provide an additional 8,900 sq. feet, which is in keeping with the original Simpson Roberts concept. The Administrative offices will be located on the second floor and a new viewing area will be added to overlook the indoor pool. The main floor will expand to include a small multi-purpose studio and exercise room, both the men's and women's locker rooms will become larger, and also allow for the creation of a 'family' change area. Sauna and steam rooms will be available; a multi purpose room located off the indoor pool deck is added and the main entrance area will have increased space for the public along with elevator access to both the second floor and basement. The basement level will house three multi purpose rooms and the existing pottery and art rooms are maintained along with the 'back stage' function of the building which includes staff change rooms, storage and mechanical areas. The building heating, ventilation, mechanical and electrical system is undergoing a major upgrade to bring them to modern day standards.

The Project Team, with the support of the Senior Management Team agreed to have this project registered as a L.E.E.D.<sup>TM</sup> (Leadership in Energy and Environmental Design) project. Registration needed to occur in order for the project to provide for energy modeling prior to the project commencing and incorporating L.E.E.D.<sup>TM</sup> specifications into the project plans. This program distinguishes a building project that has demonstrated a commitment to sustainability by meeting higher performance standards in environmental responsibility and energy efficiencies.

## **DISCUSSION**

We have completed the detailed design 'Phase III A' of the Major Facilities Planning and Construction Template and have been out to tender for both the hazardous removal of materials from the building and the main construction contracts. As a result of these tenders we are in the position to proceed with the project subject to Council approval. The following summarizes the various aspects of this project.

### **A. Capital Cost of the Project:**

Three bids were received for the hazardous materials removal and two bids for the main construction project. *Appendix I* provides a summary of the project construction expenditures for this project, as per the tenders.

As previously mentioned we have registered this project as a L.E.E.D.<sup>TM</sup> project. The L.E.E.D.<sup>TM</sup> program has a number of requirements that need to be met including registration of our building project, energy modeling, energy audits, reporting additional design and energy costs. The additional architectural L.E.E.D.<sup>TM</sup> costs have been identified as \$42,700.00, which covers such things as pre-energy modeling and construction supervision in order to ensure compliance with L.E.E.D.<sup>TM</sup> specifications and post energy audits. We have applied for a Grant from Natural Resources Canada's C.B.I.P. (Commercial Building Incentive Program). This program offers a financial incentive for the incorporation of energy efficiency features in new commercial/institutional building design. Up to \$60,000.00 is available per project.

It should be noted that the intention of constructing a building to L.E.E.D.<sup>TM</sup> standards is to create a greener building that represents a significant reduction in building environmental impact, operating costs and improved indoor environment. The typical energy costs savings for a L.E.E.D.<sup>TM</sup> building similar to our renovation is 30% to 40% and the increased cost of construction of the building is in the 5% to 7% range.

### **B. One Time Start Up Costs**

*Appendix 2* outlines the costs associated with relocation of our staff and equipment, the cost of one time equipment and the cost of start up expenditures. We have broken this down by year, as the costs will occur between 2005 and 2007. These have been reviewed by Financial Services.

### **C. Proposed Annual Operative Budget**

*Appendix 3* provides a summary of changes to operational costs as a result of this project. It is also based upon 2005 dollars with no provision for inflationary or contract increases. The budget also anticipates the lease of a micro-cogeneration unit. The budget does not include loan payments for the ME First Program. These projections have been reviewed by Financial Services.

### **D. Capital Cost Funding Opportunities**

There are a number of Capital funding opportunities we are identifying as possible funding sources for this project. They include CFEP (Community Facility Enhancement Grant), Green Municipal Funds, CBIP (Commercial Building Incentive Program), Natural Resources Canada REDI Program and Service Club Contributions. We will be reviewing these sources, in consultation with the Senior Management Team, to determine those funding opportunities that can be applied to this project.

### **E. Time Line for the Project**

*Appendix 4* provides a brief timeline for this project. The timing of the project was set to have only one summer season with the outdoor pool closed.

### **F. Relocation Plans for Staff During the Project**

Plans are well underway to relocate the staff of the Recreation Centre and Administrative offices during the shut down of this facility. Program and Administration staff has been relocated to the G.H. Dawe Centre and Facility staff to Kinsmen Community Arenas. We are making provisions for a cashier in City Hall to handle Recreation, Parks & Culture transactions.

## **SUMMARY**

The Recreation Centre renovation project is an exciting project that will rejuvenate and enhance an important Recreation building and bring it back to current day standards with a bright refreshed look and functionality.

We have undertaken extensive planning for this project in accordance with the Major Facilities Planning and Construction Template. The project committee together with our architects S<sup>2</sup> Architecture is confident that we will have an excellent facility upon completion of this renovation. Additionally, the commitment to undertake a L.E.E.D.<sup>TM</sup> certified building is proof of the commitment of The City of Red Deer to energy efficiency and environmentally responsible development of this facility. Our architects, S<sup>2</sup>, will be in attendance at the Council meeting to provide Council with an overview of this project.

## **RECOMMENDATIONS**

- I. That City Council approves the Recreation Centre Renovation Project as tendered and as outlined on *Appendix 1*.

City Council  
Page 4

2. That the Capital budget for the Recreation Centre Renovation Project be approved in the amount of \$10,373,150.00 for the capital construction of this project to be funded from the 2005 and 2006 Capital Projects Reserve.
3. That Council in accordance with the Major Facilities Planning and Construction Template hereby authorizes the City Manager to approve changes within the scope of the project and may delegate authority to the Department Management Committee. Any changes outside of the scope of budget for this project are to be brought back to Council for approval.
4. That Council approves a budget of \$171,970.00 for the relocation expenditures and start up expenditures for this project to be funded from the 2005 and 2006 Capital Project Reserve.
5. That Council directs Administration to investigate grant and donation funds options for this project and report back to Council on the same.

Respectfully submitted,

---

Greg Scott  
Recreation, Parks & Culture Manager

## PROJECT TIMELINE

May	2005	Development Permit Approval
July	2005	Construction Tender
July	2005	Hazardous Materials Tender
August	2005	Building Permit Approval
August	2005	Relocation of Recreation Staff
September	2005	Award Hazardous Material Contract
September	2005	Council Approval
September	2005	Award Construction Tender
September	2005	Close facility; start Hazardous Material Abatement
November	2005	Start main construction contract
February	2007	Substantial completion

**DATE:** September 6, 2005

**TO:** LEGISLATIVE & ADMINISTRATIVE MANAGER

**FROM:** CITY TREASURER

**SUBJECT:** FUNDING RECOMMENDATION  
RECREATION CENTRE RENOVATIONS

---

City Council has previously been presented with long-range forecasts indicating that capital projects planned over the next five years could not be built unless other sources of financing were identified. Historically, the Capital Projects Reserve (CPR) has been a significant source of financing, but the demand for funding has been gradually depleting this reserve.

During the last capital budget process, it was indicated that the CPR would be depleted as early as this year, 2005. A recent analysis of the CPR shows that there is funding currently available of approximately \$4 million. This additional funding is the result of transfers from the sale of RedNet assets, transfers from the E.L. & P. reserve, etc.

Council is now considering how to finance the \$10.545 million Recreation Centre Renovation. Funding of \$5.145 million has been previously provided for from the CPR, which means a further \$5.4 million is required. There is \$4 million available in the CPR. There are a number of alternatives Council could consider to finance the remainder.

The additional funding could be financed through debt, but the borrowing process would require a borrowing bylaw and the required advertising period would further delay the project. This is likely to result in additional cost increases.

There are a number of reserves other than the CPR. For example there is approximately \$2.4 million in the Tax Rate Stabilization Reserve, much less than the recommended 45 days of expenses. There are reserves specific to utilities and business enterprises, such as the \$1.7 million parking reserve, but these reserves have specific purposes.

A short-term solution is to use some of the \$33 million Subdivision Reserve as a possible source of financing. However the longer-term impact of using Subdivision Reserve funding for the Recreation Centre could be to require debt to finance industrial land expansion.

**Recommendation:** I agree with the recommendation that \$10.545 million project be funded as follows:

- \$9.145 million from the CPR (\$5.145 previously transferred plus \$4 million) and
- up to \$1.5 million be funded from the Subdivision Reserve, to provide funding of \$1.4 million plus a contingency.

Gary Mullin, CMA  
City Treasurer

**DATE:** September 8, 2005  
**TO:** Legislative and Administrative Services Manager  
**FROM:** Controller  
**RE:** **OPPORTUNITY COSTS – RECREATION CENTRE RENOVATIONS**

---

The Major Facilities Planning and Construction Template process requires that opportunity costs be identified as part of the Construction Phase. The majority of the funding for the Recreation Centre renovations is being drawn from the Capital Projects Reserve. Generally, as reserves are utilized it reduces the funds that are available for investment purposes that in turn impact the investment revenue that the City earns. The impact of proceeding with this project is a reduction in investment revenue estimated to be \$475,000, which is the \$10,545,000 cost of the project at 4.5%.

An alternative to funding the project from reserves would have been to borrow the money. Based on a 20 year term at the current borrowing rate of 4.21% the principal and interest payments would be \$786,800 on an annual basis.

#### **RECOMMENDATION**

Submitted for Council's information.

Dean Krejci, B.Comm, CA  
Corporate Controller  
Finance & Budgeting

**DATE:** September 8, 2005

Jeff Graves, Superintendent  
Recreation & Culture Facilities

Dean Krejci, Controller  
Finance & Budgeting

**SUBJECT: ME First Program  
Recreation Centre Renovation Project  
Borrowing Bylaw # 3351/2005**

---

The Provincial Government has in place a program that promotes positive action on climate change by providing interest free loans to Alberta Municipalities. The ME First Program provides municipalities with up to \$35.00 per capita interest free loans for capital projects that achieve energy savings.

As energy efficiency is an important part of the Recreation Centre Renovation Project, we would like to take part in the ME First Program. The following items have been identified that provide for energy saving over a short period of time:

- 1) Outdoor Pool Solar Heating;
  - a) The cost of this is \$55,000.00 with an anticipated energy savings of \$7,400.00 per year.
- 2) Building Ventilation Heat Recovery;
  - a) The cost to add this heat recovery system is \$83,000.00 with an anticipated savings of \$24,000.00 per year.

Many other energy savings initiatives are being undertaken as part of Recreation Centre Renovation Project and they have varying payback ratios. We have identified the two items above. They provide for a payback in approximately five years or less. The energy audit firm who is assisting us with our L.E.E.D.™ Canada Certification has identified these savings.

ME First Program  
Recreation Centre Renovation Project  
Borrowing Bylaw #3351/2005  
Page 2

**RECOMMENDATION:**

We request Council approval to apply to the ME First Program for an interest free loan to fund the cost of providing an energy efficient outdoor pool solar system and a building ventilation heat recovery system. In accordance with the ME First Program, Council is required to give passage to a Borrowing Bylaw for this purpose. Borrowing Bylaw #3351/2005 is provided for Council's consideration.

As this bylaw is for a period of five years or less, the MGA (Municipal Government Act) Section 257 (4) does not require the bylaw to be advertised. Therefore, Council may give three readings to this bylaw, as a Borrowing Bylaw has to be approved prior to start of construction of Capital Project (MGA Section 254).

Respectfully Submitted,

Greg Scott  
Recreation, Parks & Culture Manager

Jeff Graves  
Recreation & Culture Facilities Superintendent

Dean Krejci  
Controller, Finance & Budgeting

*Comments:*

We support the recommendations of the Recreation, Parks and Cultural Manager with respect to proceeding with the renovations of the Recreation Centre. A building that has served the community well for the past forty years needs major upgrades in its space allocation as well as its mechanical systems to continue to serve the community for many years to come. That obviously requires a significant investment so that this vibrant facility in the downtown can continue to function in an efficient and customer friendly manner for the community.

This project is following the construction template process very precisely and that is why the information that is provided is different and more complete than information that may have been provided in past years in relation to these kinds of projects. We strongly support proceeding with this at this time.

“Morris Flewwelling”  
Mayor

“Norbert Van Wyk”  
City Manager

September 8, 2005

## **Recreation Centre Renovation Project**

**1. Why has The City decided to renovate the Recreation Centre now?**

The Recreation Centre renovation is part of our broader vision and planning to upgrade our aging infrastructure and respond to our growing population's needs. In 2003, we commissioned the *Red Deer Rotary Recreation Park Facilities Study*, which indicated the 43-year-old Recreation Centre was in need of major repairs and upgrades. We believe it is important to re-invest in the centre now to bring it to current building standards and provide enhancements to more effectively meet the needs of our users.

**2. What type of information did the *Red Deer Rotary Recreation Park Facilities Study* provide?**

The *Red Deer Rotary Recreation Park Facilities Study* was conducted to determine the future direction of the facilities and park space. It helped provide a broad assessment of the work and rough costing needed to upgrade the aging facilities and improve the park's functionality.

**3. What's the process The City uses when it considers building or renovating a facility?**

In April 2004, Council approved the *Major Facilities and Construction Planning Template* to guide facility renovation and construction processes. This template has helped us improve our construction process by providing more detail about role definitions, responsibilities, process steps and decision points throughout major construction projects. The template acts as a process management and information gathering tool that allows us to give Council even better information on which to base their decisions.

The template defines three phases: 1) the idea generation phase; 2) the planning phase including needs assessment and concept design stages; 3) the construction phase which covers detail design and actual construction stages. There are decision points in each of phases and stages that relate to the project's scope, timeline, funding needs and other resource requirements. Council makes 'go' or 'no go' decisions during each major phase or stage to direct the project to go forward to the next step, or to be postponed until more information is gathered, or to be cancelled.

**4. What part of the template process is the Recreation Centre renovation in?**

The Recreation Centre renovation is currently in the detail design stage of the construction phase defined in the *Major Facilities and Construction Planning Template*. On Monday, September 12 Council will decide whether the project should proceed to the actual construction stage.

The template had not been developed when the 2003 *Red Deer Rotary Recreation Park Facilities Study* was conducted and preliminary concepts and estimates were proposed for Recreation Centre renovations. As a result, the study took a broader view and approach than the template now defines. The template was applied to the Recreation Centre project in May 2004 when we hired the architectural firm for the detail design stage.

**5. It's been more than a year since the detail design stage began. Does it normally take this long for this stage?**

It depends on the project. We anticipated the Recreation Centre detail design stage to take about six months, which would have allowed us to begin the renovations in December 2004. However, the

detail design work was put on hold from June to December 2004 in order to conduct further due diligence and investigate alternate solutions that could impact Recreation Centre renovation choices. The Recreation Centre detail design resumed in January 2005. This analysis helped us make a better decision about how to proceed with the Recreation Centre renovation, however, the time delay caused greater susceptibility to the fluctuating inflationary pressures occurring in our province's booming construction industry.

**6. What steps must happen now for the Recreation Centre renovation project to begin?**

The Recreation Centre requires hazardous materials removal in order for any renovation to occur. Council will consider tenders for this process during their Monday, September 12 meeting, enabling hazardous materials removal to begin that same week.

In addition, the new detail design proposal with revised costing and timelines will be presented to Council at that meeting for a 'go/no go' decision. There are two possible outcomes that could occur:

- a. Council could make a 'go' decision on the detail design proposal as presented. In this case, detail design construction would be scheduled to start mid-November once the hazardous materials removal work was complete.
- b. Council could choose 'no go' on the detail design proposal presented and request changes based on new parameters, such as revised project scope and budget. If this scenario occurs, we will consult with the architect to adjust the detail design to meet Council's updated specifications. We anticipate this process could take between six weeks to four months, depending on the adjustment level required. As a result, the detail design construction could start between November 2005 and January 2006.

**7. What is the revised cost estimate for the Recreation Centre project?**

Preliminary figures for the Recreation Centre renovation were based on a high level cost estimate identified in the 2003 *Red Deer Rotary Recreation Park Facilities Study*. It was not intended to provide detailed numbers, simply a ballpark figure. The revised estimate is based on the current detail design which identified a number of construction factors, energy efficiency enhancements and environmental issues that were not considered in the 2003 study. The entire project cost is approximately \$10.5 million which covers:

Capital construction costs totaling \$10.3 million including:

- pre-construction costs such as architectural, environmental assessment, planning, testing and permit fees;
- tendered bids for building construction including hazardous materials removal, material and labour costs, administrative fees to manage the construction work, and a contingency amount to manage unexpected expenses;
- public art; and,
- capital equipment purchases such as furnishings, fitness and audio visual equipment.

Operational costs of \$200,000 including:

- staff relocation; and,
- start-up costs.

**8. Why is this figure higher than recent estimates of between \$5 million and \$8 million?**

The \$5 million to \$8 million figures represent the projected range for building construction costs alone, based on the original rough estimates outlined in the 2003 *Rotary Recreation Park Facilities Study* and construction estimates the detail design architect assessed this spring. These figures do not include pre-construction costs, amounts for public art, funds needed to purchase capital equipment, or costs to resume operations after the renovation.

In addition, the estimates didn't factor inflationary trends associated with Alberta's booming construction industry, such as rising material and labour costs. The difference in estimates from 2003 to 2005 also correlates with changes The City has seen in project submissions we have received through our tendering process in recent years. Bids submitted between 2002 and 2005 have shown increases between 20 and 40 per cent causing large variances between initial project estimates, detail design costing and actual construction phases. The variances are the result of shifting costs for labour and materials such as structural metals, woods, plastics, finishes, and mechanical and electrical services.

According to provincial data, the Alberta construction industry is more active this year than in the past two years. In June 2005 there were 229 major projects identified in the Central Alberta Region as being underway, proposed or recently completed, compared to 180 in June 2003. Current provincial records for the entire province indicate there are more than 1,000 construction projects valued at \$2 million or more underway, recently completed or scheduled to start within two years throughout Alberta. This overall volume is placing significant pressures on construction costs and contractors' ability to respond to tenders. The City has experienced these pressures. In July 2005 we had to scale back our Alexander Way project because only one contractor submitted a bid and then withdrew when the available budget and pricing could not be aligned.

**9. How many bids did The City receive for the Recreation Centre renovation project?**

We received three bids for hazardous materials removal and two bids for the main construction project. The bids for both components of the renovation project fell within industry standards and expectations for contract costing and specifications.

**10. Has The City done anything to try to bring the new detail design costs down?**

Yes. Throughout the detail design stage, the project team made choices to ensure the project was being planned and priced as efficiently and effectively as possible. A number of 'nice-to-have' elements that wouldn't affect the way the building operated were scaled back or eliminated to decrease costs. For example, plans for a second service elevator were cancelled; the lawn will be seeded instead of landscaping with more expensive sod; and standard double glazed glass will be used in the administrative areas of the building, while the pool-area windows will have triple glazing to assist with energy efficiency in that space.

**11. What kind of environmental initiatives and energy efficient design will be included in the proposed renovation?**

The City is committed environmental stewardship by providing design options that integrate green building and energy conservation measures in new development and redevelopment projects. As part of this commitment, we will assess the related benefits and costs of the environmental initiatives and strategies we choose to ensure they meet The City's conservation and reduction philosophy.

Before renovations can begin on the Recreation Centre, we will be removing hazardous material from the existing structure to ensure it is environmentally safe and meets today's standards. The

project includes a number of design, material and equipment choices to create a greener building that offers an improved indoor environment, while reducing the effects on our ecosystem. For example, we will be using a variety of green products like eco-friendly paint and including energy efficient features such as solar pool heating, an air-to-air reclaim system, a micro-cogeneration system, chiller heat rejection and high efficiency condensing boilers. We will also be recycling approximately 50% of the demolition waste.

**12. Is The City following any green building standards?**

The City has registered the Recreation Centre renovation as a Leadership in Energy and Environmental Design (LEED™) project. The LEED™ program allows for energy modeling and auditing and provides specifications to incorporate into project plans. It distinguishes a building project that has demonstrated commitment to sustainability by meeting higher performance standards in environmental responsibility and energy efficiency. Currently only a handful of buildings in Alberta have this designation.

**13. Will the energy efficiency features save The City any money?**

Yes. We have energy consumption models based on the original detail design which shows approximately 40% greater energy efficiency, leading to an annual average energy cost savings of about 25 per cent. This modeling will be recreated once the renovations are complete and the systems are all operating to give us an up-to-date accurate estimate. However, using the existing model's projections, we can expect to save about \$45,000 each year on our existing operating expenses.

Also, by incorporating extra energy efficiency features into the redesign, we have the ability to apply for a number of federal and provincial grant and loan programs to help offset the renovation costs.

**14. How will the renovations change the building?**

People will notice the most change inside the building. Our goal is to provide a wellness centre experience. The renovations will give the Recreation Centre a bright, refreshed look by bringing it up to current day standards. The main floor will be reorganized with a new reception area, expanded indoor pool deck and enlarged administration area. Based on feedback from users and staff, we are planning on incorporating a family change room and upgrading the existing change areas, as well as improving the program spaces, wading pool and pool decks.

However, the changes our users will see are only a minor part of the redesign. The biggest transformation will happen behind the scenes. Our mechanical, electrical and environmental systems will be upgraded to bring greater operating and energy efficiencies to our daily operations, contributing to users' overall experience of the facility.

**15. When do you expect the construction work to begin on the Recreation Centre?**

If Council makes a 'go' decision on September 12 to move the project forward, renovation work will begin immediately.

**16. Will The City be using some of the \$75 million infrastructure funding the Province recently announced for Red Deer to fund the Recreation Centre renovations project?**

Although the Province has announced that The City of Red Deer will be receiving \$75 million in infrastructure funding, we haven't allocated any of the money to specific projects at this time since it hasn't been transferred. No matter how the provincial funding is allocated, it is beneficial to The City because it creates more capacity for us to reinvest in aging infrastructure or develop new projects that are part of our longer-term vision and planning.

**17. What other projects is The City considering as part of its broader vision and planning?**

The City is committed to providing service and opportunities that enhance our citizens' quality of life. We believe in creating a safe, healthy environment with amenities and programs that offer citizens a range of experiences that support individuals and families and strengthen our community into the future. As part of our broader vision and planning, we are also considering upgrades that the 25-year-old G.H. Dawe Centre will require in the coming years. The *Red Deer Rotary Recreation Park Facilities Study* also prompted us to begin a site evaluation for the Red Deer & District Museum & Archives in the fall of 2004. We expect to reach a decision on that site sometime this fall. In addition, as part of our longer-term planning and visioning, there is also work being done on facility development options for Emergency Services, the RCMP, The City's West Yards and City Hall space. Direction on how to sustain and improve our park system is being identified through the *Trails and Pathways Master Plan* that was recently completed and the *Waskasoo Park Special Gathering Places Study* that is currently underway.

**18. Where can I get more information about the proposed Recreation Centre renovation project?**

You can get more information about the Recreation Centre renovation project on The City of Red Deer Web site at [www.reddeer.ca](http://www.reddeer.ca) under 'Keeping You Informed' and through the 'Recreation Parks & Culture' pages. These sections will be updated regularly. You can also contact Jeff Graves, Facilities Superintendent at 309-8419.

September 8, 2005

## **Council to consider Recreation Centre renovation project**

(Red Deer, Alberta) – On Monday, September 12, City Council will be reviewing the Recreation Centre renovation project to provide a 'go / no go' decision on the next steps in the process. At this time, tenders for hazardous materials removal and a new detail design with revised costing and timelines will be considered.

The City has been planning a renovation to the Recreation Centre since the 2003 *Rotary Recreation Park Facilities Study* indicated the 43-year-old building required major renovations and upgrades. If Council makes a 'go' decision at its Monday meeting, The City is prepared to begin the renovation process immediately.

"With the construction industry currently booming and construction companies working to tight timelines on multiple projects, we have taken steps to be ready to accommodate them starting the Recreation Centre renovation project as soon as possible after Council makes a decision," said Greg Scott, The City of Red Deer's Recreation, Parks and Culture Manager. "Knowing this could happen next week, we have notified our contractors of potential start dates and closed the building to prepare for the proposed construction."

The Recreation Centre renovation is part of The City's broader vision and plans to upgrade its aging infrastructure and respond to Red Deer's growing population needs.

Attention: Dean Krecji

**Re: Borrowing Bylaw – Recreation Centre**

Dear Dean:

This letter is in response to your request for comments on a proposed Borrowing Bylaw for funds to be used to install energy saving features as part of the renovation of the Recreation Centre.

From a legal point of view, the formal contents of a borrowing bylaw are set out in s. 251 (2) of the MGA. However in addition to this, the lending party (Alberta Capital Financing Authority) has prescribed a form of bylaw to be used. While the form that they specify does contain some features that are not essential from a legal point of view, if they require a bylaw in a particular format in order to consider a loan application, I see no harm in following their format.

## **Section 251 Requirements**

**251(2)** A borrowing bylaw must set out

- (a) the amount of money to be borrowed and, in general terms, the purpose for which the money is borrowed;

*This is set out in the preamble and in paragraphs 1 and 2 of the Bylaw;*

- (b) the maximum rate of interest, the term and the terms of repayment of the borrowing;

*Covered in paragraph 3 of the Bylaw.*

- (c) the source or sources of money to be used to pay the principal and interest owing under the borrowing.

*Set out in paragraph 4 of the Bylaw.*

**ACFA Form**

In accordance with the ACFA guide, the borrowing bylaw "should be substantially in the same format as set out in Appendix B" of the guide. The only item in the draft bylaw that appears to be missing is a reference in the bylaw to the principal amount of the debt of the municipality as at December 31, 2004. This information is set out in the recommended form. I am not sure why ACFA suggests that this be set out in the bylaw itself, since they do require a separate form to be submitted along with the bylaw that will make a declaration on this point.

**Summary**

In my view, the draft bylaw is perfectly satisfactory and is substantially in the same format as that required by ACFA, with the sole exception of a reference to the amount of the City's debt. Accordingly, I see no reason why they would not accept it. However, out of an abundance of caution, you may want to forward a copy of the draft bylaw to ACFA for their comment prior to presentation of the bylaw to Council.

I hope this answers your concerns but please advise if you want further comment.

Yours truly,

**Donald J. Simpson**

## 2005-2006 GUIDELINES

[www.climatechangecentral.com/mefirst](http://www.climatechangecentral.com/mefirst)

BACKUP.  
- REC CENTRE

**ME**first!

a Municipal Energy  
efficiency assistance program

**Alberta**  
MUNICIPAL AFFAIRS

# 2005-2006 GUIDELINES

## GENERAL INFORMATION

As part of its commitment to energy efficiency in the Alberta government's action plan on climate change, this first-of-its-kind program provides interest-free loans to help Alberta municipalities:

- Achieve energy savings;
- Reduce greenhouse gas emissions; and/or
- Replace conventional energy with renewable or alternative sources in their operations and within their communities.

*ME first!* is a four-year (2003-2006), \$100 million interest-free loan program to assist municipalities to undertake energy efficiency projects.

The interest-free loans will be available to municipalities in the following manner:

- \$35,000 for municipalities with a population of 1,000 or less;
- \$35 per capita for municipalities with a population of between 1,000 and 100,000;
- \$20 million for each of Calgary and Edmonton; and
- \$10 million in additional funding for special innovative projects.

Eligible applicants include all cities, towns, villages, municipal districts, specialized municipalities, summer villages, Métis settlements, improvement districts, special areas, and regional services commissions in Alberta.

## PROJECTS QUALIFYING FOR FINANCIAL SUPPORT

Priority will go to projects focused on municipal infrastructure and operations under direct municipal control.

Examples include:

- municipal building retrofits (e.g. arenas and swimming pools) that serve to improve the energy efficiency of current operations (e.g. lighting retrofits);
- new building construction (e.g. additional cost of energy efficient alternatives);
- transportation infrastructure (e.g. streetlight retrofits);
- vehicle fleets (e.g. conversion to alternative fuel);
- upgrades to water and wastewater facilities (e.g. pumps and aerators); and

- renewable (e.g. solar/wind power) and alternative energy (e.g. combined heating and power facilities, landfill gas capture).

Innovations in management or administration, such as utility partnerships within and between municipalities, are also eligible for support.

**Note: Not all projects are eligible for funding, such as:**

- Public transit;
- Learning and Regional Health Authority facilities; and
- Wildlife, environment or habitat management projects or the creation or upgrading of parks.

## REVIEW AND APPROVAL PROCESS

Applications will be reviewed semi-annually by a committee made up of representatives from Climate Change Central, Alberta Environment, Alberta Municipal Affairs, the Alberta Capital Finance Authority, the Alberta Urban Municipalities Association, and the Alberta Association of Municipal Districts and Counties.

In most cases, municipalities will be notified of the results of their application no later than three months after the appropriate application closing date. In the event that the program is oversubscribed after the first round of applications in a given year, eligible projects will be retained for future consideration. Projects that do not meet program criteria can be revised and resubmitted.

# PREPARING THE APPLICATION

Application deadlines are June 1, 2005, December 1, 2005, June 1, 2006, and December 1, 2006.

The following information is designed to guide municipalities in preparing and submitting a completed application attachment form. A template is available at [www.climatechangecentral.com/mefirst](http://www.climatechangecentral.com/mefirst).

## 1. PROJECT DETAIL

### A. Project Description

Provide responses to the following questions:

What is the energy efficiency/ greenhouse gas emission reduction project you intend to undertake?

How do you propose to undertake this project?

Is the project innovative and if so, how? (see C. Innovation)

- Achieves verifiable energy savings; and/or
- Replaces conventional energy sources with renewable or alternative energy sources.

### C. Innovation

*ME first!* encourages innovative projects. Describe how the project advances best practices, and/or introduces new technology.

### B. Strategic Fit with Objectives of

#### *ME first!*

Describe how the project meets one (or more) of the following objectives:

- Achieves verifiable greenhouse gas emission reductions;

### D. Capability

Describe the qualifications and relevant experience of all team members to successfully complete this project (e.g. will a contractor be hired for this project? If so, what are his/her qualifications?).

## 4. MORE THAN ONE PROJECT

*ME first!* is administered on a per capita basis. Participating in more than one project means that each municipality must assign a percentage of its population to that particular project. Funding for the four-year program will be based on the population counts found in the 2002 Official Population List, issued by Alberta Municipal Affairs. Depending on the budgets of the project(s) selected, this could allow a municipality to participate in more than one *ME first!* project.

## 5. FINANCIAL INFORMATION

The loan must meet the requirements of the *Municipal Government Act*, must be approved by Council(s) and the Alberta Capital Finance Authority, and will have a structured lending and specific repayment arrangement, not to exceed five years.

The application attachment must provide the following information:

- a detailed project budget (including all costs and revenues);
- a certified copy of the borrowing bylaw;
- a copy of the debt limit worksheet; and
- an expected payback period during which the energy efficiency goals for each project will be achieved.

## 2. MANAGING PARTNER

*ME first!* encourages projects that are based on partnerships. If the project is a partnership, one municipality must be identified as the managing partner. This lead partner is responsible for managing and being accountable for the project, which includes entering into a loan agreement with the Alberta Capital Finance Authority, receiving the funding, and reporting to Climate Change Central on behalf of the partnership. Partnership resolution templates are available from Climate Change Central.

## 3. PARTNERSHIPS

Name each municipality and identify the percentage of the municipality's program eligibility assigned to this particular project. In the case of partnership projects, has a joint municipal council/committee been established to oversee the project? Describe any planned arrangements to manage the partnership project.

## 6. IMPLEMENTATION SCHEDULE

Applicants should identify the key steps involved in implementing the project along with expected target dates. The application should address ongoing resources, scheduling and implementation issues that could affect the successful completion of the project.

**Note: The project must be initiated within one year of application approval.**

## 8. ENERGY AUDIT REFUND

A professional organization or an individual with the appropriate credentials and/or experience may be needed to complete section 7 of the application attachment. If the services of a professional energy auditor have been employed, attach a copy of the energy audit and the energy audit invoice to your application. Energy audits conducted within the last three years may be used as part of the *ME first!* application process, and are eligible for an energy audit refund.

## 7. ENERGY EFFICIENCY PLAN / ENERGY ASSESSMENT REPORT

### A. Projected Energy Savings

Provide an estimate of annual energy savings in kilowatt hours (kWh), gigajoules (GJ) and/or litres (l) of fuel. Summarize the projected energy savings for each component of the project and provide a total energy savings. Indicate whether or not the calculations are estimates, verifiable and/or have received third party verification. Provide a life expectancy for each component of the project.

### B. Formal Confirmation

Include a formal confirmation that this project represents your municipality's commitment to contribute toward greenhouse gas emission reductions within the municipal sector.

### C. Education, Training, Outreach and Awareness

Describe any activities undertaken or planned to communicate, explain or encourage energy conservation and greenhouse gas emission reductions within your organization and within your community.

## 9. REPORTING

Municipalities will be sent two project completion reporting forms after notification of loan approvals. The first report will include a summary of financial information and is due once the project is completed. The second report is due one year after the project is completed and will include a summary of the actual energy savings achieved by the project.

## FOR MORE INFORMATION

If you have any questions or require further information on *ME first!* please contact the *ME first!* Program Manager at 403.517.2700 or 1.866.609.2700 (toll free) or e-mail at [mefirst@climatechangecentral.com](mailto:mefirst@climatechangecentral.com).

***Resolutions:***

*"Resolved* that Council of the City of Red Deer, having considered the report from the Recreation, Parks and Culture Manager, dated September 7, 2005, re: Recreation Centre Renovations Project, hereby:

1. Approves the Recreation Centre Renovation Project as outlined on Appendix I, of the above noted report, presented to Council on September 12, 2005.
2. Approves the Capital Budget for the Recreation Centre Renovation Project in the amount of \$10,373,150 for the capital construction of this project to be funded as follows:
  - (a) \$9.145 million from the Capital Projects Reserve and
  - (b) Up to \$1.5 million from the Subdivision Reserve.
3. Authorizes the City Manager, in accordance with the Major Facilities Planning and Construction Template, to approve changes within the scope of the project and may delegate authority to the Department Management Committee. Any changes outside of the scope of budget for this project are to be brought back to Council for approval.
4. Approves a budget of \$171,970 for the relocation expenditures and start up expenditures for this project to be funded from the 2005 and 2006 Capital Project Reserve.

5. Directs Administration to investigate grant and donation funds options for this project and report back to Council on the same."

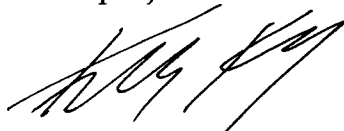

***Bylaw Readings:***

Borrowing Bylaw 3351/2005 was given three readings. A copy of the bylaw is attached.

***Report Back to Council:*** Yes

***Comments/Further Action:***

A report is to be brought back to Council regarding grant and donation fund options for this project.

## **BYLAW NO. 3351/2005**

A Bylaw to authorize the borrowing of \$138,000 to pay for improvements to The City of Red Deer Recreation Centre.

### **WHEREAS:**

The cost of improvements to The City's Recreation Centre is estimated to be \$10,373,150 which The City proposes to pay for as follows:

Reserves	\$ 10,235,150
Debentures	\$ 138,000
<b>Total Cost</b>	<b>\$10,373,150</b>

To pay for completion of the project The City needs to borrow \$138,000 for a period not to exceed 5 years, which by the issuance of debentures and on the terms and conditions referred to in this bylaw.

The expected lifetime of the improvements to the Recreation Centre is at least 30 years.

The City has the authority to pass a borrowing bylaw under the provisions of the Municipal Government Act, sections 251 and 257.

All required approvals for the project have been, or will be, obtained and the project is and will be in compliance with all Acts and Regulations of the Province of Alberta.

### **COUNCIL OF THE CITY OF RED DEER ENACTS AS FOLLOWS:**

1. The City is authorized to borrow the sum of ONE HUNDRED THIRTY EIGHT THOUSAND DOLLARS (\$138,000) from the Alberta Capital Finance Authority by way of debenture on the credit and security of The City of Red Deer at large.
2. The purpose of the borrowing is to pay for the construction of improvements to the Recreation Centre.
3. The City shall repay the indebtedness by equal consecutive semi-annual or annual payments of principal and interest over a term not to exceed FIVE (5) years. The interest rate of the borrowing shall be at the rate fixed by the Alberta Finance Authority on the date of the borrowing, not to exceed a maximum of ten (10) percent annual interest.

4. The indebtedness shall be repaid by way of savings on the energy costs of the Recreation Centre. Should those savings be insufficient to repay the indebtedness due in any given year, the shortfall shall be paid through general municipal property tax revenue.
5. The proper officers of The City are hereby authorized to issue debenture(s) on behalf of The City on the terms and for the amount and purpose set forth in this by-law.
6. This by-law comes into force on the date it is passed.

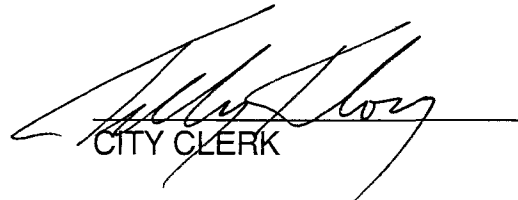

READ A FIRST TIME IN OPEN COUNCIL this 12<sup>th</sup> day of September 2005.

READ A SECOND TIME IN OPEN COUNCIL this 12<sup>th</sup> day of September 2005.

READ A THIRD TIME IN OPEN COUNCIL this 12<sup>th</sup> day of September 2005.

AND SIGNED BY THE MAYOR AND CITY CLERK this 12<sup>th</sup> day of September 2005.

CITY CLERK

**Office of the Mayor and City Manager**

**DATE:** September 1, 2005  
**TO:** City of Red Deer Council  
**FROM:** City Manager  
**RE:** Smoking Bylaw Petition Declared Insufficient

---

Background

Council gave third reading to Smoking Bylaw 3345/2005 on June 20, 2005. The bylaw will come into effect June 1, 2006. On August 19, 2005, the Central Alberta Business for Choice submitted a petition to have *'The City pass a bylaw to repeal and rescind in its entirety City of Red Deer Bylaw No. 3345/2005, also known as the Smoke Free Bylaw'*.

What Makes a Petition Sufficient

For a petition to be sufficient, the *Municipal Government Act* requires that the petition must be signed by electors of the municipality that equal at least 10% of the population. A valid petition requires a total of 7,908 signatures based on our current population of 79,082.

The *Municipal Government Act* also requires that the City Manager must make a declaration as to whether the petition is sufficient or insufficient to the council within 30 days.

Sufficiency Results

Following a formal review of the petition it was determined that the petition submitted had 4,852 signatures.

Declaration of Sufficiency

The petition received by the Central Alberta Business for Choice is declared insufficient. As the petition is not sufficient, under the requirements of the *Municipal Government Act* Council is not required to take any further action.

Recommendation

That this report be received as information.

# PETITION BY ELECTORS

(pursuant to the Municipal Government Act and amendments thereto)

To: The Council of the City of Red Deer, in the Province of Alberta.

WHEREAS the undersigned are opposed to the provisions of the Smoke Free Bylaw (Bylaw 3345/2005) passed by Red Deer City Council on June 20, 2005;

The undersigned persons, being electors of the City of Red Deer, in the Province of Alberta, hereby petition council for/to:

**Pass a bylaw to repeal and rescind, in its entirety, City of Red Deer Bylaw No. 3345/2005, also known as the Smoke Free Bylaw**

EACH PETITIONER, by signing this petition, certifies that he (or she) is an elector of the City of Red Deer, in the Province of Alberta.

Sheree Davies  
Central Alberta Businesses for Choice  
49 Parkland Drive  
Sylvan Lake, AB T4S 1J3

Dear Ms. Davies:

*Re: Smoking Bylaw Petition*

At the City of Red Deer's Council Meeting held September 12, 2005, a report from the City Manager regarding the recently submitted Smoking Bylaw Petition was received by Council as information. This petition asked that "The City pass a bylaw to repeal and rescind in its entirety City of Red Deer Bylaw 3345/2005, also known as the Smoke Free Bylaw".

For a petition to be sufficient, under the Municipal Government Act, the petition must be signed by electors of the municipality that equal at least 10% of the population. For The City of Red Deer, a valid petition requires a total of 7,908 signatures based on the current population of 79,082. Following a review of the petition, it was determined that the petition submitted had less than the required signatures.

The City Manager, under the requirements of the Municipal Government Act, has declared the petition insufficient. The Smoke Free Bylaw 3345/2005, passed on June 20, 2005, will come into effect on June 1, 2006.

Please contact the undersigned if you have any questions.

Sincerely,

Kelly Kloss  
Manager

Dear Ms Davies:

**Re: Smoking Bylaw Petition**

The Smoking Bylaw petition was received by The City on Friday, August 19, 2005. The petition requested "City Council to pass a bylaw to repeal and rescind, in its entirety, City of Red Deer Bylaw No. 3345/2005, known as the Smoke Free Bylaw".

We will now commence with the legislated process for dealing with the submitted petition. The first step will be to verify the sufficiency of the petition within 30 days of the date when the petition was received.

We will keep you informed as we proceed through the process. Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'N. Housenga'.

## **Smoking bylaw petition declared insufficient**

(Red Deer, Alberta) – Following a formal review of a petition from the Central Alberta Business for Choice (CABC) regarding the recently approved Smoke Free Bylaw, City Manager Norbert Van Wyk has declared the petition insufficient according to the terms outlined in the Municipal Government Act. The CABC undertook the petition to have, “The City pass a bylaw to repeal and rescind in its entirety City of Red Deer Bylaw No. 3345/2005, also known as the Smoke Free Bylaw.”

According to the Municipal Government Act, the CABC needed to submit a petition signed by the electors of Red Deer representing 10 per cent of the population by a deadline date of August 19, 2005. On the deadline date, the CABC submitted the petition with 4,852 signatures.

“As a result of the insufficient response to the petition, the Smoke Free Bylaw will proceed as previously approved by Council, taking effect June 1, 2006,” said City Manager Norbert Van Wyk.

The bylaw will prohibit smoking in all indoor public places and work places within the city of Red Deer including drinking establishments, bingo halls, casinos, patios, public transportation vehicles (including taxis), work places, grandstands, restaurants, sidewalk cafes and private clubs.

Council approved the bylaw on June 20, 2005 after a detailed public consultation process, which included individual consultations with local businesses, a public survey and an open house.

More information on the Smoke Free Bylaw is available from the Inspections and Licensing department or on the Keeping You Informed section of The City of Red Deer Web site at [www.reddeer.ca](http://www.reddeer.ca).

## 2. Definitions

CAO	means the Chief Administrative Officer of the municipality as defined in section 1 of the Municipal Government Act (MGA).
CEO	means the Chief Elected Official of the municipality as defined in section 1 of the MGA.
Council	means the elected council of a municipality as defined in section 1 of the MGA.
Elector	means a person who is eligible to vote in an election as defined in section 1 of the MGA and section 1 of the Local Authorities Election Act (LAEA).
Minister	means the Minister of Municipal Affairs.
MGA	refers to the Municipal Government Act, Chapter M-26 of the Statutes of Alberta 2000, and amendments thereto.

Petition	is a formal request to the Minister or Council signed by a number of electors.
Petitioner	is an elector as defined in section 1 of the MGA and section 1 of the LAEA who signs a petition.
RSA	Revised Statutes of Alberta.
“The Act” or “Act”	refers to the Municipal Government Act (MGA).
Witness	means an adult person who claims that he or she was personally present and saw the signatory sign his or her name.

### **3. What Is a Petition**

A petition, within the context of this document and the MGA, is a formal request to those in authority for an action to be taken.

### **4. Who May Petition**

Only the electors of a municipality are eligible to be petitioners for most purposes, see section 222 of the MGA.

The only exception to the above is where the owners of property can petition in regard to local improvements. See sections 392, 393, and 408 of the Act.

### **5. Who Can Be Petitioned**

Electors can petition the Minister or the locally elected council, depending on what action the petitioners want and who has the authority to act on the matter.

### **6. What Can Be Petitioned**

The MGA provides for petitions to the Minister on certain specific matters (see appendix A).

More importantly, section 232(1) of the MGA states that electors may petition for a new bylaw or to amend or repeal an existing bylaw, resolution on any matter within the jurisdiction of the council under the MGA or any other enactment. (subject to some limitations).

## **6.1 Limitations on Petitions**

Section 231(1) prohibits petitions for a vote on proposed planning, development, and road closure bylaws and resolutions even though they are advertised. Petitions for a vote on other bylaws or resolutions that must be advertised, must be submitted to the municipal CAO within a specified time period, under section 231(3). This time period is 15 days after the date of the last advertisement for Part 8 (Financial Administration) bylaws and resolutions. Under section 231(4), this time period is 60 days after the date of the last advertisement for other bylaws and resolutions.

Section 232(2) of the MGA prohibits petitions for new bylaws or against existing bylaws or resolutions under Parts 8 (Financial Administration), 9 (Assessment of Property), 10 (Taxation) and 17 (Planning and Development). As well, sections 408 and 409 prohibit petitions against necessary local sewer improvements and private connections to water and sewer improvements.

## **7. Number of Petitioners Required**

The minimum number of petitioners required is substantial, but the specific number varies in relation to the purpose and nature of the petition. The minimum number of petitioners required for specific types of petitions are contained in sections 85, 130, 223, 392 and 572 of the Act.

## **8. General Requirements**

The general requirements for a petition are contained in section 224 of the Act. This section should be reviewed very carefully.

The petition must include, for each petitioner:

- (a) the printed surname and printed given names or initials of the petitioner,
- (b) the signature of the petitioner,
- (c) the street address of the petitioner (a "Rural Route" or "Post Office Box" address is not sufficient), or the legal description of the land on which the petitioner lives,
- (d) the date on which the petitioner signs the petition, and
- (e) the signature of an adult witness opposite the signature of the petitioner.

Attached, as Appendix B, is a sample petition format. The format must be adapted to accommodate petitions to the Minister, or petitions involving local improvements.

Note that each page of the petition must contain an identical statement of the purpose of the petition. The wording of a petition is very important. It is

recommended that legal or professional assistance be obtained to draft a petition.

Each witness must also take an affidavit that, to the best of the person's knowledge, the signatures witnessed are those of the persons entitled to sign the petition. A sample format is attached as appendix B(1).

Upon completion of the petitioning process, and prior to submission, a signed statement must be attached to the petition. A sample format, is attached as appendix B(2). The statement must state:

- (a) that the person named in the statement is the representative of the petitioners, and
- (b) that the municipality may direct any inquiries about the petition to the representative.

## **8.1 Determining Sufficiency**

The petition is filed with the CAO, who is responsible for determining the sufficiency of the petition in accordance with section 225 of the MGA.

Names cannot be added or removed from a petition once it has been filed with the CAO. See section 225(2) of the MGA.

The CAO must not count any names that do not comply with the requirements for a petition. In addition, the names of any petitioners who signed the petition more than 60 days prior to the date the petition was filed with the CAO cannot be counted. See section 225(3) of the MGA.

A petition for a vote of the electors on a proposed bylaw that must be advertised under Part 8 (Financial Administration) is not deemed to be sufficient unless it is filed with the CAO within 15 days of the last date on which the proposed bylaw or resolution is advertised. See section 231(3) of the MGA.

A petition for a vote of the electors on a proposed bylaw or resolution is required to be advertised by another part of the act, or another enactment, is not deemed to be sufficient unless it is filed with the CAO within 60 days of the last date on which the proposed bylaw is advertised. See section 231(4) of the MGA.

## **8.2 Report on Sufficiency**

Within 30 days of the date when the petition has been filed, the CAO must make a declaration as to whether or not the petition is sufficient. See section 226 of the MGA.

### **8.3 Response to a Valid Petition**

The actions requested in a valid petition directed to the Minister are generally discretionary and are at the option of the Minister.

The actions requested in a valid petition directed to the local council requires a response. The response time or action varies with the nature and subject matter of the petition.

Two specific examples are:

- (a) a petition for a vote of the electors on an advertised proposed bylaw under section 231 of the MGA. A sufficient petition has been received requiring the bylaw to be decided by a vote of the electors.

Action: Council must either decide not to proceed with the bylaw or submit the bylaw to a vote of the electors within 90 days after the CAO declares the petition sufficient. Council must proceed to pass the bylaw if it is approved by a vote of the electors. If the vote of the elector is authorized, all previous readings of the bylaw are rescinded and council cannot give a bylaw any more readings.

- (b) Council receives a valid petition for a new bylaw on a matter that is within the jurisdiction of council under section 232 of the MGA

Action: Council must, within 30 days of the CAO declaring the petition to be sufficient, give first reading to the bylaw. Council then has the option of passing the bylaw within 30 days of the date of the first reading or, putting the bylaw to a vote of the electors within 90 days of the date of first reading. Council is bound by the results of a vote of the electors.

### **9. Public Vote Bylaws**

Council is bound by the results of a vote of the electors under sections 233 and 234 of the Act. Section 234 also outlines the time periods that must be adhered to when petitioning on bylaws that were previously subjected to a public vote.

### **10. Delay of a Vote of the Electors**

Section 238 of the MGA states that if a valid petition requiring a vote of the electors is received within 12 months prior to a general election, Council can delay the vote to coincide with the general election.

## **11. Moratorium on Petitioning on a Similar Subject Matter**

Section 239 states that a council may refuse to receive petitions on the same or similar subject for a period of one year following a vote of the electors.

## **12. Petitions for Local Improvements**

Ratepayers can petition for local improvements under section 393. Petitions for local improvements must meet the criteria set out in section 392 to be sufficient, in addition to meeting the general rules for petitions in a local improvement petition must:

- (a) be signed by two thirds of the owners who would be liable to pay the local improvement; and
- (b) represent at least half of the assessed value of the parcels against which the local improvement is to be applied.

Council can, under section 408, impose a local improvement for a sewer if council considers it to be in the public interest and the construction is recommended by a health officer. There is no right to petition against the local improvement in this instance.

Section 409 also allows council to assess the cost of constructing private connections for local improvements against the properties involved without the right of petition.

## **13. Advertising Requirements**

The general requirements for advertising a proposed bylaw or resolution are contained in section 606 of the Act.

## **14. Additional Information**

If you still have questions after reading the applicable sections of the MGA, and reviewing this handout, please contact the Municipal Services Branch of Alberta Municipal Affairs at (780) 427-2225.

### REFERENCES TO PETITIONS – MGA

Identification of the pertinent sections of the Municipal Government Act (MGA) in regard to petitions

- \*85 - petition to the Minister to form a municipality
- \*93 - petition to the Minister to change the status of a municipality
- \*130 - petition to the Minister to undertake a dissolution study
- 219 - rules and scope of petitions
- 220 - Minister to designate a person to act as CAO when he/she receives a petition
- 221 - sufficiency requirements for a petition
- 222 - who can petition
- 223 - the normal number of petitioners required
- 224 - requirements for petition statement, signatures and documents
- 225 - counting petitioners to determine sufficiency
- 226 - reporting on the sufficiency of a petition
- 229 - petitioning council to hold a public meeting
- 231 - petition for a vote on an advertised bylaw or resolution
- 232 - petitioning for a new bylaw, or to amend or repeal a bylaw or resolution
- 233 - council's duty on receiving a valid petition
- 234 - petitions respecting "public vote bylaws"
- 235 - council required to comply with a vote on a question
- 238 - criteria to delay a vote of electors to a general election
- 239 - time limitations on petitions dealing with the same or a similar subject
- 240 - minimum times for changes to public vote bylaws
- \*282 - petition to the Minister to appoint an auditor to audit the books of a municipality
- 392 - petitioning rules modified for petitions for local improvements
- 393 - owners can petition for local improvements
- 408 - prohibition against petitioning against a local improvement for sewers in special circumstances
- 409 - prohibition against petitioning against the cost of connections to a local improvement
- \*572 - petition to the Minister for an inquiry into the affairs of a municipality
- 606 - inclusion of an outline of the petitioning procedures in the advertising requirements for a bylaw or resolution

\*Refers to petitions to the Minister

*Review  
with NORBERT*

## **Smoking bylaw petition declared insufficient**

(Red Deer, Alberta) – Following a formal review of a petition from the Central Alberta Business for Choice (CABC) regarding the recently approved Smoke Free Bylaw, The City of Red Deer has declared the petition insufficient according to the terms outlined in the Municipal Government Act. The CABC began the petition to have, "The City pass a bylaw to repeal and rescind in its entirety City of Red Deer Bylaw No. 3345/2005, also known as the Smoke Free Bylaw."

According to the Municipal Government Act, the CABC needed to collect signatures from 10 per cent of electors residing within the city of Red Deer by a deadline date of August 19, 2005. On the deadline date, the CABC submitted the petition with 4,852 signatures; 3,219 short of the necessary goal.

"As a result of the insufficient response to the petition, the Smoke Free Bylaw will proceed as previously approved by Council, taking effect June 1, 2006," said City Manager Norbert Van Wyk.

The bylaw will prohibit smoking in all indoor public places and work places within the city of Red Deer including drinking establishments, bingo halls, casinos, patios, public transportation vehicles (including taxis), work places, grandstands, restaurants, sidewalk cafes and private clubs.

Council approved the bylaw as presented by Administration on June 20, 2005 after a detailed public consultation process, which included individual consultations with local businesses, a public survey and an open house.

More information on the Smoke Free Bylaw is available from the Inspections and Licensing department or on the Keeping You Informed section of The City of Red Deer Web site at [www.reddeer.ca](http://www.reddeer.ca).

-end-

For more information, please contact:

Norbert Van Wyk  
City Manager  
The City of Red Deer  
(403) 342-8154

Kelly Kloss  
Legislative & Administrative Services Manager  
The City of Red Deer  
(403) 342-8132

## **'No Smoking Bylaw' Petition**

August 18, 2005

1. Norbert heard that the group had only gathered approximately 6,000 signatures as of today.
2. Reviewed with Norbert the process for verification as per Kelly's instructions.
3. Norbert would prefer to have an external firm verify the sufficiency of the petition should it be received by 4:30 p.m., Friday, August 19, 2005.
4. Using the AMCA fan-out, asked for responses from municipalities who had used and external source to verify petitions.
5. Rob, Red Deer County, verified that Nancy verified the sufficiency of the petition they received last year.

August 19, 2005

1. Petition received at 4:05 p.m.
2. Contacted Norbert by telephone. Meeting set for 9:00 a.m. Monday morning (August 22, 2005). To contact Nick Monday morning to attend.
3. Left message for Morris at his home.
4. Contacted Criterion Research (780.423.0708) and Activation Analysis (780.415.5178) for information and quotes. They will call back Monday morning.
5. Researched MGA for regulations.
  - Called Kelly on the weekend to discuss the process.

August 22, 2005

1. Prepared estimated cost for a vote of electors and estimated timelines.
2. Meet with Morris, Norbert and Nick at 9:00
3. Decisions from the meeting:

- Determined that legislation requires that the petition be verified within 30 days after the date on which a petition is filed (Section 226(1)).
  - In fairness to those in support of the bylaw Norbert felt it necessary to verify the sufficiency of the petition rather before proceeding with the process.
- Nona to set up a meeting with Criterion Research (Barry Davis, Project Manager (780) 423.0708. Nick and Rodney Burkard to attend.
  - Meeting set for Wednesday, August 24<sup>th</sup> at 1:30 p.m.

#### August 23, 2005

1. Paul Myette informed me that one of his inspectors heard on the radio that the petition organizers know that their petition was short but decided to submit anyway.
2. Conducted a quick review and count. Determined that there were approximately 6,843 signatures. When doing the count it was determined that there were several non-resident addresses in the petition.
3. Called Criterion Research to let them know that the petition was insufficient and that we may not need their services. Would confirm this after my meeting with the Mayor and City Manager.
4. Meet with the Mayor and City Manager. Decisions from the meeting:
  - Notify Criterion Research that we will not require their services to determine sufficiency of the petition.
    - Left message for Barry Davis and followed up with a telephone call first thing Wednesday morning.
  - Notify Nick and Rodney that the meeting for Wednesday will be cancelled.
    - Left messages for both Nick and Rodney
  - Hire Chris Brown to do a verification of the number of signatures. Not necessary to determine the number of non-resident signatures if the number submitted is insufficient.
    - Chris will be in Wednesday morning to commence the count.
    - Asked her to determine the number of non-resident signatures for our own interest.
  - Prepare press release with the assistance of Jilaire for sometime early next week (perhaps Tuesday after notifying Council members at Topics on Monday night). MGA requires that the CAO declare the petition sufficient or not sufficient.

August 24, 2005

1. Chris Brown commences count.
  - Worked only to noon on Wednesday
2. Discussed with Nick that we would verify the number of signatures and declare the petition insufficient.

August 25, 2005

1. Chris Brown completes the count.
2. Results:

Total signatures	4,852
Less: Non-resident signatures (addresses outside Red Deer)	<u>163</u>
Total eligible voters	<u>4,689</u>
Total signatures required	<u>7,908</u>
Petition short	3,219

## Petitions

### Rules for petitions

**219** Sections 220 to 226 apply to all petitions to a council and the Minister under this Act, any other enactment or bylaw except to the extent that they are modified by this Act or any other enactment.

1994 cM-26.1 s219

### CAO duties

**220** When the Minister receives a petition, the Minister must designate a person to carry out the duties of a chief administrative officer with respect to the petition.

1994 cM-26.1 s220

### Petition sufficiency requirements

**221** A petition is sufficient if it meets the requirements of sections 222 to 226.

1994 cM-26.1 s221

### Who can petition

**222** Unless otherwise provided in this or any other enactment, only electors of a municipality are eligible to be petitioners.

1994 cM-26.1 s222

### Number of petitioners

**223(1)** A petition must be signed by the required number of petitioners.

(2) If requirements for the minimum number of petitioners are not set out under other provisions of this or any other enactment then, to be sufficient, the petition must be signed,

- (a) in the case of a municipality other than a summer village, by electors of the municipality equal in number to at least 10% of the population, and
- (b) in the case of a summer village, by 10% of the electors of the summer village.

1994 cM-26.1 s223

### Other requirements for a petition

**224(1)** A petition must consist of one or more pages, each of which must contain an identical statement of the purpose of the petition.

(2) The petition must include, for each petitioner,

- (a) the printed surname and printed given names or initials of the petitioner,
  - (b) the petitioner's signature,
  - (c) the street address of the petitioner or the legal description of the land on which the petitioner lives, and
  - (d) the date on which the petitioner signs the petition.
- (3) Each signature must be witnessed by an adult person who must
- (a) sign opposite the signature of the petitioner, and
  - (b) take an affidavit that to the best of the person's knowledge the signatures witnessed are those of persons entitled to sign the petition.
- (4) The petition must have attached to it a signed statement of a person stating that
- (a) the person is the representative of the petitioners, and
  - (b) the municipality may direct any inquiries about the petition to the representative.

1994 cM-26.1 s224

**Counting petitioners**

**225(1)** A petition must be filed with the chief administrative officer and the chief administrative officer is responsible for determining if the petition is sufficient.

(2) No name may be added to or removed from a petition after it has been filed with the chief administrative officer.

(3) In counting the number of petitioners on a petition there must be excluded the name of a person

- (a) whose signature is not witnessed,
- (b) whose signature appears on a page of the petition that does not have the same purpose statement that is contained on all the other pages of the petition,
- (c) whose printed name is not included or is incorrect,
- (d) whose street address or legal description of land is not included or is incorrect,
- (e) if the date when the person signed the petition is not stated,

- (f) when a petition is restricted to certain persons,
  - (i) who is not one of those persons, or
  - (ii) whose qualification as one of those persons is not, or is incorrectly, described or set out,

or

- (g) who signed the petition more than 60 days before the date on which the petition was filed with the chief administrative officer.

(4) If 5000 or more petitioners are necessary to make a petition sufficient, a chief administrative officer may use a random statistical sampling method with a 95% confidence level to determine the sufficiency of the petition, instead of counting and checking each petitioner.

1994 cM-26.1 s225

#### **Report on sufficiency of petition**

**226(1)** Within 30 days after the date on which a petition is filed, the chief administrative officer must make a declaration to the council or the Minister on whether the petition is sufficient or insufficient.

(2) Repealed 1995 c24 s26.

(3) If a petition is not sufficient, the council or the Minister is not required to take any notice of it.

1994 cM-26.1 s226; 1995 c24 s26

#### **Meetings with the Public**

##### **Advertising**

**227** If council calls a meeting with the public, notice of it must be advertised and everyone is entitled to attend it.

1994 cM-26.1 s227

##### **Improper conduct**

**228** The person chairing a meeting with the public may expel a person from the meeting for improper conduct.

1994 cM-26.1 s228

##### **Petition for meeting**

**229** If a council receives a sufficient petition requesting that council call a meeting with the public, the council must call a meeting with the public to discuss the matters stated in the petition

### Petitions for Vote of the Electors - New Bylaws

#### Petition for bylaw

**232(1)** Electors may petition for

- (a) a new bylaw, or
- (b) a bylaw to amend or repeal a bylaw or resolution

on any matter within the jurisdiction of the council under this or another enactment.

(2) A petition requesting a new bylaw under Part 8, 9, 10 or 17 or an amendment or repeal of a bylaw or resolution made under Part 8, 9, 10 or 17 has no effect.

1994 cM-26.1 s232;1995 c24 s29;1996 c30 s12

#### Council's duty on receiving certain petition

**233(1)** Except to the extent provided for in section 234, this section does not apply to a petition under section 232 requesting an amendment or repeal of a bylaw that council was required to pass as a result of a vote of the electors.

(2) A petition under section 232 requesting an amendment or repeal of a bylaw or resolution is not sufficient unless it is filed with the chief administrative officer within 60 days after the day on which that bylaw or resolution was passed.

(3) Within 30 days after the day on which the chief administrative officer declares a petition submitted under section 232 to be sufficient, the council must give first reading to a bylaw dealing with the subject-matter of the petition and any other related matters the council considers necessary.

(4) If the bylaw is not required to be advertised under this or another enactment, the council must

- (a) within 30 days after the bylaw receiving first reading pass the bylaw, or
- (b) fix a date that is within 90 days after the bylaw receives first reading for a vote of the electors on the bylaw.

(5) If the bylaw is required to be advertised under this or another enactment, the council must

- (a) ensure that the bylaw is advertised, or
- (b) fix a date that is within 90 days after the bylaw receives first reading for a vote of the electors on the bylaw.

## Supervisor fondled teen boys, trial told

By **JACK WILSON**  
Advocate staff

Five teenage males testified on Thursday that they were touched and fondled by a man while being interviewed for a job at a Red Deer nursing home.

The five gave similar testimony in provincial court that indicated Tom Paul Ganger of Red Deer touched and fondled them while they tried on

# Smoking petition falls short of goal

*Pro-smoking group fails in bid to force plebiscite on ban*

By **ANDREA MILLER**  
Advocate staff

A scheme to force city council to hold a plebiscite on its smoking ban has gone up in smoke.

Sheree Davies, spokeswoman for Central Alberta Businesses for Choice, said organizers failed to collect the 8,000 signatures needed to force a plebiscite.

The city will ban smoking in all public buildings and areas beginning June 1, 2006.

"We are definitely short by a few thousand — 2,000 or 3,000," said Davies on Thursday, a day before the

deadline to present the petition to the city.

"We had six weeks to collect names and I don't know how we could have done it in time, especially during the summer."

Davies wouldn't provide a specific tally on signatures until the deadline at 4 p.m. today.

"But just because we didn't get 8,000 doesn't mean we are defeated," she said.

Davies said her group, made up of mostly business people, will remind council that the thousands of names collected shows there is much opposition to the ban in all public places in-

cluding bars and casinos.

"People are now aware it's not bar issue or a casino issue. It's an issue of choice, community and loss funds for charities," said Davies, who fears a reduction of customers fundraising bingos and casinos.

The group will continue to ask the city for a compromise such as allowing businesses to set up ventilated smoking rooms.

Davies said collecting 8,000 signatures during the summer months tough because people are away on vacation and bar business is slower.

**Please see SMOKING on Page A2**

---

From Page A1

## Smoking: *Onerous*

"That's why they don't hold elections in the summer, because no one is around."

The legal requirements of the petition were also onerous, she said. Each signature had to be witnessed. Then the witnesses had to sign affidavits in front of a commissioner of oaths. Many of the petitions were placed in bars, where staff on different shifts witnessed the signature writing.

Signatures of 8,000 adults who live in Red Deer — 10 per cent of the population — would have been needed, under the Municipal Government Act, to compel council to rescind the smoking ban or hold a plebiscite. Organizers had six weeks to collect names.

**To:** Legislative & Administrative Manager

**From:** Engineering Services Manager

**Re:** **Traffic By-law 3186/97**  
**Proposed Speed Limit on 19 Street (Delburne Road)**

---

The City of Red Deer is currently widening 19 Street from a two lane undivided road to a four lane divided road between 40 Avenue and Irwin Avenue. The section of road between Irwin Avenue and 30 Avenue is planned to be widened in 2006 or 2007, subject to Council approval.

The current speed limit on 19 Street between the East City Limits and 375 m east of 40 Avenue is 80 km/hr. The speed limit reduces to 70 km/hr west of this section and increases to 100 km/hr to the east. Our current project consultant, Al-Terra Engineering Ltd., has recommended a reduction in the posted speed limit for the section of road between 40 Avenue and 30 Avenue to 70 km/hr.

### **Recommendation**

We respectfully recommend that the speed limit on 19 Street between the East City Limits and 375 m east of 40 Avenue, be reduced from 80 km/hr to 70 km/hr and that the following revisions be made to the Traffic By-Law:

#### **SCHEDULE "C" 70 km/h**

---

##### **STREETS**

Delete line 3:

"19 Street from the West City Limit to 375 metres east of 40 Avenue"

Replace line 3:

"19 Street from the West City Limit to the East City Limit"

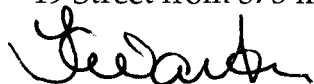

#### **SCHEDULE "D" 80 km/h**

---

##### **STREETS**

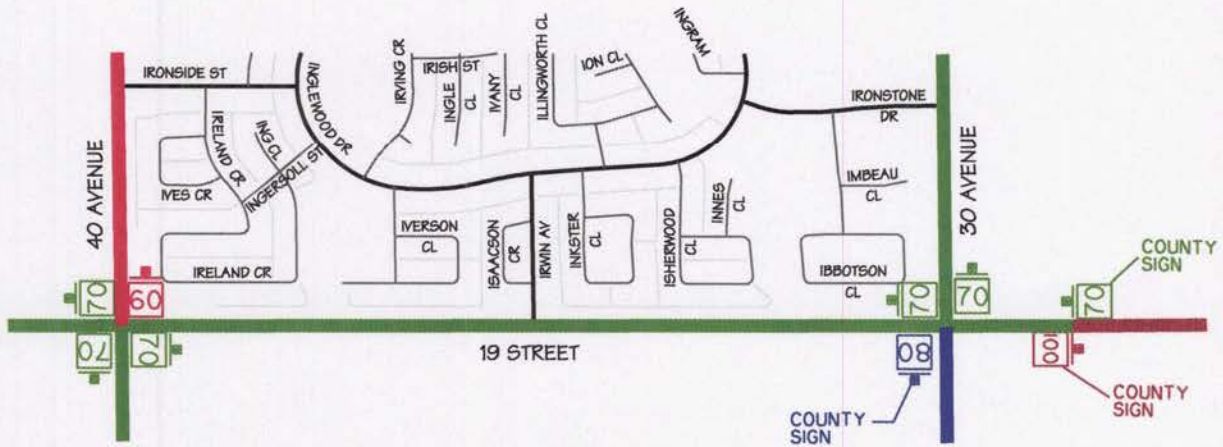

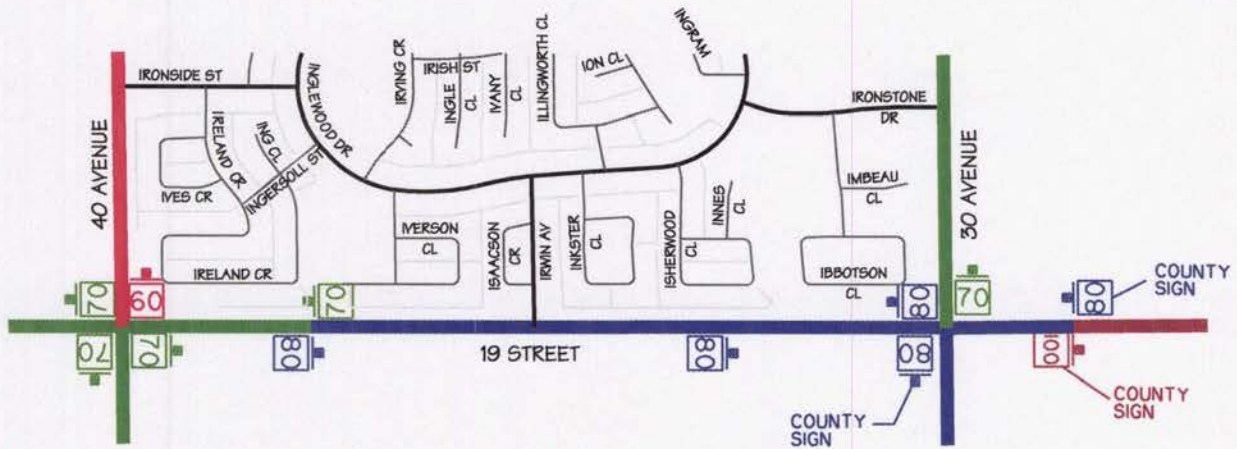

Delete Line 1:

"19 Street from 375 metres east of 40 Avenue to the East City Limit"

## BYLAW NO. 3186/B-2005

Being a bylaw to amend Bylaw No. 3186/97 the Traffic Bylaw of The City of Red Deer.

COUNCIL OF THE CITY OF RED DEER, ALBERTA, ENACTS AS FOLLOWS:

Bylaw No. 3186/97 is hereby amended as follows:

- 1 By deleting Item 3 from Schedule "C", "Streets":  
"3. 19 Street from the West City Limit to 375 metres east of 40 Avenue  
and replacing it with the following:  
3. 19 Street from the West City Limit to the East City Limit."
2. By deleting Item 1 from Schedule "D", "Streets":  
"1. 19 Street from 375 metres east of 40 Avenue to the East City Limit"

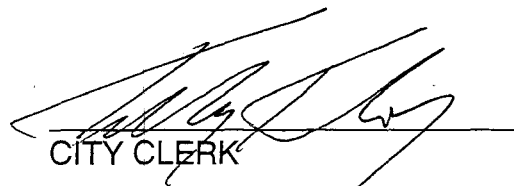

READ A FIRST TIME IN OPEN COUNCIL this 12<sup>th</sup> day of September 2005.

READ A SECOND TIME IN OPEN COUNCIL this 12<sup>th</sup> day of September 2005.

READ A THIRD TIME IN OPEN COUNCIL this 12<sup>th</sup> day of September 2005.

AND SIGNED BY THE MAYOR AND CITY CLERK this 12<sup>th</sup> day of September 2005.

Social Planning Department

SP – 7.164

**DATE:** September 1, 2005

**TO:** Kelly Kloss, Manager  
Legislative and Administrative Services

**FROM:** Scott Cameron, Manager

**SUBJECT:** Community Housing Advisory Committee Appointment

---

### Background

At the November 6, 2000 meeting of City Council, a report from the Social Planning Department was considered, which requested that City Council become the Community Housing Plan Fund Administrator. Council passed the following resolution agreeing with the proposal:

***“Resolved that Council of the City of Red Deer having considered the report from the Social Planning Manager, dated October 27, 2000, regarding Community Housing Plan Fund Administrator, hereby agrees that City Council be the Fund Administrator for the Community Housing Plan subject to:***

- 1. Agreements between the Province of Alberta and Government of Canada*
- 2. Reasonable compensation for being the Administrator.”*

The report from the Social Planning Manager clearly outlined the role of the fund administrator, which included the appointment of an advisory committee to assist in the establishment of appropriate processes, to receive and review applications and to make recommendations to Council as to how funding should be allocated.

### Overview of the Community Housing Advisory Committee

The Community Housing Advisory Committee is an ad hoc committee appointed by Council for The City of Red Deer. The ad hoc nature of the committee is due to the fact that the committee meets only when funds are available from the federal and provincial governments to address homelessness. The committee has been known to meet only once in a given year. The Committee consists of 7-9 members, with two seats reserved for Aboriginal representation.

The Committee acts in an advisory capacity to City Council and has the following roles and responsibilities:

- Establish an application process for agencies, organizations, businesses and individuals in the community who wish to apply for the funding as provided by the federal and provincial governments, and other sources, to address homelessness and related support issues in Red Deer.
- Receive and review applications for funding, based on priorities established in the Community Housing Plan. The review may include meeting with the applicants should the committee see this as necessary.
- Work in conjunction with the City of Red Deer Social Planning Department, who will provide support to the committee.
- Commit approximately 12 hours during each proposal submission period (6 hours twice a year).

Page 2 of 2  
 Kelly Kloss, Manager  
 September 1, 2005  
 Re: CHAC Appointment

Community Housing Advisory Committee members must:

- be representative of the Red Deer community, so that the committee is a cross section of diverse backgrounds, cultures, age and gender distribution, including at least two members representing the aboriginal community.
- have knowledge of community issues, particularly those related to affordable housing and homelessness
- have prior experience with decision making and critical thinking

### **Discussion**

At present, the Community Housing Advisory Committee (CHAC) needs to amend its membership to address three resignations. Time is of the essence as the remainder of Phase II Homelessness funding from Alberta Seniors and Community Supports announced in June must be fully expended by March 31, 2006. CHAC will meet October 12, 2005 to review proposals from the community and make recommendations to Council regarding the allocation of the remaining funds. A full compliment of committee members, including Aboriginal membership, is required to accomplish this review.

As is the usual practice, names of potential committee members are submitted for Council's review and consideration.

Existing members include:

Rick Assinger	Lyle Keewatin-Richards
Val Sandal	Karen Murphy
John Hull	Donna Stewart-Wood
Scott McQuaig	

The following members have resigned or announced their resignation:

Di Vosburgh	Mikki Newell
Rick Assinger (effective October 13, 2005)	

### **Recommendation:**

That City Council appoints the following names as presented by the Social Planning Department to the Community Housing Advisory Committee to perform in an ad-hoc capacity for 2005-2006:

Rick Love (effective September 13, 2005)  
 Beverly Keeshig-Soonias (effective September 13, 2005)

and

Gilles Allard (effective October 13, 2005)

***Comments:***

## LAND AND ECONOMIC DEVELOPMENT

Date: September 6, 2005

To: Kelly Kloss, Manager Legislative and Administrative Services

From: Howard Thompson, Land & Economic Development Manager

**Re: 3C Memorandum of Understanding (MOU)**

---

### Background

The 3C Partnership is comprised of The City of Red Deer, the Red Deer Chamber of Commerce, and Red Deer County. The partnership was formed in 2000/2001 to jointly promote the Red Deer Region for business investment and labour force attraction. It was recognized that it was beneficial to leverage our efforts and resources together to market ourselves as a sub region of the Central Alberta Economic Partnership to meet our collective economic development goals.

Over the past five years, 3C has conducted two strategic/marketing sessions. At the first session in May 2000, input from primary and peripheral stakeholders was obtained in order to set the stage for the 3C partnership. The results of the strategic session focused on the development of joint marketing materials including a new business attraction profile, a business CD-ROM, and the Red Deer Prospects quarterly newsletter. With the completion of these projects by mid 2004, the 3C Partnership decided to update its Strategic/Marketing Plan to obtain a clear direction for the next three years, 2005 - 2007.

The 3C Partnership enlisted the services of Schollie Research and Consulting to help in setting the strategic direction for the next three years. Leaders from all three partners and various stakeholders were consulted to determine the best strategic direction for the partnership, and to identify required resources. This process was completed in March 2005. The results provide clear direction in terms of the structure of the partnership; a review of its mission, vision, and values; a SWOT (strengths, weaknesses, opportunities, threats) analysis of the partnership; initial budget and timelines; and most importantly, a strong strategic direction. This process resulted in the development of a new Strategic/Marketing Plan from which the partnership created a detailed 3-year Business Plan and Budget.

The highlights of the initiatives contained in the Strategic / Marketing Plan and the 3-year business plan are summarized as follows:

- Investment Attraction and Promotion
  - Target domestic and international markets
  - Trade Team Red Deer approach
  - Collaborate with investment attraction projects with CAEP, Provincial, and Federal levels.

To: Kelly Kloss  
Re: 3C Memorandum of Understanding  
Page 2

- Business Retention and Expansion
  - Target local businesses and key stakeholders
  - Continue and expand visitations and research surveys
  - Collaborate with other groups such as the Business Advisory Network, Red Deer College, David Thompson Health Region or the Regional Airport Authority.
- Online marketing, promotion and file tracking
  - Create integrated 3C web site to provide one-stop source for investment or expansion information.
  - Create prospect or lead tracking database

One of the first actions in this new business plan is to prepare and enter into the attached Memorandum of Understanding (MOU). This agreement between all the partners is very general in nature and outlines how the partners should conduct 3C business together. The MOU does not bind any of the parties into any financial commitment. The Red Deer Chamber of Commerce Board of Directors and the Red Deer County Council have agreed in principle to enter into the MOU. Subject to City Council endorsement, a signing ceremony with the elected officials of each partner is scheduled for September 13, 2005.

#### **Financial Implications**

The Business Plan and budget over the next three years will require each of the Partners to increase their equal contributions to ensure the objectives of the plan can be met. Currently each partner contributes \$10,000 per year to 3C initiatives. In 2005 to 2007, 3C requires annual contributions of \$12,100, \$20,300 and \$20,800 respectively. Land and Economic Development anticipate that no additional funds will be required from the City in 2005 as we will endeavor to absorb the additional \$2,100 within our overall budget. The increases of \$10,300 and \$10,800 for 2006 and 2007 will be presented as part of our Service Plan as a funding request. The MOU refers to each partner being able to contribute funding as required but does not bind City Council to approve the additional budget request ahead of our normal annual budget process.

#### **Recommendation**

The Land and Economic Development department recommends that City Council endorse the 3C Memorandum of Understanding.

Howard S. Thompson  
Land and Economic Development Manager

Attach.

**Memorandum of Understanding****Between**

**The City of Red Deer, Red Deer Chamber of Commerce, and Red Deer County (3C)**

**A Joint Economic Development Initiative****Purpose:**

The 3C Partnership was formed in 2001 to jointly promote the Red Deer Region for business investment and labour force attraction.

**Strategic Objectives and General Framework for Cooperation***Strategy A- Investment Attraction*

Develop activities to encourage domestic and international investment in the Red Deer Region by companies that are not currently operating in the Region.

*Strategy B- Business Retention and Expansion*

To encourage Red Deer companies to remain in the Region and to expand their operations base in the Red Deer Region

*Strategy C- Online marketing, promotion and file tracking*

Develop an online presence for the 3C Partnership to deliver the information and key messages about the advantages of locating or expanding a business in the Red Deer Region. Information that is developed will be focused on the needs of Site Selector executives.

**Participation**

Each partner agrees to designate individual(s) to support 3C initiatives in investment and labour force attraction.

**Financial**

Whenever feasible the 3C Partners agree to financially support marketing initiatives equally.

**Communication**

Parties agree to consider joint communication, where appropriate.

### **Confidentiality**

Unless otherwise discussed by the 3C participants, each participant should, to the fullest extent possible use its best efforts to maintain the confidentiality of any information communicated to it in confidence by another participant in this memorandum.

### **Amendment to Memorandum of Understanding**

This Memorandum of Understanding may be amended with the mutual written consent of all parties. Any amendment becomes part of this Memorandum of Understanding.

### **Settlement of Disputes**

Any disputes regarding the interpretation or implementation of this Memorandum of Understanding will be resolved solely through a consultative process among the parties and will not be referred to a tribunal or other third party for settlement.

### **Duration of Memorandum of Understanding**

This Memorandum of Understanding will come into effect September 1, 2005 and remain in force for a period of three years, terminating July 15, 2008. Prior to expiry of this Memorandum of Understanding, a decision will be made as to whether to renew this Memorandum of Understanding.

**SIGNED** at Red Deer, Alberta this September 13 day of September, 2005.

The City of Red Deer, Red Deer Chamber of Commerce and Red Deer County acknowledges and agrees to fulfill its role and responsibilities as identified under this Memorandum of Understanding.

## Strategic / Marketing Plan and Investment Attraction Program

For:

**The 3C Partnership**

**March 24, 2005**

## A. Executive Summary

The 3C Partnership, made up of The City of Red Deer, the Red Deer Chamber of Commerce, and Red Deer County, was formed in 2001 to jointly promote the Red Deer Region for business investment and labour force attraction.

In 2004/05, the 3C Partnership undertook a strategic planning process to determine marketing activities and direction for the next three years. Leaders from the 3C Partners' organizations were consulted along with a variety of stakeholder groups that help to promote economic development. This report outlines the results of this process and the plan for the next three years.

The structure of the 3C Partnership was reviewed as part of the strategic planning process. While there is a desire to keep the structure simple and relatively informal, it is suggested the following formalities be adopted:

- A three-year memorandum of understanding (MOU) signed by each partner.
- A brief annual plan that outlines objectives, performance measures, and budget.
- Results reporting through a brief written annual report and an annual information session.

The 3C Partnership agreed that the following mandate, mission, vision, values, goals, and outcomes would set the overall strategic direction for the Partnership over the next three years.

**Table A1: Overall Strategic Direction for the 3C Partnership**

<b>Mandate</b>	<ul style="list-style-type: none"> <li>• Market the Red Deer Region</li> </ul>
<b>Vision</b>	<ul style="list-style-type: none"> <li>• The Red Deer Region excels at providing a competitive business environment.</li> </ul>
<b>Mission</b>	<ul style="list-style-type: none"> <li>• To work together on economic development marketing activities to attract, retain, and expand business investment and labour force in the Red Deer Region.</li> </ul>
<b>Values</b>	<ul style="list-style-type: none"> <li>• Action-oriented, promotion-oriented, coordinated, shared effort/ benefit, responsive and efficient</li> </ul>
<b>Goals</b>	<ul style="list-style-type: none"> <li>• The 3C Partnership leads and facilitates the process of attracting, retaining, and expanding business investment and labour force in the Red Deer Region.</li> </ul>
<b>Desired Outcomes</b>	<ul style="list-style-type: none"> <li>• The Red Deer Region is perceived as the "Red Deer Corridor - Canada's Economic Capital."</li> <li>• The Red Deer Region has a growing and increasingly diverse private sector.</li> <li>• The Red Deer Region has a sufficient quantity and quality of labour to sustain a growing and diverse business climate.</li> </ul>

The Strategic Marketing Plan offers three major strategies for execution:

- A. Investment Attraction
- B. Business Retention and Expansion
- C. Online Marketing, Promotion, and File Tracking

**Table A2: Summary of Strategies**

	<b>A. Investment Attraction</b>	<b>B. Business Retention &amp; Expansion</b>	<b>C. Online Marketing, Promotion, File Tracking</b>
<b>Target Markets</b>	<ul style="list-style-type: none"> <li>Domestic and international companies.</li> </ul>	<ul style="list-style-type: none"> <li>Regional companies, organizations that promote Red Deer, commercial real estate, commercial bankers.</li> </ul>	<ul style="list-style-type: none"> <li>All target markets previously listed.</li> <li>Local media.</li> </ul>
<b>Key Marketing Messages</b>	<ul style="list-style-type: none"> <li>Red Deer Region has real business advantages and the resources necessary to support attraction.</li> </ul>	<ul style="list-style-type: none"> <li>Red Deer Region is business friendly, has real business advantages and resources to support expansion.</li> </ul>	<ul style="list-style-type: none"> <li>Red Deer Region is dynamic and growing, business friendly, and has business advantages and resources to support expansion.</li> </ul>
<b>Tactics/ Steps</b>	<ul style="list-style-type: none"> <li>Engage CAEP, AAFRD, AED. Partner on investment attraction projects, trade show and conference participation.</li> <li>Sector-specific opportunity identification studies to market specific opportunities.</li> <li>Network with local businesses who are doing international trade.</li> <li>Lead management and sharing by 3C Partners.</li> </ul>	<ul style="list-style-type: none"> <li>Relationship building with targeted local companies, and organizations that promote Red Deer</li> <li>Continue Prospects newsletter, manufacturer's survey, regional profile, 3C website.</li> <li>Participate in ad hoc initiatives with other groups to help promote Red Deer.</li> </ul>	<ul style="list-style-type: none"> <li>Create 3C website which includes information crucial for business expansion &amp; investment.</li> <li>Integrate a lead tracking database for partners to share and track lead information.</li> </ul>
<b>Performance Measures</b>	<ul style="list-style-type: none"> <li>Annual number of leads flowing from AED, AAFRD, CAEP.</li> <li>Investment files opened and number/ dollar value of investments made.</li> </ul>	<ul style="list-style-type: none"> <li>Investment files opened as a result of these activities.</li> <li>Investments made as tracked in AED regional projects inventory.</li> </ul>	<ul style="list-style-type: none"> <li>Progress tracking of investment files (number of files open, information exchanged, etc.)</li> <li>Amount of media coverage.</li> <li>Website hits.</li> </ul>

AAFRD = Alberta Agriculture Food and Rural Development  
AED = Alberta Economic Development  
CAEP = Central Alberta Economic Partnership Ltd.

The following table outlines the anticipated resources to implement the tactics outlined in this Strategic Marketing Plan. The 3C Partnership may be able to access grants in order to leverage funding.

**Table A3: Budget and Resources Required**

## B. Introduction, Background, Methods

The 3C Partnership between The City of Red Deer, Red Deer Chamber of Commerce, and Red Deer County was formed in 2001 to jointly promote the Red Deer Region for business investment and labour force attraction. Since 2001, several initiatives have been accomplished:

- Established a common brand that includes a logo, visual standards, a regional name: "Red Deer Corridor", and a tagline "Canada's Economic Region."
- Developed Marketing Materials including a 22-page business attraction profile, brochure, promotional folder, a promotional CD and video, letterhead, and the "Red Deer Prospects" newsletter.
- Consistent 3C branding and internet links at each partner's website, a downloadable version of the 22-page investment attraction profile, video, and links to The City of Red Deer economic statistics and publications.
- Print advertising in local and regional publications.
- Sponsorship of the *KPMG Competitive Alternatives* study to profile Red Deer.
- A joint Marketing Plan written in April 2002.

In December 2004, the 3C Partnership hired Schollie Research & Consulting to facilitate a planning process to:

- Review the structure and strategic elements of the 3C Partnership through consultations with stakeholders and recommend changes where appropriate.
- Review marketing initiatives to date and develop a marketing and investment attraction plan to guide 3C marketing activities over the next 3 years.

The planning process for this project involved individual and group consultation with regional stakeholders and regional political representatives, interviews with provincial and federal investment attraction specialists and trade officials, a review of economic development best practices, a review of secondary statistics and publications, and consultation with the project steering committee. Appendix A contains a list of the individuals and organizations that were consulted with.

This report summarizes the results of the consultation process and outlines a three-year marketing and investment attraction plan for the 3C Partnership.

## C. Planning Situation Analysis

### C.1 The 3C Organization and Activities

The 3C Partnership has two sets of stakeholder organizations. The primary stakeholders, or those who contribute ongoing funding and who manage the Partnership, are The City of Red Deer, Red Deer County, and the Red Deer Chamber of Commerce. According to the 2001 Marketing Plan, other stakeholders in the 3C Partnership include:

- The Central Alberta Economic Partnership (CAEP)
- The Business Advisory Network (BAN); consists of 3C's primary stakeholders and representatives from:
  - Agricultural Financial Services Corporation (AFSC)
  - Alberta Agriculture, Food & Rural Development (AAFRD)
  - Alberta Human Resources & Employment (AHRE)
  - Business Development Bank of Canada (BDC)
  - Centre for Business Development (CBD)
  - Downtown Business Association (DBA)
  - East Parkland Community & Business Development Corporation
  - Human Resources and Skills Development Canada (HRDSC)
  - National Research Council/ Industrial Research Assistance Program (IRAP)
  - Tourism Red Deer
  - Red Deer College
- Other local public sector stakeholders
- Local private sector stakeholders.

All of the peripheral stakeholders engage in promotional activities to attract business, visitors, or people to Red Deer and many have used the marketing materials prepared by 3C. Consultations with this group confirm that they enthusiastically support the 3C Partnership and feel their network and networking ability is a key strength of the Red Deer Region.

The 3C Partnership has been operating on a relatively informal basis without written agreements. The Partnership outlined some 'protocols of operation' in the 2001 Strategic / Marketing Plan. This operating method has worked well in the start-up phase of the Partnership because of the goodwill of the partners and because the tasks were well-defined and had visible outcomes.

Since commencing in 2001, the 3C Partnership has undertaken several marketing activities outlined in the table below. Most of these activities have focused on the production of promotional materials to establish a marketing identity for the Partnership and the Red Deer Region.

**Table C1: Assessment of Marketing Materials and Activities**

Activity	Assessment
Brand image (head of wheat/fibre-optic)	Good. Should be reviewed in next 3-5 years for strategic fit with imaging objectives for the region.
Tagline: Red Deer Corridor, Canada's Economic Capital	Good. Associates and reinforces Red Deer's position as an economic power in the one of the most important economic corridors in Canada.
22-page business attraction profile and folder	Good. Contains appropriate information for profiling/ promoting region. Will need to be streamlined and updated in the next 3 years. May want to review strategic fit of these documents in light of other new information sources such as a 3C web site.
Promotional CD and video	
Brochure	
Red Deer Prospects	Good. May want to plan future content to align with strategic plan. Offers good value for local exposure and awareness building.
Web linking	Poor. Fragmented but central website will provide a focal point for all information on the Red Deer Region.
Print advertising	Fair. Print advertising should be scrutinized for strategic value and return on investment.
Sponsorship of the <i>KPMG Competitive Alternatives</i> study	Very good. Relatively small investment for broad-reaching international and domestic promotion, and free media coverage.

Consultation with primary and peripheral stakeholders led to the identification of a number of further marketing and communications measures that the 3C Partnership could engage in:

- A web site for promoting investment in the Red Deer Region.
- Targeted investment attraction activities in key industry sectors.
- Proactive communication and networking with stakeholders.
- Use local resources such as CAEP/ AED/ AAFRD more effectively.

## C.2 The Economic Environment

Red Deer is at the heart of one of the strongest economic regions in North America according to a report released by TD Economics in 2003<sup>1</sup>. Recent growth indicators for the Red Deer region shows that this robust growth is showing no indication of slowing down.

**Table C2: Economic Growth Indicators**

Indicator	Result
Population growth	Region's population grew by 11.4% in the 1996 to 2001 period compared to 10.3% for Alberta and about 4% for Canada. According to the 2004 Red Deer census, population is approximately 76,000 - up by 4.45% compared to 2003.
Employment	The unemployment rate for the Red Deer Region for January 2005 was 3.7%, down from 4.1% in December 2004. A 4% unemployment rate indicates a tight labour market where demand for labour exceeds supply.
Business investment	According to Alberta Economic Development's inventory of regional investments, the total inventory of investments in Red Deer City and County as of December 2004 was \$44.9 Million. This compares to an inventory of \$31.2 Million for December 2003.
Manufacturing sector	The Red Deer & Region 2005 Manufacturer's Survey showed a 2% growth in manufacturing jobs and a 5.5% increase in manufacturing payroll.

According to a recently completed economic sector profiling project conducted for the Central Alberta Economic Partnership Ltd. (CAEP), the following sectors account for the bulk of economic activity in the Red Deer Region.

**Table C3: Industry Sectors in the Red Deer Region**

Mature Industry Sectors	Examples
Oil & Gas Drilling, Servicing, Contracting	B.J. Services Co., Halliburton Energy Service
Agri-food and Agri-industrial Processing	Olymel S.E.C., Permolex
Chemicals and Petro-Chemicals	NOVA Chemicals Ltd., Dow Chemicals
Building Products and Value-added Wood	Westridge Cabinets, Robco Cabinets
Industrial Machinery and Equipment Manufacturing	Collicutt Energy Services, E-One Inc.
Emerging Industry Sectors	
Architecture, Engineering, Construction	Group 2 Architects, EXH Engineering Services
Information and Communications Technology	Convergys, IROC Services Corp.
Tourism and Hospitality	Capri Centre, Westerner Park

Other related studies conducted for CAEP<sup>2</sup> have also identified and profiled investment opportunities within some of these sectors. These opportunities include:

- Metal fabrication and industrial machinery manufacturing.
- Modular, manufactured, and/or mobile homes.
- Purpose leisure/ recreational/ safety equipment or modules.
- Bio-based specialty chemicals and surfactants manufacturing.
- Large shape plastic products manufacturing.
- Meat snacks and meal replacement products.
- Protein concentrates as fishmeal substitutes and pet food ingredients.

<sup>1</sup> TD Economics Corridor Report, April 2003: See [www.TD.com/economics/special/alta03.pdf](http://www.TD.com/economics/special/alta03.pdf)

<sup>2</sup> See: <http://www.centralalberta.ab.ca/content/assets/FinalReport.pdf>

Investment attraction strategies undertaken by the 3C Partnership should flow from these sectors and could explore these identified opportunities in greater detail. As a first step in deciding which sectors and/or opportunities to explore in more detail, the 3C Partnership should review the opportunities with CAEP and Alberta Economic Development (AED) or Alberta Agriculture Food and Rural Development (AAFRD) specialists. CAEP, AED, and AAFRD would likely be supportive of such initiatives.

### ***C.3 Investment Attraction in Alberta***

At a provincial level, Alberta Economic Development (AED) and Alberta Agriculture Food and Rural Development (AAFRD) have dedicated significant resources to international investment attraction and local industry development. There are significant opportunities for 3C to communicate and partner with these groups for a coordinated approach to investment attraction. The Red Deer offices of AED and AAFRD; along with the AAFRD offices in Olds and Lacombe make it very convenient to develop relationships with key individuals. Resources available from these groups include:

- AED has 10 sector teams of industry experts whose scope includes trade and export development, investment attraction, and policy and industry competitiveness.
- AED has a 10-employee investment attraction branch that is organized by geographic target markets.
- AED's Red Deer Regional office is proactively involved in sector-specific investment attraction opportunities through the Central Alberta Economic Partnership (CAEP).
- AAFRD has an investment attraction branch with employees located throughout Alberta, including Red Deer.
- The Alberta government has 9 trade offices in 8 countries. AED and AAFRD representatives staff these trade offices and have a mission is to facilitate international trade and investment.

Consultations with investment attraction specialists at AED and AAFRD led to the following observations that would impact the marketing and promotion of the Red Deer Region.

- Red Deer Region has good potential to pursue many agricultural processing related opportunities. such as ethanol, cosmetics, beef and pork, and natural health food products. Greenhouse/ horticulture opportunities were also mentioned.
- It is challenging and expensive to market an individual municipality internationally. Foreign offices are well connected to and prefer working at the AED level. Municipalities are more likely to get noticed at foreign trade offices if there are specific opportunities; 'general' promotional information gets shelved.
- It is desirable and quite possible to attract new investment from outside the Region, however, the reality is that 75%-90% of new business investment will occur from local company expansion. Efforts to foster the right environment for this 'add-on' investment to occur is likely to yield results.
- The Red Deer Region needs to decide who or what they want to target fairly specifically, and AED will help in terms of contacts, trade shows and missions, and potential studies (e.g. feasibility).

Significant resources are also available at the Federal government level through Industry Canada, Investment Partnerships Canada, and the Department of Foreign Affairs and International Trade. The federal government also has many trade officials in foreign consulates and embassies, as well as Canadian-based sector specialists. Alberta's investment attraction officials maintain an ongoing relationship with their federal counterparts.

## C.4 Business Location Decision-Making Process

Business expansion or re-location decisions are complex, characterized by intense information requirements, and involve a multi-faceted, relatively long process. Understanding this process and motivations will have a direct impact on planning effective promotions. The decision process is typically organized in four stages:<sup>3</sup>

**Table C4: Decision-Making Process**

Decision Stage	Marketing Challenge/ Objective
Project planning/ needs assessment: Companies apply a set of site specifications or criteria for reviewing potential sites.	If the Red Deer Region is not on the radar screen, it won't be considered. Need to put Red Deer Region in the 'consideration set' with targeted promotional activities.
Identify areas and shortlist. The search is narrowed based on criteria above. Detailed survey of 15-20 communities is conducted to cull to a short list of 3-6.	'Surviving the cut' is the objective. The Red Deer Region needs to respond with attractive, sophisticated, detailed, and desired information on critical factors.
Community visits/ detailed information gathering. Used to confirm the suitability of communities and to refine and project operating costs. The result is a rank order of communities.	Personal selling and customer service skills, backed up by more detailed community information, and connections to key community contacts, will be paramount.
Final selection and negotiation	Follow-through, support, and personal attention where necessary.

The motivation to make an investment decision is economic and strategic. That is, the company wants to achieve a competitive advantage that leverages their business potential. A recent survey of executives suggests that the following are the primary motivations for planning a relocation or expansion:<sup>4</sup>

- 22% want to be close to suppliers and/or new/ key markets.
- 20% want to achieve lower operating/ occupancy costs.
- 12% cite a need for an improved business climate.
- 11% want to achieve lower labour costs.
- 11% want better labour availability.
- 3% cite quality of life concerns as main reason.

All stages of the investment decision process are characterized by intense information requirements. According to Area Development Magazine's 2004 Corporate Survey, the number one source of information was site selection magazines (70% report using in last year) followed by the Internet which 64% of executives reported using in the past year. Other sources of site selection information trailed considerably in terms of use.

- 32% used financial publications such as *The Wall Street Journal*, etc.
- 29% used general business magazines.
- 18% used a response to a direct mail/ e-mail.
- 11% used industry magazines.
- 8% used CD-ROMs or other software.

This research reinforces the importance of the Internet in site-selection decision making.

<sup>3</sup> Adapted from Investment Partnerships Canada, *Metropolitan Investment Profiles, How-To Guide for Researchers, Version 2.0*.

## C.5 Summary of 3C Partnership's Marketing Strengths, Challenges, Opportunities, and Threats

A key input for planning is an assessment of the strengths and challenges each of the 3C partners bring to the table and the threats and opportunities that are present in the planning environment. These factors, along with their implications for planning, are outlined in the table below.

### C.5.1 Strengths

Strength is a factor inherent in the organization(s) that can improve chances of economic development success. The 3C Partnership's over-riding strength is the diverse yet complementary assets each partner brings. It combines the strengths of three unique organizations in a true synergy where the potential results from acting together are much greater than what would be the case with the sum of each Partners' individual effort.

**Table C5: 3C Partnership Strengths**

Strengths	Planning Implications
<b>Chamber of Commerce Strengths Include:</b> <ul style="list-style-type: none"> <li>• Large membership, strong financial position.</li> <li>• Visibility/ credibility provincially, nationally and locally.</li> <li>• Brings private sector entity/ representation.</li> <li>• Chamber is often targeted by new businesses as an information source.</li> <li>• Strengths and resources in event organization.</li> </ul>	<ul style="list-style-type: none"> <li>• Chamber involvement provides good balance to municipal government partners. May improve opportunities for funding.</li> <li>• Chamber credibility and visibility increases the potential reach and power of the 3C Partnership message.</li> <li>• Good lead generation from Chamber business enquiries and general networking in business community.</li> </ul>
<b>City of Red Deer Strengths Include:</b> <ul style="list-style-type: none"> <li>• Good economic development practices and resources.</li> <li>• Culture that is supportive of business growth.</li> <li>• Good HR capacity to undertake 3C projects.</li> <li>• Networked with provincial (AED) and local groups (BAN).</li> </ul>	<ul style="list-style-type: none"> <li>• High degree of readiness, sophistication, and responsiveness for business expansion and new investment.</li> <li>• HR resources can be applied to 3C initiatives.</li> <li>• Credibility through historical connections to other groups, departments, and agencies involved in investment attraction.</li> </ul>
<b>Red Deer County Strengths Include:</b> <ul style="list-style-type: none"> <li>• Council endorses economic development initiatives and new economic development plan.</li> <li>• Large rural land base.</li> <li>• Network of contacts throughout County.</li> <li>• General business support for economic development.</li> </ul>	<ul style="list-style-type: none"> <li>• Opportunities may exist for integrating plan initiatives.</li> <li>• County brings assets and opportunities that broaden the marketability of the Red Deer Region.</li> <li>• HR and financial resources available for economic development initiatives.</li> <li>• High degree of readiness for economic development initiatives.</li> </ul>

Consultations with stakeholders revealed several strengths relating both to the Partnership as a whole as well as strengths that are inherent in the Red Deer Region. These include:

- The Partnership is structurally simple with a clear focus and direct communication. This improves responsiveness and the ability to make things happen.
- The Partnership has a high level of readiness to respond to and seize opportunities.
- The Partnership has good local visibility and credibility.
- The region has much inherent strength and assets that are marketable as real competitive advantages and extend the range of possible opportunities.
- Entrepreneurial spirit that pervades the business and government climate in the region.

- The region has good brand equity both provincially and nationally in large part due to positive word-of-mouth and free publicity generated from economic reports.
- Well-networked and enthusiastic group of natural Red Deer Region promoters who work in various regional organizations.

### C.5.2 Regional Challenges and Threats

Challenges and threats are factors inherent in the organization(s) or the environment that may limit activities or goals, or may represent a factor that must be overcome to achieve desired goals.

**Table C6: 3C Partnership Challenges and Threats**

Challenges and Threats	Planning Implications
<ul style="list-style-type: none"> <li>• High demand for and low supply of serviced industrial land. While the County has a large land area, much of it is un-serviced and privately owned.</li> <li>• Competition from other regions that are also aggressively marketing opportunities for investment attraction and business expansion.</li> <li>• Relatively tight labour market particularly for unskilled labour in the \$9-12 per hour range, and for skilled labour in certain occupations such as trades, transport drivers, and engineering-related.<sup>5</sup></li> <li>• Time and budget resource constraints.</li> <li>• Environmental concerns (water shortage) and potential resistance to certain types of developments.</li> <li>• Economic shocks such as commodity price fluctuations, international trade disruptions, world political events.</li> <li>• Robust growth in the Oil &amp; Gas industry creates perception that the region is not diversified.</li> </ul>	<ul style="list-style-type: none"> <li>• Available land and labour quality/ quantity/ price are the most important factors in site selection decision making. To the extent possible, resources should be devoted to understanding and addressing these issues. If business has the perception that land and labour are challenges for this region, that will present a marketing challenge.</li> <li>• Some challenges may be minimized or overcome by targeting investments that are not land, labour, or water intensive.</li> <li>• Increasing competition suggests that we will have to maintain a high level of visibility and responsiveness, and be strategic in targeting opportunities that fit the Red Deer Region. Increasing competition suggests that a certain level of marketing will be required simply to 'be heard' along with other regions.</li> <li>• Resource constraints suggest that 3C should strategically partner with others to leverage resources.</li> </ul>

<sup>5</sup> See *Central Alberta Labour Force Study* available at: <http://www.centralalberta.ab.ca/content/assets/CALFFinalReportMar4.pdf>

### **C.5.3 Regional Opportunities**

There is not a shortage of opportunities in the Red Deer Region. The challenge will be in identifying and acting on those with the greatest potential. Opportunities that were identified in the 2001 Marketing Plan and through current consultations include:

- Strengthen working relationship among partner organizations to maximize mutual value.
- Expand/ increase involvement of business networks for the purpose of business retention and expansion, and investment attraction.
- Maximizing existing relationships with CAEP/ AED and create new relationships with provincial investment attraction groups.
- Target opportunities on a sector-specific, geography-specific, or some other basis to narrow focus to those that make the most sense for the Red Deer Region. These may include opportunities related to Alberta oil sands development, agricultural opportunities, manufacturing, tourism, or specific opportunities identified by CAEP in their research.
- Foster the growth and expansion of small to medium-sized local companies.
- Provide strong foundation of information to existing businesses and international investors to assist in the business planning process.
- Assisting local companies that are foreign owned to make follow-on investments for their facility/ location.

## D. The Plan

### D.1 Strategic Overview

On December 22, 2004 a strategic planning session was held with the 3C's committee members and organizations' leaders. The group agreed that the following mandate, mission, vision, values, goals, and outcomes would set the overall strategic direction for the Partnership over the next three years.

**Table D1: Overall Strategic Direction for the 3C Partnership**

<b>Mandate</b>	<ul style="list-style-type: none"> <li>Market the Red Deer Region</li> </ul>
<b>Vision</b>	<ul style="list-style-type: none"> <li>The Red Deer Region excels at providing a competitive business environment.</li> </ul>
<b>Mission</b>	<ul style="list-style-type: none"> <li>To work together on economic development marketing activities to attract, retain, and expand business investment and labour force in the Red Deer Region.</li> </ul>
<b>Values</b>	<ul style="list-style-type: none"> <li>Action-oriented, promotion-oriented, coordinated, shared effort/ benefit, responsive and efficient</li> </ul>
<b>Goals</b>	<ul style="list-style-type: none"> <li>The 3C Partnership leads and facilitates the process of attracting, retaining, and expanding business investment and labour force in the Red Deer Region.</li> </ul>
<b>Desired Outcomes</b>	<ul style="list-style-type: none"> <li>The Red Deer Region is perceived as the "Red Deer Corridor - Canada's Economic Capital."</li> <li>The Red Deer Region has a growing and increasingly diverse private sector.</li> <li>The Red Deer Region has a sufficient quantity and quality of labour to sustain a growing and diverse business climate.</li> </ul>
<b>Main Strategies</b>	<ul style="list-style-type: none"> <li>A. Investment Attraction.</li> <li>B. Business Retention and Expansion.</li> <li>C. Online Marketing, Promotion, and File Tracking.</li> </ul>

There is a desire to keep the 3C Partnership structure simple and relatively informal. However, consultation with political leaders and management indicated a desire for some additional structure and reporting to be adopted such as:

- A three-year memorandum of understanding (MOU) signed by each partner. This provides stability and a planning horizon over a fixed term. A MOU also provides an information reference for any new personnel at the funding organizations.
- A brief annual plan that outlines objectives, performance measures, and budget.
- Results reporting through a brief written annual report and an annual information session.

In addition, the political leaders and management indicated the following direction for the 3C Partnership:

- Complement the role of other economic development organizations.
- Primary stakeholders (City, County, and Chamber) should remain the core funders and decision makers.
- Cooperate with other organizations on a project basis where and when appropriate.

## D.2 Strategy A: Investment Attraction

Investment attraction in this context is defined as activities to encourage domestic and international investment in the Red Deer Region by companies who are not operating here now. Consultations and research with provincial investment counterparts suggest that attracting this new investment has many challenges not the least of which is getting a municipality on the 'radar-screen' of potential investors. The second challenge is that the budget required to promote and market the region internationally likely exceeds the capacity of the 3C Partnership.

For these reasons, international investment attraction should be undertaken primarily by leveraging existing CAEP, AED, and AAFRD investment attraction resources. A further building of networks and relationships with individuals in these organizations will help the Red Deer Region be more visible and connected to the provincial and federal efforts that generate investment leads.

Efforts to attract new investment from other parts of Alberta or Canada should also be undertaken in the context of the tactics outlined below. Domestic investment attraction is a simpler marketing task and is more likely to be successful.

**Table D2: Strategy A: Investment Attraction and Promotion**

<b>Target Markets</b>	<ul style="list-style-type: none"> <li>Domestic and international companies.</li> <li>Investment attraction staff at provincial, federal, and international level.</li> </ul>
<b>Key Marketing Messages</b>	<ul style="list-style-type: none"> <li>Red Deer Region has real business advantages and the resources necessary to support attraction.</li> <li>New businesses are investing in the Red Deer Region.</li> </ul>
<b>Tactics/ Steps</b>	<ul style="list-style-type: none"> <li>Engage CAEP proactively by partnering on all existing and planned investment attraction projects or promotional efforts, and initiate new investment attraction projects with CAEP.</li> <li>3C to adopt a "Trade Team Red Deer" approach by encouraging available provincial and federal investment attraction resources to notice the Red Deer Region. This would include: <ul style="list-style-type: none"> <li>Continue representation on Trade Team Alberta.</li> <li>Network with, and distribute marketing materials to key AAFRD and AED investment attraction officials locally, provincially and internationally e.g. Prospects newsletter.</li> <li>Attendance at targeted trade shows and conferences, preferably in conjunction with CAEP, AAFRD, or AED.</li> <li>Proactive and cooperative lead management and sharing by 3C Partners.</li> <li>Sector-specific opportunity identification studies or feasibility studies to enable 3C to market specific opportunities.</li> <li>Network with local businesses who are doing international trade.</li> </ul> </li> <li>Maintain a high level of readiness with high quality promotional materials, including a web site (covered later).</li> </ul>
<b>Performance Measures</b>	<ul style="list-style-type: none"> <li>Annual number of leads flowing from AED, AAFRD, CAEP.</li> <li>Investment files opened and number/ dollar value of investments made.</li> </ul>
<b>Critical Success Factors</b>	<ul style="list-style-type: none"> <li>Continuous effective and assertive networking.</li> <li>Establishing personal relationships with individuals.</li> <li>Ability to develop sector-specific appeals or propositions to various groups.</li> </ul>

There are current plans for CAEP to conduct an investment attraction project targeting value added agriculture opportunities. 3C should be an active player in this project and be prepared to promote resulting opportunities through investment attraction networks mentioned above.

### ***D.3 Strategy B: Business Retention and Expansion***

Business Retention and Expansion is defined as activities to encourage Regional companies to remain in the Region and to expand their operations base in the Red Deer Region. Stimulating Business Retention and Expansion is among the most cost-effective economic development strategies and also the one with the most success potential.

Much of Red Deer's growth and prosperity is due to local businesses expanding. While most of this 'organic' growth will happen without intervention, it is critical to ensure that barriers to growth are eliminated or minimized. Tactics under this strategy focus on networking with local individuals and groups that are involved in helping businesses expand. The objectives of this networking would be to:

- Increase awareness about barriers and concerns regarding business growth and expansion.
- Provide forums for information sharing, learning, and networking.
- Respond to the network with necessary information and connections to resources that will facilitate business expansion.
- Respond to individual investors with personal assistance, resources, and information that will contribute to business expansion.
- Promote opportunities in the Red Deer Region.

**Table D3: Strategy B: Business Retention and Expansion**

<b>Target Markets</b>	<ul style="list-style-type: none"> <li>• Decision makers in regional companies.</li> <li>• Organizations that promote Red Deer - Primarily BAN member organizations.</li> <li>• Individuals involved in commercial banking, commercial real estate, and property development.</li> </ul>
<b>Key Marketing Messages</b>	<ul style="list-style-type: none"> <li>• Red Deer Region is business friendly.</li> <li>• Red Deer Region has real business advantages and the resources necessary to support expansion.</li> <li>• Businesses are investing in the Red Deer Region.</li> </ul>
<b>Tactics/Steps</b>	<ul style="list-style-type: none"> <li>• Continue to develop communications tools such as Prospects newsletter, regional profile, other media, and the 3C web site.</li> <li>• Continue the manufacturer's survey and consider expanding it to other targeted cluster sectors i.e. ICT.</li> <li>• Continue to participate as a part of BAN and make them aware of 3C's strategies.</li> <li>• Develop individual relationships within targeted local companies. List of companies should comprise those that are prime candidates for expansion including foreign-owned companies.</li> <li>• Sponsor events once or twice per year that would bring business groups together for networking and information sharing such as seminars, conferences, high profile speakers, workshops, training, presentations, etc. An example of this might be hosting a value-added agriculture opportunity seminar in partnership with AAFRD.</li> <li>• Identify target groups such as commercial finance community, commercial real estate, and property developers to: <ul style="list-style-type: none"> <li>○ Distribute 3C marketing materials and information.</li> <li>○ Invite to quarterly information sessions (luncheons/ breakfasts) to update them on initiatives that will impact them.</li> </ul> </li> <li>• Participate in ad hoc efforts or initiatives of other groups to assist them in promoting the Red Deer Region. This might include Red Deer College or the Red Deer Regional Airport.</li> </ul>
<b>Performance Measures</b>	<ul style="list-style-type: none"> <li>• Investment files opened as a result of these activities.</li> <li>• Investments made as tracked in AED regional projects inventory.</li> </ul>
<b>Critical Success Factors</b>	<ul style="list-style-type: none"> <li>• Developing and maintaining contact database.</li> <li>• Success at developing relationships with local businesses.</li> </ul>

### ***D.4 Strategy C: Online Marketing, Promotion, and File Tracking***

The Internet is fast becoming the world communication standard offering immediate information on almost any topic. Almost two-thirds of site-selection executives use the Internet for gathering information to make business location decisions.

Developing an online presence will be crucial for the 3C Partnership to deliver the information and key messages about the advantages of locating or expanding a business in the Red Deer Region. The online presence should focus on:

- Information and downloads, and tools important to business location and expansion decisions.
- Carry images and content that support the branding message "Red Deer Corridor...Canada's Economic Capital."
- Promote news regarding recent expansions and investments of Regional businesses.
- Provide a database tool for lead management and file tracking.
- Provide a self-registration function to create a distribution list for newsletters, data releases, update notices.
- Provide information to support labour force development.

**Table D4: Strategy C: Online Marketing, Promotion, and File Tracking**

<b>Target Markets</b>	<ul style="list-style-type: none"> <li>• All target markets previously listed.</li> <li>• Local media.</li> </ul>
<b>Key Marketing Messages</b>	<ul style="list-style-type: none"> <li>• Red Deer Region is dynamic and growing.</li> <li>• Red Deer Region is business friendly.</li> <li>• Red Deer Region has real business advantages and the resources necessary to support expansion.</li> </ul>
<b>Tactics/Steps</b>	<ul style="list-style-type: none"> <li>• Register a meaningful url such as <a href="http://www.investinreddeer.com">www.investinreddeer.com</a>, <a href="http://www.reddeerregion.com">www.reddeerregion.com</a>, or <a href="http://www.reddeercorridor.com">www.reddeercorridor.com</a>.</li> <li>• Provide information that is crucial for business expansion and investment               <ul style="list-style-type: none"> <li>○ Regional demographics and statistics now posted at City site.</li> <li>○ Land inventory and future plans regarding land inventory.</li> <li>○ Zoning maps, traffic flows, development trends.</li> <li>○ Cluster based industry information and company directories.</li> <li>○ Reports, studies, publications that profile opportunities, industries, and trends.</li> <li>○ Regional video clips (e.g. video testimonials, company operations, etc.) versus CD ROM.</li> </ul> </li> <li>• Tone of website should reflect the current branding thrust and communicate that businesses are investing in the Red Deer Region. Branding focus should be on the Red Deer Region rather than the 3C Partnership.</li> <li>• Integrate a lead tracking data base that would allow each partner to share lead information and to track and manage progress of investment files (see below).</li> <li>• Labour force development content may consist of:               <ul style="list-style-type: none"> <li>○ Overview of industries that are expanding and need labour.</li> <li>○ Links to local resources that post jobs openings.</li> <li>○ Studies and initiatives regarding labour force development.</li> </ul> </li> <li>• Investigate stakeholder participation to leverage value of portions of website e.g. Red Deer College, David Thompson Health Region.</li> </ul>

**Table D.4 Continued: Strategy C: Online Marketing, Promotion, and File Tracking**

<b>Performance Measures</b>	<ul style="list-style-type: none"> <li>• Progress tracking of investment files including data on number of investment files opened, information exchanged, created.</li> <li>• Amount of media coverage.</li> <li>• Number of visits to website; geographic location of visits.</li> <li>• Number of information requests.</li> </ul>
<b>Critical Success Factor</b>	<ul style="list-style-type: none"> <li>• Committing resources to updating and maintaining web site.</li> <li>• Upkeep of file tracking system.</li> </ul>

Successful marketing of the web site will depend on how proactive efforts are. At a minimum, activities should include:

- Printing of website address on all marketing collateral and materials, reports and publications, news releases, etc.
- Promotion of the new website through networks such as BAN members, other stakeholders, and provincial/ federal investment attraction officials.
- Cross linking agreements with the websites of each partner organization, stakeholder organizations, other economic development groups, and others.
- A public relations event to promote the official launch of the 3C web site.
- Tracking and analyzing website traffic.
- Routine press releases regarding recent business expansions or other newsworthy regional investment activity. Offer information reports and downloads, and tools important to business location and expansion decisions.

Using the web site to host a lead tracking system will provide a number of benefits with regard to marketing the Red Deer Region. For example, a central location for all lead tracking will consolidate information in one place and allow information sharing between the 3C Partners. Information sharing will allow better coordination and management of effort.

Tracking files will help to identify successes, focus attention to where follow-up is necessary, and evaluate the performance of various marketing initiatives. Categorizing files in terms of action or service delivered and the source of the file, will be the key to performance tracking. For example, the database could be queried for a particular period to list the number of files opened, information exchanges, negotiations, investments made, and the value of investments. Once the system is set up and functioning, objectives could be set for future periods.

**Table D5: Online Performance Tracking**

<b>File Activity</b>	<b>Period 1 Actual</b>	<b>Period 2 Actual</b>	<b>Period 3 Objective</b>
Total number of investor files in database	150	200	260
Number of new investor files opened	50	60	75
Number of files where information was exchanged	30	50	50
Number of visits hosted	5	10	12
Number of investments made	3	6	6
Value of investments	\$6 Million	\$8 Million	\$10 Million

### D.5 Implementation Timing, and Budget

It is likely that development and implementation of the website will be the priority for 2005 and will consume the most time. A lot of time will be required in 2006 and 2007 to coordinate website updates and revise other promotional materials. The following table outlines activity targets and required person-hours to complete projects over the next three years.

**Table D6: Implementation Activity Targets**

Strategy Area	Initiative	Activity Target / Minimum Person Hours Required		
		2005	2006	2007
A	Supporting/ partnering on initiatives with CAEP/ AED/ AAFRD	1-2 projects / 20 hrs.	1-2 projects / 20 hrs.	1-2 projects / 20 hrs.
A	Networking/ hosting/ workshops/ conferences	4 activities / 40 hrs.	4-6 activities / 40 hrs.	4-6 activities / 40 hrs.
A	Trade shows and conferences	Attend 1 / 50 hrs.	Attend 1 / 50 hrs.	Attend 1 / 50 hrs.
A-B	Promotional folder/ video/ profile update	N/A	Profile update / 40 hrs.	Video update / 40 hrs.
A-C	Market research	1 initiative / 50 hrs.	1 initiative / 50 hrs.	1 initiative / 50 hrs.
A-C	KPMG analysis and Consulting	2 initiatives / 30 hrs.	1 initiative / 30 hrs.	1 initiative / 30 hrs.
B	Targeted advertising/ promotion	2-3 ads / 5 hrs.	2-3 ads / 5 hrs.	2-3 ads / 5 hrs.
B	Prospects newsletter	4 issues / 25 hrs.	4 issues / 20 hrs.	4 issues / 20 hrs.
B	Ad hoc projects (e.g. RD College/ Airport/ other)	1-2 projects / 30 hrs.	1-2 projects / 30 hrs.	1-2 projects / 30 hrs.
C	Website development and maintenance	Launch / 240 hrs.	Maintain and update / 120 hrs.	Maintain and update / 120 hrs.
	Total hours required	Minimum of about 500 hrs./ 13 weeks	Minimum of about 400 hrs./ 10 weeks	Minimum of about 400 hrs./ 10 weeks

Strategy Area:

- A. Investment Attraction
- B. Business Retention and Expansion
- C. Online Marketing, Promotion, and File Tracking

Roles and responsibilities for each of the initiatives will be shared among the partners and will be assigned depending on individual resource availability and capability. Initiatives may also be adjusted and prioritized dependant on the implementation of a Three-Year Business Plan.

The table below outlines the budget for the next 3 years.

**Table D7: Budget**

<b>Strategy Area</b>	<b>Initiative</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>
A	Supporting/ partnering on initiatives with CAEP/ AED/ AAFRD	\$0	\$10,000	\$10,000
A	Networking/ hosting/ workshops/ conferences	\$5,000	\$10,000	\$10,000
A	Trade shows and conferences	\$3,000	\$5,000	\$5,000
A-B	Promotional folder/ video/ profile update	\$0	\$15,000	\$15,000
A-C	Market research	\$10,000	\$10,000	\$10,000
A-C	KPMG analysis and Consulting	\$14,000	\$4,000	\$4,000
B	Targeted advertising/ promotion	\$3,000	\$3,000	\$3,000
B	Prospects newsletter	\$4,000	\$4,000	\$4,000
B	Ad hoc projects (e.g. RD College/ Airport/ other)	\$10,000	\$10,000	\$10,000
C	Website development and maintenance	<u>\$30,000</u>	<u>\$10,000</u>	<u>\$10,000</u>
	Total	<u>\$79,000</u>	<u>\$81,000</u>	<u>\$81,000</u>
	Funding Currently Available	\$50,000	\$30,000	\$30,000
	Surplus/ deficit	(\$29,000)	(\$51,000)	(\$51,000)

Strategy Area:

- A. Investment Attraction
- B. Business Retention and Expansion
- C. Online Marketing, Promotion, and File Tracking

Consultations with political leaders and municipal managers suggested that additional funds above and beyond the \$30,000 baseline would be considered on a business case basis. Partners will need to go through appropriate processes to access additional funding from their respective organizations. In addition, the 3C Partnership can look for opportunities in the way of grant applications, etc. to leverage funding.

## Appendix A: List of Individuals Consulted With

**Table APP1: Consultation Contacts**

<b>Name</b>	<b>Organization</b>	<b>Title/ Area</b>
Paul Godfrey	Alberta Economic Development	Sector specialist, Industrial Machinery & Equipment
James Cleland	Alberta Economic Development	Sector specialist, Metal Fabrication

# Memo

Date: September 6, 2005

To: Kelly Kloss, Legislative and Administrative Manager

From: Howard Thompson, Land & Economic Development Manager  
Russell Crook, Land and Appraisal Coordinator

RE: **Offer To Purchase 51<sup>st</sup> Avenue between 45<sup>th</sup> Street and Waskasoo Creek  
and Road Closure Bylaw**

---

## **Background:**

Seibel Construction Ltd. has expressed interest in purchasing 51st Avenue between 45th Street and Waskasoo Creek (sketch attached). Seibel Construction owns the two adjacent lots to the east as well as the Port-o-Call business centre further east and wants this land for additional parking and future development considerations. This part of 51<sup>st</sup> Avenue is undeveloped and not travelled by the general public, however, it provides access to the rear of the Remco Memorials site to the west and cars from the body shop to the east. There are power lines along the west and south sides, as well as, underground sewer water lines. There is also some ecological sensitivity related to the south part of the road near the Waskasoo Creek, which is proposed to be protected through a conservation easement.

The Administration supports the closure and sale of this portion of road, as it is surplus to the City's needs, and the sale will provide opportunity for orderly redevelopment of this road and adjoining lands to the east. A report regarding the rezoning of this land appears elsewhere on this agenda.

## **Financial Implications:**

Land and Economic Development have determined through a review of land values that the current fair market value for developable C1 commercial land in this area is \$21.00 per square foot. The approximate area of road to be closed and sold is 951 square meters (10,240 sq.ft.), of which approximately 452 square meters (4,865 sq.ft.) will be encumbered by power line and conservation easement. Pursuant to the City's practice, the encumbered area will be sold at 75% of market value. The total proceeds of the sale, approximately \$189,500.00 will be credited to the Road Right of Way Reserve. Please note that the final calculation of the purchase price will be adjusted based on the area as determined by a legal surveyor.

## **Recommendation:**

1. That City Council approve the closure and sale of 951 square meters (10,240 sq.ft.), more or less, of 51<sup>st</sup> Avenue south of 45<sup>th</sup> Street, subject to the following conditions:

# Memo

42

Kelly Kloss  
Page 2

1. The purchase price to be \$21.00 per square foot + GST for unencumbered land and \$15.75 per square foot + GST for encumbered land with the final purchase price to be adjusted upon legal survey.
  2. Consolidation of the closed road with the two lots adjacent to the east; Lot 10A, Block 6, Plan 932 0097 and the Certificate of Title to the north of this lot.
  3. That the purchaser completes an ecological assessment of the natural area to the south with the Recreation, Parks and Culture Department and implements any recommendations to protect these lands.
  4. That a water valve and manhole be installed on the water and sewer lines respectively on the south boundary of 45<sup>th</sup> Street at the Purchaser's expense.
  5. All costs associated with advertising and legal survey to be the responsibility of the Purchaser.
  6. The proceeds of the sale to be credited to the Road Right of Way Reserve.
  7. That a utility right of way be provided on the westerly eight (8) meters and the southerly six (6) meters of the road right of way.
  8. That an access easement across this land be granted to the satisfaction of the owner of Lot B and C, Plan 2219 HW, and the City.
  9. That the Purchaser enters into a Land Sale Agreement satisfactory to the City Solicitor.
2. City Council approves first reading of a bylaw having the effect of closing;  
"All that portion of 51<sup>st</sup> Avenue and lane as shown on Plan 1551HW lying within Plan \_\_\_\_\_ containing 0.092 ha., more or less". And ""All that portion of 51<sup>st</sup> Avenue as shown Plan 932 0097 lying within Plan \_\_\_\_\_ containing 0.003 ha., more or less"

**DATE:** August 31, 2005

**TO:** Kelly Kloss, Legislative and Administrative Services Manager

**FROM:** Martin Kvapil, Planning Assistant

**RE:** Land Use Bylaw Amendment No. 3156/FF-2005  
Portion of Proposed Closed Road, Plan 1551HW  
51 Avenue South of 45 Street

---

**Proposal**

The City of Red Deer seeks to rezone a proposed closed portion of road to C1 Commercial (City Centre) District. This closed portion would contain approximately 951 m<sup>2</sup> (0.24 ac.) of land. The proposed rezoning is being sought concurrently with a road closure bylaw and, upon successful closure and rezoning, the subject portion of land would be consolidated with adjacent parcels, as per the applicable road closure bylaw report that appears elsewhere on the agenda. With subsequent consolidation, legal access would be maintained to all affected parcels.

**Staff Recommendation**

Subject to first reading of the applicable road closure bylaw, it is recommended that City Council proceed with first reading of Land Use Bylaw Amendment 3156/FF-2005.

September 13, 2005

Fax: 347-9131

Seibel Construction Ltd.  
Box 40  
Blackfalds, AB T0M 0J0

Dear Sirs:

*Offer to Purchase 51<sup>st</sup> Avenue Between 45<sup>th</sup> Street and Waskasoo Creek  
Road Closure Bylaw 3350/2005  
Land Use Bylaw Amendment 3156/FF-2005*

Red Deer City Council gave first reading to Road Closure Bylaw 3350/2005 and Land Use Bylaw Amendment 3156/FF-2005 at the City of Red Deer's Council Meeting held Monday, September 12, 2005. For your information, copies of the bylaws are attached.

Council also passed the following resolution regarding the offer to purchase:

*"Resolved* that Council of the City of Red Deer, having considered the report from the Land & Economic Development Manager, dated September 6, 2005, re: Offer to Purchase 51<sup>st</sup> Avenue Between 45<sup>th</sup> Street and Waskasoo Creek and Road Closure Bylaw, hereby approves the closure and sale of 951 square meters (10,240 sq. ft.), more or less, of 51<sup>st</sup> Avenue South of 45<sup>th</sup> Street, subject to the following conditions:

1. The purchase price to be \$21.00 per square foot plus GST for unencumbered land and \$15.75 per square foot plus GST for encumbered land with the final purchase price to be adjusted upon legal survey.
2. Consolidation of the closed road with the two lots adjacent to the east; Lot 10A, Block 6, Plan 932 0097 and the Certificate of Title to the north of this lot.
3. That the purchaser completes an ecological assessment of the natural area to the south with the Recreation, Parks and Culture Department and implements any recommendations to protect these lands.
4. That a water valve and manhole be installed on the water and sewer lines respectively on the south boundary of 45<sup>th</sup> Street at the Purchaser's expense.

...2/

5. All costs associated with advertising and legal survey to be the responsibility of the Purchaser.
6. The proceeds of the sale to be credited to the Road Right of Way Reserve.
7. That a utility right of way be provided on the westerly eight (8) meters and the southerly six (6) meters of the road right of way.
8. That an access easement across this land be granted to the satisfaction of the owner of Lot B and C, Plan 2219 HW, and The City.
9. That the Purchaser enters into a Land Sale Agreement satisfactory to the City Solicitor.
10. Passage of the related Road Closure Bylaw and Land Use Bylaw Amendment."

*Road Closure Bylaw 3350/2005* provides for approximately 951 square metres (10,250 square feet) of road to be closed and sold in the area of 51<sup>st</sup> Avenue, south of 45<sup>th</sup> Street, to be used for future development. *Land Use Bylaw Amendment 3156/FF-2005* provides for the closed portion of Road to be rezoned to C1 Commercial (City Centre) District.

Council must hold Public Hearings before giving second and third readings to the bylaws. This office will now advertise for Public Hearings to be held on Tuesday, October 11, 2005 at 7:00 p.m. in Council Chambers of City Hall during Council's regular meeting.

According to the *Land Use Bylaw* The City requires a deposit before public advertising. An amount equal to the estimated cost of advertising, which in this instance is \$400, is required by Wednesday, September 21, 2005. You will be invoiced for or refunded the difference once the actual cost of advertising is known.

Seibel Construction Ltd.

# The City of Red Deer PROPOSED LAND USE BYLAW AMENDMENT

AFFECTED DISTRICTS:  
C1 - Commercial (City Centre)

Change from :  
Road to C1 

MAP No. 28 / 2005  
BYLAW No. 3156 / FF - 2005

**DATE:** September 2, 2005

**TO:** Kelly Kloss, Legislative and Administrative Services Manager

**FROM:** Martin Kvapil, Planning Assistant

**RE:** **Land Use Bylaw Amendment No. 3156/H-2005**  
**Funeral Homes and Crematoriums**

---

### **Introduction**

Presently, the City's Land Use Bylaw (LUB) does not fully address crematoriums and funeral homes within Red Deer. In particular, the LUB does not address the issue of retorts or cremator units within funeral homes. As well, the LUB does not define what constitutes a funeral home or a cremation facility. City Administration wishes to address and clarify these issues. This proposed amendment would make clear 1) the distinction between a crematorium and a funeral home, 2) the use of retorts within funeral homes, and 3) the LUB districts in which these activities may be listed as permitted or discretionary uses.

The City's LUB does not contain a definition for funeral homes. Funeral homes are currently accommodated within the "Commercial Service Facility" definition. As a commercial service facility, a funeral home (without a retort) may be accommodated within the C1, C1A, C2 and C4 Districts. The LUB does contain a definition for crematoriums, as follows:

***"crematorium"** means an establishment with one or more cremation chambers used only for the reduction of the human body to ashes by heat and where funeral services will not be permitted to be conducted.*

Parkland Community Planning Services (PCPS) has investigated the development impacts of crematoriums within existing funeral homes in order to determine compatibility with adjacent land uses. Crematoriums within Calgary and Rocky Mountain House were studied.

### **Land Use Bylaws in Other Municipalities**

The City of Calgary Land Use Bylaw defines funeral homes and crematoriums as follows:

***"crematorium"** means an establishment with one or more cremation chambers used for the reduction of the human body by heat and the keeping of human bodies other than in cemeteries, related funeral services to include the preparation of the dead, arranging and direction of funerals, and may include mausoleums and columbariums;*

***“funeral home” means an establishment for the arrangement of funerals, the preparation of the dead for burial or cremation, the holding of funeral services and the carrying out of cremations, where not more than one cremation chamber is provided.***

The Town of Rocky of Mountain House Land Use Bylaw defines the same terms as:

***“crematorium” means an establishment with one or more cremation chambers used only for the reduction of the human body to ashes by heat and where funeral services will not be permitted to be conducted;***

***“funeral home” means a business establishment where the bodies of the dead are prepared for burial or cremation, and where funeral services can be held.***

Calgary’s land use bylaw allows for funeral homes (with one [1] retort unit/cremation chamber) as a discretionary use within the C2 and C3 districts, which provide for a wide variety of moderate to high intensity retail commercial and personal service uses. As permitted uses, crematoriums are allowed within the I1 and I2 districts, which provide for business parks and general light industrial uses that would not adversely affect surrounding non-industrial uses. Calgary further allows for crematoriums as a discretionary use within its (Agricultural and Open Space) District and PE (Public Park, School and Recreation) District in conjunction with a cemetery use. All of the cremation operations within Calgary are accommodated within commercial districts, with the exception of one within an industrial area.

Within Rocky Mountain House’s land use bylaw, funeral homes are discretionary within the R-2 residential district. Rocky Mountain House has one funeral home with a cremation unit within this district. This district provides for medium density residential development with a mixture of housing types and complementary uses.

### **Issues & Concerns**

Primary concerns with the operation of cremation facilities are the possible emissions of odour and smoke.

Visible emission, such as smoke, is particle matter which has traveled through the cremation equipment and afterburning unit without being completely consumed. Based on the cremations observed, the particle matter was contained within the equipment, as no smoke was evident outside the operations.

During the observed cremations, no odours associated with the operations were evident from the outside of the businesses. A gaseous odour was evident inside the Rocky Mountain House retort unit, however, only during a cremation while the door of the chamber was opened. The odour is similar to that of a large commercial oven or kiln being ignited, or any other similar machinery fueled by natural gas.

The observed Calgary crematorium, Leyden’s Funeral Home, performs a process different to that of the funeral home in Rocky Mountain House, in that the chamber door is not required to be opened during a cremation process. At a specific time during the process, the chamber door may be opened in order to perform “raking”. Raking is done in order to agitate and rearrange large cremains, which allows for a quicker cremation; however, frequent opening of the door will result in additional operating stress on the cremation unit. As well, any opening of the chamber

door allows for the opportunity of excess oxygen to enter the chamber and, as a result, the possibility for evidence of exterior smoke.

The operators of both observed cremation facilities stressed the importance of equipment maintenance and staff certification, to perform the cremation procedure, in order to achieve an environmentally-safe process.

No other planning impacts, such as noise, traffic or parking issues, are generally observed in association with cremation operations.

### **Consultation**

Planning and development staff from both of the studied municipalities were consulted in order to gather background information and any concerns of existing or proposed cremation facilities and as well to collect any further requirements that the municipalities may have of an applicant. Furthermore, residents and business owners adjacent to the observed cremation facilities were consulted in order to determine any concerns. Neither municipal staff, adjacent residents nor commercial tenants expressed any nuisance-related concerns regarding the subject funeral homes.

As part of the consultation process, the intent of the draft land use bylaw amendment was referred to the four prominent funeral service businesses in Red Deer. As well, a referral was mailed to adjacent residences where these funeral home businesses are located within commercial districts. No comments were received from residential landowners. Comments were received from all of the referred business operators. All of the listed businesses are contained within commercial land use districts, with the exception of one, which is located within the R-3 Residential (Multiple Family) District (approved as a discretionary use under a prior land use bylaw).

One funeral home opposed the intent of allowing for cremation operations within commercial districts for the reason that most commercial districts are adjacent to residential uses. A second operator opposed the intent of the draft bylaw amendment based on non-land use factors, citing unfair business disadvantages as the reason of opposition. The third response supported the intent of the draft bylaw in order to allow funeral homes the opportunity to cater to the market demands of cremation services. The final response indicated an objection to businesses identifying themselves as containing a crematorium, when in fact cremation services are provided off-site. It was indicated that this type of identification/signage may be misleading to clients who assume that any deceased will remain on-site at all times.

Presently, all of the referred businesses utilize cremation services outside the city of Red Deer.

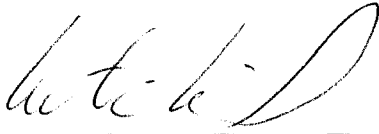

### **Planning Analysis**

As detailed in this report, Planning staff conducted extensive research into the operations and impacts of crematoriums. Based upon the research of 1) the planning practices of other municipalities, such as Calgary and Rocky Mountain House, 2) the industry's ability to manage any environmental impacts associated with the operating procedures, 3) the absence of other planning impacts, it can be demonstrated that there are opportunities to successfully allow crematoriums within the city without negative impacts. Furthermore, consultation with adjacent residents and business owners near funeral homes allowing cremations has identified no concerns with operations of crematoriums on adjacent sites.

Based upon these findings, it appears that funeral homes with cremation facilities can be located within commercial or business districts without adverse impacts on the surrounding land uses. Therefore, PCPS is proposing that cremation facilities be allowed to be considered as a land use within the City of Red Deer Land Use Bylaw. It is recommended that funeral homes be listed as a discretionary use within the downtown/city centre commercial (C1, C1A) and major arterial commercial (C4) districts and crematoriums be listed as a discretionary use within the I1 Industrial (Business Service) District. As mentioned, the staff of funeral homes stress the importance of proper operational procedures. By listing cremation operations as discretionary uses, the development authority would have the opportunity to consider any proposed operation to ensure it is to be developed with equipment and facilities of appropriate efficiency.

### **Recommendation**

Considering the above report, Parkland Community Planning Services recommends that City Council proceed with first reading of Land Use Bylaw Amendment No. 3156/H-2005.

---

Martin Kvapil  
PLANNING ASSISTANT

***Comments:***

We agree that Council give first reading to the Land Use Bylaw Amendment. A Public Hearing would be held on Tuesday, October 11, 2005 at 7:00 p.m. in Council Chambers, during Council's regular meeting.

"Morris Flewwelling"  
Mayor

"Norbert Van Wyk"  
City Manager

Council Decision – September 12, 2005

Legislative & Administrative Services

**DATE:** September 13, 2005

**TO:** Martin Kvapil, Parkland Community Planning Services  
City Solicitor

**FROM:** Kelly Kloss, Legislative & Administrative Services Manager

**SUBJECT:** Land Use Bylaw Amendment 3156/H-2005  
Funeral Homes and Crematoriums

*Reference Report:*

Parkland Community Planning Services, dated September 2, 2005.

*Bylaw Readings:*

First reading of Land Use Bylaw Amendment 3156/H-2005 was introduced, however tabled for up to 4 weeks.

*Report Back to Council:* Yes

*Comments/Further Action:*

Council asked that a number of issues be reviewed which may result in amendments to the proposed bylaw. These issues include:

- a) Number of chambers allowed in a crematorium (two as opposed to one).
- b) Setbacks to residential areas.
- c) What prevents abuse such as a crematorium pretending to be a funeral home and locates in a C1 or C1A area but never holds funerals.
- d) Information regarding potential health risks related to the cremation of a body containing mercury.
- e) Review potential districts that retorts should be located.
- f) Any other items you feel appropriate.

## CHIEF ADMINISTRATIVE OFFICER

April 19, 2005

COPY

City of Red Deer

The Red Deer River Municipal Users Group has adopted a strategy and framework which proposes to provide a forum for municipalities to discuss water supply, water use and water quality, and serve as an advocate of municipal interests in the supply, use, delivery and quality of water. All needs for the area are put on the table for the group to lobby in the best interests of the basin rather than municipalities dealing with their projects in isolation. The group has adopted an Executive Committee comprised of members from both urban and rural communities and has developed the Terms of Reference, a copy of which is attached for your consideration. The document serves as the framework for future water allocation protection for the Red Deer River.

In the past year, water has been a highlight of many of the conversations at the municipal level. The drought, low levels in the Red Deer River, increased water use in oil recovery and the potential for a number of new major water projects has heightened the concerns of the public and communities served by the Red Deer River.

Both urban and rural municipalities depend on water for health, safety and the future economical growth of the community. In the past, all municipalities have generally been supportive of the applications for withdrawal of water from the Red Deer River. Future needs were not considered because there appeared to be an abundance of water in the river. However, the Red Deer River has been impacted by several factors and it is now important that there be a common voice to protect the river ecology and the water needs for all central Albertans.

At their last meeting held on March 17<sup>th</sup>, the Executive Committee instructed me as Treasurer to send out a letter asking municipalities indicate whether they would support a \$0.50 per

capita requisition. A draft budget is attached for your consideration. Based on your population of 75,923 this equates to \$37,961.50.

The funding would be used for compiling information by hiring a consultant, intervening on hearings for the protection of the watershed, initiating an education program for the Red Deer River through bulletins and keeping members informed of all developments.

Please confirm your interest to contribute and identify your municipal representative for the group by May 6<sup>th</sup> by way of a letter or fax. Thank you in advance for your assistance in protecting the Red Deer River.

Yours truly,

## THE RED DEER RIVER MUNICIPAL USERS GROUP BUSINESS PLAN

This document is the business plan for the Red Deer River Municipal Users Group, an association of 38 urban and rural municipalities with a shared interest in protecting the future of our communities by ensuring an adequate, secure, sustainable source of water for the generations to come.

### A MATTER OF SURVIVAL

*...there is still no definitive plan that shows how adequately today's water sources will meet our future needs.*

Alberta has been subject to wide fluctuations in natural water supplies over the past two decades, with serious droughts in the late 1980s, mid 1990's and again in the past four years. But the real extent of the damage done in the Red Deer River water basin in the past, and the risk to our future, is still not clearly known. The province has defined water supply as one of its highest priorities, but there is still no definitive plan that shows how adequately today's water sources will meet our future needs. Each of us, in every municipality in the region, has our economies, our livelihoods and the very viability of our communities at risk.

*We can either try to control... water policy for the Red Deer River, or become victims of it.*

The province has initiated a multitude of programs and initiatives, ranging from regional watershed management groups to Water for Life Strategies to Special Needs Areas, but none of these truly represent a venue for municipalities to express their concerns and needs with a voice that cannot be ignored. Most of these initiatives either involve many stakeholders, some with interests that compete with municipal interests, like the Capstone Energy application, and some whose focus is on more narrow and immediate areas of concern, like the Special Needs Areas Project. It is essential that every municipality in the region be able to express its needs and have its voice heard about how essential water is to our futures. We can either try to control, or at least influence, water policy for the Red Deer River, or become victims of it.

*If we are going to survive as thriving, viable municipalities, we need to learn to work together...*

As individual municipalities, we are all dependent upon water, and are all in competition with each other, with upstream and down stream communities, and with industry for secure access to a fair share of this limited resource. If we are going to survive as thriving, viable municipalities, we need to learn to work together, like the municipalities in the irrigation districts in Southern Alberta have learned to do so well. Southern Alberta has a much longer history with unreliable and inadequate water supplies than the Red Deer River region, and so is significantly more experienced in making its needs known to the provincial and federal authorities responsible for planning and managing water overall. The Red Deer River Municipal Users Group is an effective tool for our municipalities to perform the same functions, with the same goals and outcomes.

## SERVING A DISTINCT NEED

The Red Deer River Municipal Users Group provides a unique and essential platform for us to work together towards our shared goals. We are different from such groups as the Red Deer River Watershed Alliance in our membership and purpose:

- We involve every municipality, and only municipalities, whereas the Alliance has representation from every sector, not just municipalities.
- We represent elected officials while the Alliance has administrative representation.
- We focus on policy, particularly long term sustainability, while the Alliance focuses more on operational management matters and more immediate issues relating to water quality, environmental impacts and such.

*We focus on  
policy... while  
the Alliance  
focuses more  
on operational  
management...*

As a result of these differences, are unique in:

- The areas and issues on which we focus.
- How we focus on them.
- Who we deal with.
- The actions we pursue.
- What level of attention we get.
- How effective we are in getting our needs addressed.

## MANDATE AND OBJECTIVES

Purposes of the Red Deer River Municipal Users Group (the RDR Municipal Users Group) are:

- To provide a forum for municipalities to discuss water supply, water use and water quality.
- Serve as an advocate of municipal interests in the supply, use, delivery and quality of water.

We work towards three key goals:

1. Safe secure supply of drinking water for all residents of the region.
2. Reliable quality water supplies for a sustainable economy in each of our municipalities.
3. Healthy aquatic ecosystems.

Our strategies for achieving these are described below.

*the core  
function ... is  
to influence  
policy  
making...*

## **TOGETHER WE ARE TOO BIG NOT TO BE NOTICED**

The business model is that of a voluntary association of municipalities residing in the Red Deer River water basin. This is a policy body: the core function of the RDR Municipal Users Group is to influence policy making in those organizations with authority over our water supplies, particularly by the Province. As a result, each municipality is represented at meetings by their policy makers - one or more elected members of the council.

In total, the RDR Municipal Users Group speaks with a voice of 38 municipalities, or 10 percent of the municipalities in the province. We represent a population of 183,000 Alberta citizens, more than 5% of the total population of the province and in combination more than twice the size of any cities in the province except Edmonton and Calgary. Together we are a political force as the Red Deer River Water Basin in total is home to 10 MLA's, including 5 cabinet ministers:

- Doug Griffiths.
- Shirley McClellan, Deputy Premier, Min of Finance
- Dr. Ted Morton
- Luke Ouellette, Min of Restructuring and Government Efficiency
- Raymond Prins
- Richard Marz
- Mary Ann Jablonski
- Victor Doekrsen, Min of Innovation and Science
- Ty Lund, Min of Government Services
- Lyle Oberg, Min of Infrastructure and Transportation.

A more complete listing of MLA's and the municipalities in the Region that they serve is attached as Appendix I.

## **WE ARE INDEPENDENT WITH A CLEAR, TIGHT FOCUS**

The RDR Municipal Users Group is totally independent. We cannot effectively oppose those policies that are not in our long term interests if we are dependent upon the agencies responsible for them for our resources.

We are a lean organization: we will not create a permanent staff group but will look first to member administrative staff and secondly for contracted resources where people are concerned. We will not become entrenched in facilities, but will operate within a member municipality's offices on a cost recovery basis.

We are self funded in that each municipality is asked to make a nominal contribution on a per capita basis to fund the activities of the RDR Municipal

*We are a lean  
organization: we  
will not create a  
permanent staff.*

*We are self  
funded...each  
shares the  
financial burden  
fairly...*

Users Group, and from time to time may contribute resources in the form of time, facilities, equipment or supplies. The proposed funding model shares the financial burden fairly based upon the population served, and no one member is required to contribute more than the others. The City of Red Deer, as the very largest member, would still contribute well under half of the total contribution.

The four core activities upon which we will focus are:

1. **Providing an accurate, relevant, reliable database** to member councils so that:
  - All members have the same understanding of the current situation is, and the future projections are, for our shared water supply.
  - Municipalities are not duplicating costs trying to get the data they need to make decisions about their community's needs.
  - The agencies we are communicating with will have confidence that our data is beyond dispute.
2. **Lobbying decision makers** to ensure they understand our needs and concerns for the future – independent of other, competing needs –to ensure that the long term needs of our communities for water are not foregone in favour of shorter term benefits to others.
3. Creating and **exercising a communications plan and providing forums for discussion** so that member municipalities have an efficient, effective method of working together, and so that information can be communicated to the public and others who may influence provincial and federal policy.
4. **Providing a basis for joint planning among ourselves** regarding our future growth expectations and growing needs for water to allow our communities to grow, ultimately perhaps contributing to a single, integrated Long Term Water Management Plan.

Our strategies in each of these functional areas are described below.

### USE INFORMATION AS A STRATEGIC TOOL

Our focus on creating and maintaining an information base is on providing a strategic tool to decision makers. Despite the effort and attention focused on water in recent years, it is still extremely difficult for municipalities to get accurate, consistent data about our water supply in the Red Deer River Basin. We need data – objective facts- to build consensus within and between municipalities about what risks we face to our future.

We need a data base about water supply and water issues that elected officials can tap into readily without having to task their administrations to conduct research for them. We need to understand what is happening with the volumes and quality of our water supply, with erosion, pollution,

*...to ensure that the long term needs of our communities for water are not foregone in favour of shorter term benefits to others.*

*A common data source will be a force for bringing us together to put aside our differences.*

diversion and a host of other factors that will determine the success of our communities in the future.

A common data source will be a force for bringing us together to put aside

Source	Type of Information
Alberta Government Departments: Environment, Energy, Agriculture, Municipal Affairs.	Studies, reports and links.
Water For Life Site	Report and links to related data.
Watersheds of Alberta	A comprehensive list of watershed stewardship group information and contacts.
Land Stewardship Centre of Canada Alberta Stewardship Network	An electronic clearinghouse and free educational referral service designed for land stewards with information about land-use conservation practices, programs, agencies and referrals.
Nature Conservancy Canada	Works with private and public groups in order to conserve Canada's lands, wetlands and wildlife.
Environmental Research and Studies Centre	Links to on-line research and papers in Alberta and Canada.

our differences. It will help ensure that we do not spend our time debating among ourselves about what the facts are. It will also ensure our credibility when we deal with provincial and federal decision makers if our facts are unarguable - accurate, consistent and to the point.

The following is a sampling of the range of information sources that can be pursued.

The data base will be an on-line site that includes technical data gathered from existing sources, combined with analysis and interpretation of what that data means to us, and links to other sites with related data. It will include research papers as well as information about what is happening in the field that we need to be aware of – policies, meetings, decisions, events, conferences, and changes in organizations, especially regarding people in positions of authority.

We will not require a major investment in creating new data, but we will contract with resources to develop the first data base from existing sources, to maintain it on a regular basis and, from time to time to contribute new analyses.

### **FOCUS LOBBYING STRATEGICALLY AT THE HIGHEST LEVELS WHERE IT WILL HAVE THE MOST IMPACT**

The RDR Municipal Users Group is a policy-level body. Our members are municipal policy makers and our target audience are provincial and federal policy makers. Lobbying will only be effective when it is focused on specific

*Lobbying will  
only be  
effective  
when it is  
focused on  
specific  
objectives  
with well  
defined  
strategies and  
ammunition*

objectives with well defined strategies and appropriate resources. While the specifics need yet to be developed and agreed in consensus among members, we believe they should include the following:

1. **Our MLAs**, individually and as a group: The RDR Municipal Users Group will provide our MLA's with a venue to speak directly with us as a group of constituents with a common interest just as it will allow us to potentially bring them all together under one roof to hear both what we and their peers are saying.
2. **Provincial Ministries** and their senior decision makers: We will target the Ministers, DM's and ADM in each of Alberta Environment, Municipal Affairs, Energy and Agriculture with a specific focus on the water functions for which they are responsible.
3. **Federal Departments** responsible for fisheries and environment with authority over our water use and allocation.
4. Independent functional, industry and **regional programs and agencies**, including watershed management groups and associations, environmental, wildlife and fisheries groups.

We know exactly who should be approached, why and how. A table summarizing the key lobby targets is illustrated here, with more detail about the programs attached as Appendix II.

We will also target the key annual strategic venues. A detailed list will be developed and modified each year, but will include:

- The conventions of the major political parties.
- The Environmental Water Quality conference.

We recognize that AUMA and AAMD&C have a responsibility to all members. It would not be appropriate to use their annual meetings as venues for lobbying since our interests may be in opposition to water use by other municipalities outside our water basin.

*We know exactly who should be approached, why and how.*

Lobby Target Organizations/ Programs
Alberta Environment – Dept in General
Water for Life Program
Alberta Water Management and Erosion Control Program
Alberta Agriculture, Food and Rural Development: Aquaculture
Farm Water
Business and Economics
Consumer Information Department
Soil, Water and Air
Weather and Climate
Alberta Irrigation Council
Annual Irrigation Program - Alberta Irrigation Council
Alberta Irrigation Projects Association
Alberta Sustainable Resource Development: Natural Resource Conservation Board
Fisheries & Oceans Canada: Communications Branch
Alberta Municipal Affairs: Municipal Sponsorship Program
Alberta Municipal Affairs: Regional Development Program

Although most lobbying will be focused on policy making, we will also solicit funding where the program is intended to support this type of inter-municipal cooperation and can be accessed without compromising our independence. Municipal Affairs has some such programs which can be tapped into to fund initiatives without giving up the independence which is essential to our success.

### **INFORM COMMUNITIES THROUGH A STRATEGY COMMUNICATION PLAN**

In addition to creating and maintaining an up-to-date and accessible on-line information base of water flow, quality and usage information, we will develop a proactive strategic communications plan which will keep members informed in a timely manner through information bulletins and reports. The audience of the communications plan will be member councils and their administrations. Specific issues will be defined by the members themselves based upon their interests, and may include Long Term Demand and Supply Forecasting; Water Licensing; Applications for Use; Policy and Court Decisions; and events relating to the industry.

The specific communications strategies will be developed in detail as part of our initial activities, but a key element will be informing members proactively. Where practical, technology will be used to keep costs down by broadcasting news through emails, arranging telephone and on-line conference calls and linking members with written, video and audio materials relevant to our mandate.

### **A MEDIUM FOR INTER-MUNICIPAL COOPERATION AND COORDINATION**

As municipalities we all have areas in which our interests are not fully aligned, or sometimes in conflict. The RDR Municipal Users Group is a venue for municipalities to put their differences aside and focus on this one over-riding issue that is critical to all of our futures. Our meetings will not only focus on the joint lobbying we will undertake, but will also provide an opportunity for information sharing and joint planning among members who might not otherwise have an opportunity to get together.

*The RDR  
Municipal Users  
Group is a  
venue for  
municipalities  
to...focus on  
this one over-  
riding issue that  
is critical to all  
of our futures.*

## A BUDGET FOCUSED ON BEST VALUE AND GREATEST IMPACT

Our budget is based upon a \$0.50 per capita contribution by each of 38 member municipalities. With a population base of over 183,000 and growing, this gives us a base of over \$91,500 per year to cover operating expenses. The five year financial plan is illustrated below:

Red Deer River Municipal Users Group Five Year Financial Plan						
Population*	Year	2006	2007	2008	2009	2010
		183,445	186,197	188,990	191,824	194,702
<b>REVENUE</b>		\$91,723	\$93,098	\$94,495	\$95,912	\$97,351
<b>COSTS</b>						
<b>Information Data Base</b>						
Development		15,000				Initial setup - see research below
Maintenance			5,000	5,000	5,000	5,000 Content monitoring and update
Web costs		4,000	4,500	4,500	5,000	5,000 Web hosting
<b>Communications</b>						
Pamphlets, Brochures		8,000	2,000	2,000	2,000	2,000 Initial development, minor annual updates
Newsletters		2,000	2,200	2,400	2,600	2,800 General production and mailing costs
Telephone/Communications		3,600	3,800	4,000	4,200	4,400 Long distance, courier
<b>Lobbying</b>						
Meetings, Transportation		10,000	11,000	14,500	17,000	18,000 Travel, subsistence for lobbying meetings/trips
Conference Registrations		6,000	6,500	7,000	7,000	7,500
Communications		5,000	5,000	5,000	5,000	5,000 Prepare documents, correspondence
<b>Research, special projects</b>		20,000	35,000	32,000	30,000	30,000 Consultant research
<b>General Administration</b>						
General Office		6,000	6,000	6,000	6,000	6,000 General office, copy, phone costs
Contract Administration		12,000	12,000	12,000	12,000	12,000 Maintain database, communications, coordination
<b>Total Costs</b>		<b>91,600</b>	<b>93,000</b>	<b>94,400</b>	<b>95,800</b>	<b>97,700</b>
Net annual surplus (deficit)		123	98	95	112	(349)
Accumulated Surplus (deficit)		123	221	316	428	79
*Basis for revenue projections						
Estimated annual population growth					1.50%	
Revenue per capita					\$0.50	

The plan illustrates a strategy of ensuring a focus on the core activities of the group by maintaining a balance of revenues (after the initial year) as follows:

- Information (Database and Communications): 20%
- Lobbying and Research: 60%
- Administration: 20%

The lobbying budget includes costs to send representatives to each of the three annual political conferences, plus additional trips to ministry departments from time to time as well as conference registrations and general communications with provincial and other officials.

Research and special projects will be defined and approved by the members in annual plans. The amount of money in the budget is a general estimate based upon the level of funding available from members. Actual research or lobbying expenditures could be greater if additional revenue can be realized

through special funding programs(in which case they would add an equal amount of revenues and costs to these projections and so would not change the annual net totals).

*... administrative requirements ... cannot be just assigned as another priority to a volunteer member...*

*...members should be compensated to recover costs where their contribution is disproportionate*

Administration projections recognize the reality that the administrative requirements of the Municipal User's Group cannot be just assigned as another priority to a volunteer member, in competition with all of the day-to-day priorities municipalities face. It reflects a requirement for a lead municipality to act as the single contact point and provide office, phone and administrative capacity. A basic principle is that members can and should donate time and resources where practical, members should be compensated to recover costs where their contribution is disproportionate such as providing office resources. Actual administrative staffing, however, may be contracted to a municipality or to an independent resource to perform the basic administrative functions required for communications, document preparation, data administration, budgeting, accounting and reporting, meeting planning, recording and documentation, and general coordination among members.

Annual budgets and operating plans will be prepared to define the specific financial requirements from year to year, which may vary somewhat from this framework but should not deviate significantly without approval of the members.

## APPENDIX I: PROVINCIAL POLITICAL REPRESENTATION

### - Elected officials within the RDR water basin

Municipality	Type of Location	Electoral Division	MLA	Party	Ministry
Castor	Town	Battle River - Wainwright	Mr. Doug Griffiths	PC	n/a
Coronation	Town	Battle River - Wainwright	Mr. Doug Griffiths	PC	n/a

## APPENDIX II: TARGET LOBBY ORGANIZATIONS AND PROGRAMS

Organization/ Program	Description
<b>Alberta Environment</b>	Ministerial mandate is to directly administer the Water Act. The Province's review of its water management policy and legislation began in 1991 with the view of updating its water management policy and legislation to ensure that Alberta's water is managed and conserved for today and for the future. The Water Resources Act was over 60 years old and was primarily a tool for allocating water. The new Act focuses on managing and protecting Alberta's water and on streamlining administrative processes.
Water for Life Program	This ministry also administers the Water for Life program. In accordance with this program, studies are conducted and water monitoring is reported regularly. This may aid in the provisioning of standardized values for any numerical reporting being considered.
Alberta Water Management and Erosion Control Program	A program established to provide funding to municipalities, groups and such for the management of water in Alberta. A maximum of \$275,000 is allowed each year to each organization.
<b>Alberta Agriculture:</b> Food and Rural Development: Aquaculture (Division of Livestock)	Directly involved in aiding those people involved in fisheries, hatcheries, and water related farming. Also involved in aquaponics farms, where fisheries or hatcheries and vegetation growth or plant crops are combined.
Farm Water (Division of Ag Engineering)	Directly responsible for working with farmers for water provisioning for dugouts, dams, and irrigation. Wells, spring management and drought management are also part of the mandate of this branch.
Business and Economics	Responsible for siding in the development of Alberta Agricultural products as being saleable and economical. May become involved where legal challenges apply, or feasibility is involved.
Consumer Information Department	Responsible for providing timely information to water users about water supply, quality and analysis.
Soil, Water and Air	Directly responsible for the management of water quality and supply in Alberta for the agricultural marketplace. This would steer policy directives.
Weather and Climate	Also involved in the management of water resources under drought conditions.
Alberta Irrigation Council	A provincial body reporting to the minister of Agriculture regarding irrigation in Alberta. The Irrigation Council is mandated to set policy and procedure for all irrigation in Alberta.
Annual Irrigation Program - Alberta Irrigation Council	This is a program that reports all irrigation statistics to the Irrigation Council on an annual basis. This is a cost shared program between the province and each of the thirteen irrigation regions involved in its operation.

Organization/ Program	Description
Alberta Irrigation Projects Association (Reports to Alberta Irrigation Council)	An independent corporation which collectively represents all thirteen of the irrigation districts in Alberta to the government.
<b>Alberta Sustainable Resource Development:</b> Natural Resource Conservation Board (Reports to Alberta Sustainable Resource Development)	The board reviews applications for major natural resource development projects. These include projects from the forest, recreation, tourism and mining industries, as well as water management projects and confined feeding operations.  This Board operates in a joint partnership capacity with the EUB (Energy Utilities Board) and would be responsible for approving water pumping applications.
<b>Fisheries &amp; Oceans Canada:</b> Communications Branch	Involved in the investment and protection of Canada's Aquaculture industry, and would be involved where fisheries are concerned of the farming of fish are concerned.
<b>Alberta Municipal Affairs:</b> Municipal Sponsorship Program	Funding program aimed at promoting municipal cooperation and joint projects. This project may qualify. Funding is once per year, and application deadline is end of business July. (\$40,000 per year on applications)
Regional Development Program	A two part grant process; Exploration (for project development) and Implementation (to implement). Under the criteria established by AMA, this project may qualify for \$75,000 exploration and \$150,000 implementation based on population figures.

**RED DEER RIVER MUNICIPAL USER GROUP (RDRMUG)  
FRAMEWORK**

1.    **Name**
  - 1.1   The name of the assembly shall be the Red Deer River Municipal User Group.
  - 1.2   The official abbreviation of the Red Deer River Municipal User Group shall be RDRMUG.
2.    **Need**
  - 2.1   As demands, both within and outside the Red Deer River Basin, for water from the Red Deer River increases and the amount of water available for future allocation to municipalities in turn decreases, there is a growing need for municipalities to be jointly vigilant on the quality and quantity of water in the Red Deer River, as well as the use of water.
  - 2.2   A sustainable economy and sustainable communities are dependent on the availability and provision of safe, secure potable water. It is becoming increasingly necessary to monitor water quality and to address activities that affect water quality, including source point pollution, in order to maintain and, wherever possible, enhance the water quality in the Red Deer River and its tributaries.
  - 2.3   The costs to supply and maintain potable water to residents and businesses continue to greatly increase. Not only do municipal water systems require the injection of funds to maintain and upgrade the delivery system, but more and more regional cooperation in the supply of safe, potable water offers effective alternatives to the many water supply and quality issues that municipalities face, not only today but also in the future.
  - 2.4   The Province of Alberta has adopted Water for Life strategy, being a new water management approach to manage Alberta's renewable, yet finite, water resources. One aspect of the strategy is 'partnerships', which recognizes all Albertans and stakeholders - including municipalities - share responsibility for the wise use and sustainability of water. While a number of regional partnership approaches are underway in the Red Deer River basin, none specifically address the needs of all rural and urban municipalities in the basin. This void needs to be filled.
  - 2.5   Water use related groups in other water basins have successfully presented their cause and cases to the Provincial Government, resulting in special focus on the use of water in these basins and funding of their water related projects. The waters in the Red Deer River are equally strategic to the sustained health and economy of the communities along, and in short reach of, the Red Deer River. The cooperative efforts of municipalities, both present

and future, that rely on the Red Deer River is of utmost importance to gain fair and equitable attention, including funding, from the Province to promote the sustainability of the Red Deer River and the economy of urban and rural communities within its basin.

**3. Purposes**

3.1 The purposes of Red Deer River Municipal User Group are to:

- (a) Provide a forum for municipalities to discuss water supply, water use and water quality, and
- (b) Serve as an advocate of municipal interests in the supply, use, delivery and quality of water.

**4. Goals**

4.1 Together with all Albertans, the Red Deer River Municipal User Group recognizes these three key goals:

- (a) Safe, secure drinking water
- (b) Reliable, quality water supplies for a sustainable economy, and
- (c) Healthy aquatic ecosystems.

**5. Objectives**

5.1 The objectives of the Red Deer River Municipal User Group are to:

- (a) Foster an accurate and up-to-date information base on water supply, use and quality
- (b) Develop and undertake a Communication Plan to keep municipalities informed on water related matters
- (c) Serve as an effective municipal sector advocate for the provision of adequate funds for urban and rural municipalities to provide and maintain municipal and regional potable water supply systems
- (d) Serve as a municipal forum for major water related issues and, as the need arises, an effective advocate of municipal interests as related to water issues
- (e) Advocate the priority of Red Deer River water for use within the Red Deer River Basin, including municipalities receiving treated potable water from the Red Deer River by means of regional delivery systems
- (f) Support cooperative planning and coordinated management of the basin watersheds and their waters
- (g) Cooperate with the Red Deer River Watershed Advisory Council in the promotion of the wise use and conservation of water and integrated watershed management
- (h) Promote and assist, as appropriate, the work of local stewardship groups in the conservation of local watersheds
- (i) Work cooperatively with the Province, and other water stakeholders, to promote the wise use and sustainability of water in the basin.

- 5.2 From time to time the above objectives may be altered, deleted or added to.

**6. Membership Entitlement and Membership**

- 6.1 A municipality is entitled to become a member of the Red Deer River Municipal User Group if:
- (a) the municipality located within the Red Deer River Basin, or
  - (b) the municipality receives water from the Red Deer River for municipal or other purposes.
- 6.2 A municipality that meets one of the criteria in Section 6.1 may become a Member of the Red Deer River Municipal User Group if the Council of the municipality approves a resolution to become a member.
- 6.3 A copy of the resolution shall be filed with the Secretary of the Red Deer River Municipal User Group.
- 6.4 A Member Municipality will cease to be recognized as Member upon receipt by the Secretary of a resolution of the Council of the municipality that the municipality withdraws its membership.

**7. Structure**

Representatives

- 7.1 The Red Deer River Municipal Group is composed of one representative from each member municipality.
- 7.2 Each member municipality may appoint one individual to represent the municipality and to take part in any activities of the RDRMUG, including any committees to which the individual may be appointed.
- 7.3 Each member municipality may appoint an alternate individual who, in the absence of the member, may represent the member.

Joint Chairmen

- 7.4 There shall be joint chairmanship, with
- (a) one Chairman being a representative of a rural municipality, and
  - (b) one Chairman being a representative of an urban municipality.
- 7.5 Each Chairman shall be elected for a three year period, as follows:
- (a) the rural Chairman shall be elected by a simple majority from and by members of rural municipalities, and
  - (b) the urban Chairman shall be elected by a simple majority from and by members of urban municipalities.
- 7.6 If either Chairman resigns prior to the appointed end of term, another

person may be elected to fill out the remainder of the term. Such election shall be in the manner outlined in Section 7.5.

- 7.7 If a Chairman is absent from or during a meeting and the joint Chairman is not in attendance, the Members may elect a Chairman from the Members in attendance.
- 7.8 General meetings of RDRMUG will be chaired on an alternate basis by the Rural Chairman and the Urban Chairman.
- 7.9 The duties of the Chairman are:
- (a) chair alternately the General Meetings of RDRMUG,
  - (b) chair alternately the Executive Committee meetings,
  - (c) jointly exercise general supervision over the RDRMUG activities.

#### Secretary

- 7.10 A Secretary shall be appointed by the Executive Committee.
- 7.11 The Secretary is responsible to:
- (a) maintain the record of Members and their contact information,
  - (b) maintain a record of the minutes of all meetings, including committee meetings,
  - (c) distribute minutes to Members and members of committees as the case may be.
- 7.12 At all meetings there must be a Recording Secretary. If not the Secretary, a Recording Secretary may be appointed from meeting to meeting. Such appointment shall be the responsibility of the Chairman or the host municipality.
- 7.13 The Recording Secretary is responsible to:
- (a) take minutes of the meeting, including attendance, the general discussions and any motions or directives approved by the Members, and
  - (b) forward the minutes to the Secretary for distribution and filing.

#### Treasurer

- 7.14 In the event that RDRMUG receives funds to assist RDRMUG fulfill its purposes, a Treasurer shall be appointed by the Members.
- 7.15 The Treasurer shall be the Chief Administrative Officer of a member municipality, who may in turn assign duties to a staff member within his/her municipality.
- 7.16 The duties of the Treasurer are to:
- (a) keep and maintain the financial records of RDRMUG,
  - (b) arrange for the collection of monies (fees) from Member municipalities should the Members resolve to have a fee structure,
  - (c) seek other funds that may be available from time to time,

- (d) arrange for the preparation of an annual financial report and presentation of the same at a General Meeting,
- (e) advise on budget requirements for the actions of RDRMUG.

## 8. Committees

- 8.1 The Committees of RDRMUG shall be:
- (a) an Executive Committee,
  - (b) any committee formed by the Members on a majority vote of the members present at a General Meeting of RDRMUG, and
  - (c) any committee formed by the Executive Committee on a majority vote of the members present at a meeting of the Executive Committee.

### Executive Committee

- 8.2 The Executive Committee shall consist of:
- (a) the Urban Chairman and Rural Chairman,
  - (b) an equal number of representatives from rural and urban municipalities, the number of each to be no less than two and no more than five, and
  - (c) if the Treasurer is not a member of the Executive Committee, he shall be an ex-officio member.
- 8.3 Executive Committee meetings shall be chaired alternately by the Urban Chairman and the Rural Chairman.
- 8.4 The Executive Committee shall be responsible to:
- (a) conduct the necessary business and affairs of RDRMUG,
  - (b) oversee the actions of other committees,
  - (c) review and approve reports prepared for RDRMUG,
  - (d) advise on liaison by RDRMUG members with the Provincial Government, other water stakeholders in the Red Deer River Basin and other sub-basins in the South Saskatchewan River Basin,
  - (e) may upon two-thirds vote of the members present revoke the membership of a municipality for just cause, and
  - (f) any other duties assigned by the Members.

### Other Committees

- 8.5 At a duly constituted meeting, the Members or the Executive Committee may appoint such committees and members thereto as deemed necessary for the carrying out of the purposes and objectives of RDRMUG.
- 8.6 The duties of each committee, if established by the Members, will be initially established by the Members and subsequently refined by the Executive Committee. The duties of each committee established by the Board of Directors will be as determined by the Executive Committee.
- 8.7 For purposes of continuity, the Chairman of a committee shall be a member of the Executive Committee.

- 8.8 Each committee shall serve its term of appointment or until the committee is dissolved by the Executive Committee.
- 8.9 Each Committee shall be responsible to the Executive Committee and ultimately to the Members.
- 8.10 The Chairman of each committee shall present a report to each Executive Committee meeting and General Meeting.

## 9. Meetings, Quorums and Voting

### General Meetings

- 9.1 A General Meeting will be at the call of the Chairman, but there should be no less than two General Meetings in a calendar year.
- 9.2 There shall be no quorum for a general meeting, unless at the meeting there is a motion to spend funds or adopt a position paper, and then the quorum shall be a simple majority of the Members.
- 9.3 The purposes of General Meetings are to:  
(a) provide a forum for discussion of water related matters  
(b) deliberate and determine, as necessary, values, principles, issues, actions, advocacy positions and other like matters.
- 9.4 Business matters should be referred to the Executive Committee for determination and action.

### Special Meetings

- 9.5 A Special Meeting may be called by the majority of the Members.
- 9.6 The quorum at a Special Meeting shall be a simple majority of the Members.

### Executive Committee

- 9.7 The Executive Committee will meet at the call of the Chairman, but there should be a minimum of one meeting in a calendar year.
- 9.8 A quorum shall be a simple majority of the members of the Executive Committee.

### Other Committees

- 9.9 A Committee shall meet at the call of the Chair.
- 9.10 A quorum shall be a simple majority of the members of the Executive Committee.

### Voting

- 9.11 If a vote is called at any meeting of RDRMUG and committee thereof, each Member including the Chairman shall vote. A tied vote is lost.

#### 10. Spokespersons

- 10.1 The spokesperson:
- (a) For RDRMUG shall be one or both of the Rural Chairman and Urban Chairman,
  - (b) for RDRMUG in the absence of the Rural Chairman and Urban Chairman from a meeting, shall be the appointed chairman of the meeting or a person appointed at the meeting to be the spokesman,
  - (c) for the Executive Committee shall be the Chairman of the meeting or a person appointed at the meeting to be the spokesman,
  - (d) for a Committee shall be the Chairman of the Committee, unless from meeting to meeting another spokesman is appointed.
- 10.2 Members may, outside of meetings, give their views and opinions on matters and issues, but unless being the spokesperson as provided for in Section 10.2, such views and opinions must be in the context of personal opinions and views.
- 10.3 At meetings of RDRMUG and its committees, Members may express their point of view as long as it is done respectful of other persons and other points of view. Where there are issues and concerns being debated, the focus should be on illuminating the issue not on apportioning fault.
- #### 11. Protection
- 11.1 No Chairman, Treasurer or Member of RDRMUG or member of a committee shall be liable for the acts, receipts, neglects or defaults of any other Chairman or Member.
- #### 12. Dissolution
- 12.1 Should RDRMUG dissolve, upon dissolution the funds of RDRMUG shall first be used to the payment of any outstanding debts and the balance shall be contributed to one or more local watershed stewardship groups at the choosing of the Executive Committee.

XXXXXXXXXX

***Comments:***

The Red Deer River Municipal Users Group is an association of 38 urban and rural municipalities residing in the Red Deer River water basin with a shared interest in protecting the future of these municipalities by ensuring an adequate, secure, sustainable source of water for the generations to come. A core function of the Group is to influence policy making in those organizations with authority over the Basin's water supply.

The letter from the Users Group is asking for a municipal representative as well as financial support to carry out the work required. The City of Red Deer has previously appointed Councillor Watkinson-Zimmer as Council's representative. What is before Council now is an ongoing funding request of \$0.50 per capita. (This request is being made to all members of the Group). Based on Red Deer's 2005 census of 79,082, the funding request equates to \$39,541. In support of their request, the User Group has prepared and submitted a Business Plan and Budget. Also submitted is the framework of the User Group.

We fully support the initiative of the User Group and strongly believe that Red Deer offer its support both by being a member and contributing financially. We recommend that Council approve a contribution from the Water Utility of \$0.50 per capita to the Red Deer River Municipal Users Group. It is the intent that this contribution is an annual contribution to at least 2010 as contemplated within the Group's Business Plan (based on the most current population figures at the time of budget deliberations).

ATTENTION: Norbert Van Wyk

Dear Norbert:

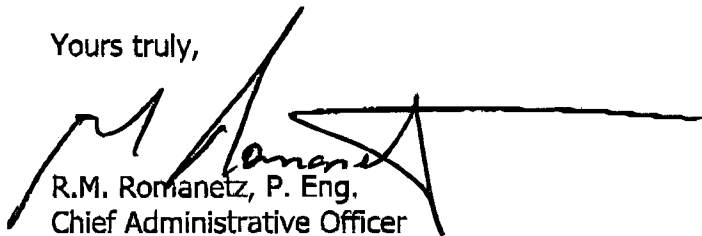

**RE: RED DEER RIVER MUNICIPAL USERS GROUP**

Further to recent discussions between Mayor Morris Flewwelling and Mayor Paul Ainscough, I have been requested to submit a copy of the draft Business Plan for the Red Deer River Municipal Users Group. Please forward a copy of the report to Councillor Lorna Watkinson-Zimmer who is the City of Red Deer's representative on this group. The next meeting of the Red Deer River Municipal Users Group is scheduled for September 8<sup>th</sup> in Drumheller.

Also attached is a copy of the letter dated April 19, 2005 requesting that the City of Red Deer participate in the organization and outlines a \$0.50 per capita contribution. I understand that this matter will be discussed at the City of Red Deer's Council meeting in September. Please give me call if you have any questions or need more Information.

Thank you in advance for your immediate attention to this matter.

Yours truly,

R.M. Romanetz, P. Eng.  
Chief Administrative Officer

**RED DEER RIVER MUNICIPAL USER GROUP (RDRMUG)  
STRATEGIES/ACTIVITIES**

1. Information Base: Establish and/or assist in fostering and maintaining up-to-date information on the quantity, quality and uses of Red Deer River water.
  - Collect and update information with the assistance of Alberta Environment
  - Develop an information base, preferably an electronic base in a format that is easy to report (i.e. reader friendly), reviewed and updated
  - Develop a means to assure information sharing on public water supply
  - Document web sites where up-to-date information may be viewed on a daily basis.
2. Program Information Base: Establish and maintain up-to-date information on programs, responsibilities (include contacts) and funding.
  - Identify all federal, provincial and municipal responsibilities
  - Identify all related legislation, and provide key summaries thereof
  - Identify all applicable programs, including sources of funding
  - Identify contact information.
3. Informing Communities: Develop a mechanism of informing communities on a timely basis about Red Deer River matters.
  - Establish a program of up-dating municipalities through timely information bulletins and, as necessary, reports
  - These may address water quantity (flow), quality and use information, often relaying information from provincial sources
  - These may also introduce and summarize water issues regarding the quantity, quality and use of the Red Deer River
  - These may include reports prepared by or on behalf of RDRMUG or other reports prepared for other agencies and groups.
4. Intermunicipal Coordination of Water Supply: Establish a coordinated mechanism to promote the cost effective delivery of public water within and, where appropriate, adjacent to the Red Deer River Basin.
  - Establish an information base of municipal and regional water supply systems that utilize waters from the Red Deer River and its tributaries
  - Develop a coordinated strategy for the delivery of public water to municipalities in the basin, by both municipal and regional systems. The strategy may address among other matters:
    - Needs, present and future, by all municipalities
    - The cost effectiveness of municipal and regional systems, recognizing one solution does not fit all
    - Criteria and timelines for the development of regional systems
    - Funding and grant processes
    - Including, where appropriate, municipalities outside the Red Deer River Basin

5. Advocacy for Infrastructure Funding: Establish an effective mechanism to provide a united voice to the Province for water supply infrastructure.
  - Identify main issues and needs
  - Research and document the issues/needs, including options and possible actions
  - Discuss and arrive by consensus at mutually agree 'actions'
  - Effectively present positions to MLAs and Ministers
  - Coordinate lobby efforts.
6. Advocacy for water use in the Red Deer River Basin: Establish an effective mechanism to represent a 'basin voice' on the priority of use of water in the Red Deer River Basin for Red Deer River Basin needs.
  - Identify main issues and needs
  - Collaborate with other 'stakeholders' and/or undertake research and document the issues/needs, including options and possible actions
  - Discuss and arrive by consensus at mutually agree 'actions'
  - Effectively present positions to MLAs and Ministers
  - Coordinate lobby efforts.
7. Interagency Protocol: Recognize the related roles and works of other groups and seek to provide assistance for the mutual benefit of water management and use within the Red Deer River Basin.
  - Identify all groups and projects related to the quality, quantity and use of water from the Red Deer River and its tributaries
  - Open and maintain lines of communication
  - Provide information where the needs and purposes of the group and/or project mutually serve the purposes of RDRMUG
  - Actively participate in otherwise assist other groups where the needs and purposes of the group and/or project mutually serve the purposes of RDRMUG, including but not limited to best management practices to improve and maintain water quality throughout basin.
  - It is recognized that the Red Deer River Basin Watershed Planning and Advisory Council will be a key coordinator of promoting and coordinating improved watershed management in the Red Deer River Basin, such that support and involvement by all municipalities in the Basin is encouraged.
8. Forum and agent of action for cooperation with Province: Recognize the mutual benefits of working cooperatively with the Provincial Government and departments to achieve the following goals:
  - Safe, secure drinking water supplies within the Red Deer River basin
  - Reliable, quality water supplies for a sustainable economy within the Red Deer River basin
  - Healthy aquatic ecosystems within the Red Deer River and its tributaries.In this regard RDRMUG should serve as forum and an agent of action to

promote common objectives and achieve results regarding:

- Water strategies
- Water allocations
- Conservation of water quality and quantity
- Conservation of aquatic habitat
- provincial initiatives and regulations (i.e. responses thereto)
- financial programs to provide, update and maintain municipal and regional water supply supplies.

**Re: Red Deer River Municipal User Group  
Business Plan and Funding**

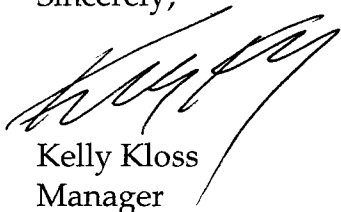

At the City of Red Deer Council Meeting held Monday, September 13, 2005, Council agreed to support a \$0.50 per capita contribution, in the amount of \$39,541, to the Red Deer River Municipal Users Group for 2005. I have asked The City's Public Works Manager to forward you a cheque in due course.

Council also agreed that, for future years, the allocation to the Users Group be included as part of the annual City budget deliberations based on \$.50 per capita times the most recent population figures available at that time. Following this annual review and subject to Council's approval, the contribution will be forwarded to the Users Group.

Council expressed their appreciation for the work of the Users Group and the opportunity to participate.

Please call if you require any further information.

Sincerely,

Kelly Kloss  
Manager

Council Decision – September 12, 2005

Legislative & Administrative Services

**DATE:** September 13, 2005  
**TO:** Mary Bovair, Financial Analyst  
**FROM:** Kelly Kloss, Legislative & Administrative Services Manager  
**SUBJECT:** Red Deer River Municipal Users Group – Business Plan and Funding

---

*Reference Report:*

Correspondence from the Red Deer River Municipal User Group, dated April 19, 2005.

*Resolutions:*

*“Resolved* that Council of the City of Red Deer having reviewed the correspondence from the Red Deer River Municipal User Group, dated April 19, 2005, hereby agrees to amend the 2005 Budget by allocating from the Water Utility the amount of \$39,541 representing a \$0.50 per capita contribution to the Red Deer River Municipal Users Group. Council further agrees that an allocation to the User Group be included as part of the annual City budget deliberations based on \$0.50 per capita times the most recent population figures available at that time.”

*Report Back to Council:* No

*Comments/Further Action:*

By way of a copy of this memo, I am asking the Public Works Manager to:

- a) Have a cheque in the amount of \$39,541 submitted to the Red Deer River Municipal Users Group.
- b) Include as a part of the 2006 and subsequent budgets an amount that represents \$.50 per capita based on the most recent population figures available at the time of the budget.

**Legislative & Administrative Services**

**DATE:** September 7, 2005  
**TO:** City Council  
**FROM:** Legislative & Administrative Services Manager  
**SUBJECT:** Notice of Motion – Councillor Larry Pimm  
Playground Zone Signage for Tot Lots  
Request to Table to September 26, 2005

---

At the Monday, August 15, 2005 Council Meeting, the following Notice of Motion was introduced by Councillor Pimm:

*Whereas* The City of Red Deer policy does not currently provide for playground zone signage for tot lots,

*And whereas* there is no common policy for signing playground zones among Alberta cities,

*And whereas* some tot lots are located adjacent to busy collector streets,

*And whereas* drivers benefit from being alerted to the presence of all playgrounds,

*Therefore be it resolved* that The City of Red Deer adopt a policy of signing all playgrounds including tot lots as playground zones where such playgrounds border a street.

This item was tabled for up to four weeks to allow Administration to prepare a report. As the Engineering Services Manager is unable to attend the September 12, 2005 Council Meeting, it is requested that, although the Administration's report is attached, the item be tabled a further two weeks.

  
Kelly Kloss  
Manager

**Date:** September 1, 2005

**To:** Legislative & Administrative Manager

**From:** Engineering Services Manager

**Re:** Notice of Motion - Playground Speed Zones for Tot Lots

A Notice of Motion has been presented to Council to sign all streets adjacent to playgrounds, including tot lots, as Playground Zones regardless of size or equipment on-site. This report is intended to give more information to Council regarding the implications of this change.

### **What is our current Playground Zone signing policy?**

Our current Playground Zone signing policy has been utilized for over 20 years. It allows speed reduction zones to be placed adjacent to large parks with sports fields (i.e. significant pedestrian destinations with relatively long street frontages). Small tot lots and other park spaces are not marked with speed reduction zones.

As illustrated on the attached map, there are currently 35 Playground Zones in the City and an additional 23 combination Playground/School Zones. There are another 13 small playgrounds (Tot Lots) that are not marked.

### **Would signing of Tot Lots improve safety?**

Over thirteen years (1991 to 2003) of collision records in the City of Red Deer, there have been over 400 vehicular collisions and 13 pedestrian collisions within or adjacent to signed Playground and School Zones. During this same period, there have been 16 vehicular and only 1 pedestrian collision in unmarked playground areas. Although there are a number of other factors to be considered when assessing traffic and pedestrian safety, these statistics provide an indication that:

- There are very few collisions in the City's unmarked playground areas and very low risk to pedestrians (the one pedestrian collision was an adult at 2 a.m.),
- It is unlikely that speed reduction zones adjacent to Tot Lots would improve pedestrian safety, and
- It is likely that speed reduction zones would increase vehicle traffic safety risks.

Legislative & Administrative Manager  
September 1, 2005  
Page 2

**What are some of the concerns to signing Tot Lots?**

While it would seem that slowing traffic down would result in increased safety, the problem is related to inconsistent driver response to the speed zones. Non-compliance with the speed limit in these zones is extremely high and is expected to be even higher in short speed zones adjacent to Tot Lots. This inconsistency makes it very difficult for other motorists to make measured driving decisions and for pedestrians (particularly children) to judge the speed of approaching vehicles to decide whether or not to cross the street.

If the City were to increase the number of speed reduction zones in the City, non-compliance would increase and the RCMP's resources for enforcement would be spread over more areas, thus their ability to enforce would be diminished.

**Why should we wait for a National standard?**

The safety record of the existing signing policy is very good and a change in policy at this time could result in higher risk to pedestrians and motorists. The Transportation Association of Canada (TAC) is currently studying this matter and is expected to issue a National standard within the next year or two. Waiting for this standard would allow us to draw on the collective wisdom and experiences of experts from across the country and adopt a broadly accepted standard.

If we implement a policy change at this time, then make a later change to adopt the TAC standard, many of the zones could be affected (e.g. the tot lot signage may be removed). This would be confusing to motorists and pedestrians and could increase risk.

**What would it cost to sign Tot Lots as Playground Zones?**

If playground speed zone signs were to be installed for all City Tot Lots, about 100 signs would need to be added at an approximate cost of \$17,000.

Legislative & Administrative Manager  
September 1, 2005  
Page 3

### **Recommendation**

We respectfully recommend that the exiting policy remain unchanged until such time as TAC has developed a National standard. At that time our policy can be re-evaluated and amended as deemed appropriate for Red Deer.

Council Decision – September 12, 2005

Legislative & Administrative Services

**DATE:** September 13, 2005  
**TO:** Tom Warder, Engineering Services Manager  
**FROM:** Kelly Kloss, Legislative & Administrative Services Manager  
**SUBJECT:** Notice of Motion – Councillor Larry Pimm  
Playground Speed Zones for Tot Lots

---

*Reference Report:*

Engineering Services Manager, dated September 1, 2005.

*Resolutions:*

*Whereas* The City of Red Deer policy does not currently provide for playground zone signage for tot lots,

*And whereas* there is no common policy for signing playground zones among Alberta cities,

*And whereas* some tot lots are located adjacent to busy collector streets,

*And whereas* drivers benefit from being alerted to the presence of all playgrounds,

*Therefore be it resolved* that The City of Red Deer adopt a policy of signing all playgrounds including tot lots as playground zones where such playgrounds border a street.

*“Resolved* that Council of the City of Red Deer agrees to table consideration of the report from the Engineering Services Manager, dated September 1, 2005, re: Notice of Motion – Playground Speed Zones for Tot Lots for a further two weeks to allow the Engineering Services Manager to be in attendance at the next Council Meeting.”

Council Decision – September 12, 2005  
Notice of Motion – Playground Speed Zones for Tot Lots

**BYLAW NO. 3213/B-2005**

Being a bylaw to amend Bylaw No. 3213/98, the bylaw adopting the Northwest Major Area Structure Plan as a bylaw of the City of Red Deer.

COUNCIL OF THE CITY OF RED DEER, ALBERTA, ENACTS AS FOLLOWS:

1. That Bylaw No. 3213/98 is hereby amended:

By substituting the revised page 4 of 9 and Map 4: Proposed Land Use, attached hereto and forming part of the bylaw, for the existing page 4 of 9 and Map 4: Proposed Land Use in the Northwest Major Area Structure Plan.

READ A FIRST TIME IN OPEN COUNCIL this 15<sup>th</sup> day of August 2005.

READ A SECOND TIME IN OPEN COUNCIL this day of 2005.

READ A THIRD TIME IN OPEN COUNCIL this day of 2005.

AND SIGNED BY THE MAYOR AND CITY CLERK this day of 2005.

---

MAYOR

---

CITY CLERK

The density for new residential neighbourhoods shall be between 12.35 and 17.30 dwelling units per gross developable hectare, if the major utility infrastructure so permits.

#### **4.3 Industrial**

Industrial growth within the plan area is primarily focused in the area west of the railway, however there are two additional areas where industrial growth will occur. The first additional area is at the south end of Johnstone Park where there will be a small extension of the Golden West Industrial area. This extension will allow the roads to be looped; the roads currently dead-end at the quarter section line. The second additional industrial area is the area between 68<sup>th</sup> Avenue and the railway tracks. No heavy industrial uses shall be allowed in the area covered by this plan.

#### **4.4 Commercial**

There are three major commercial areas within the Northwest Area Structure Plan. These include two areas north and south of 67<sup>th</sup> Street and an area along Gaetz Avenue. All of the areas will be districted to an appropriate land use district allowing for a wide range of retail uses. These areas together with existing commercial uses along Gaetz Avenue and 67<sup>th</sup> Street will serve the northwest district.

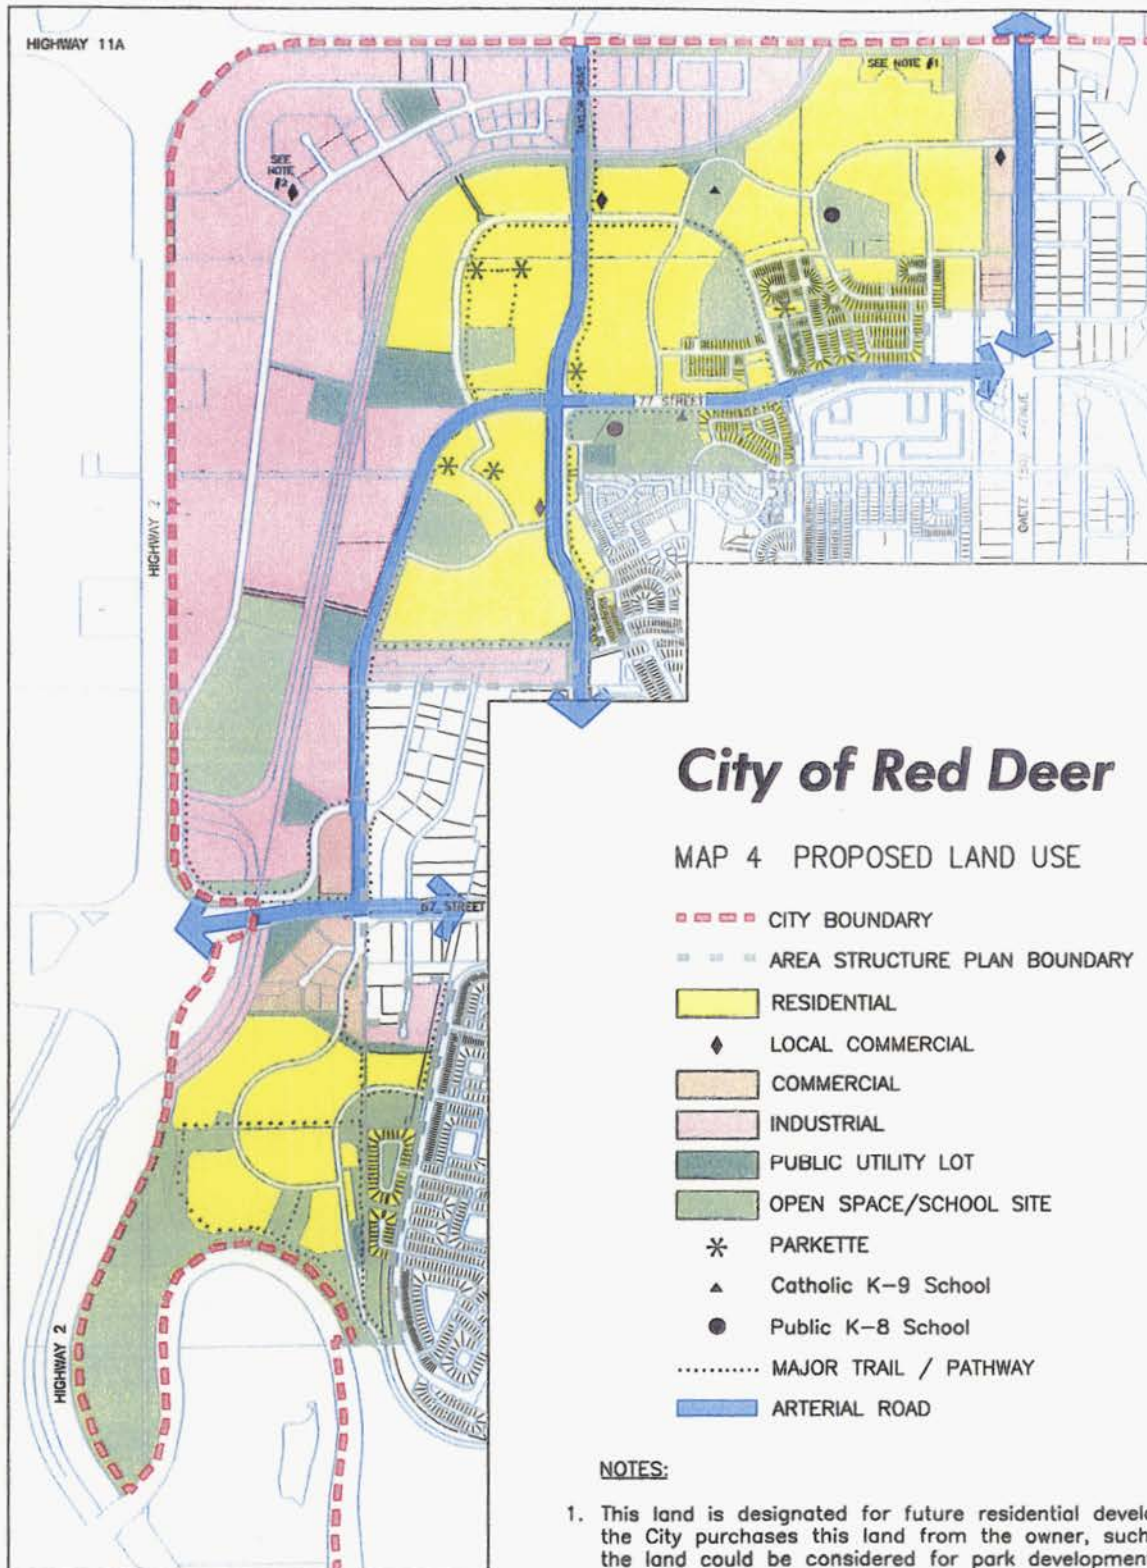

In addition to the commercial sites noted above, there are two neighbourhood convenience sites. These sites are intended to provide neighbourhood conveniences, including convenience store/gas bar, doctor's offices, hairdressing, pharmacy, video store, etc., each serving approximately two quarter sections of development.

#### **4.5 Schools**

Four school sites are proposed for the plan area. Two of the sites in the Glendale neighbourhood are existing. The two new sites include a Catholic K-9 school in Kentwood and a Public K-8 school in Kentwood. In accordance with the agreement between the City and the School Board, the school sites are provided through Municipal Reserve dedication; each school is located within a large central park site.

#### **4.6 City Level Facilities**

City level facilities are intended to serve the entire community and include arenas, recreation centres and large scale parks. Two large scale parks exist within the plan area. The first City level park is the Edgar Athletic Park which will contain a large number of sports fields. The second City level park is the Maskepetoon Natural Area. This Natural Area is intended for passive use.

**BYLAW NO. 3351/2005**

A Bylaw to authorize the borrowing of \$138,000 to pay for improvements to The City of Red Deer Recreation Centre.

**WHEREAS:**

The cost of improvements to The City's Recreation Centre is estimated to be \$10,373,150 which The City proposes to pay for as follows:

Reserves	\$ 10,235,150
Debentures	\$138,000
<b>Total Cost</b>	<b>\$10,373,150</b>

To pay for completion of the project The City needs to borrow \$138,000 for a period not to exceed 5 years, which by the issuance of debentures and on the terms and conditions referred to in this bylaw.

The expected lifetime of the improvements to the Recreation Centre is at least 30 years.

The City has the authority to pass a borrowing bylaw under the provisions of the Municipal Government Act, sections 251 and 257.

All required approvals for the project have been, or will be, obtained and the project is and will be in compliance with all Acts and Regulations of the Province of Alberta.

**COUNCIL OF THE CITY OF RED DEER ENACTS AS FOLLOWS:**

1. The City is authorized to borrow the sum of ONE HUNDRED THIRTY EIGHT THOUSAND DOLLARS (\$138,000) from the Alberta Capital Finance Authority by way of debenture on the credit and security of The City of Red Deer at large.
2. The purpose of the borrowing is to pay for the construction of improvements to the Recreation Centre.
3. The City shall repay the indebtedness by equal consecutive semi-annual or annual payments of principal and interest over a term not to exceed FIVE (5) years. The interest rate of the borrowing shall be at the rate fixed by the Alberta Finance Authority on the date of the borrowing, not to exceed a maximum of ten (10) percent annual interest.

4. The indebtedness shall be repaid by way of savings on the energy costs of the Recreation Centre. Should those savings be insufficient to repay the indebtedness due in any given year, the shortfall shall be paid through general municipal property tax revenue.
5. The proper officers of The City are hereby authorized to issue debenture(s) on behalf of The City on the terms and for the amount and purpose set forth in this by-law.
6. This by-law comes into force on the date it is passed.
