

Reddlee Nov 12/18 -

My dear Mother:-

It has been nothing but "flu" here for two weeks past. Dick has just been gaining right and day. until 12 very right making visits; We all are pretty well played out. but I think it is abating. - So many doctors have died, I was afraid Dick would contract it. but he is fine considering.

Tell Flo I rec'd the parcel to night. Dick is so pleased with my hat. It fits much better than the one I got myself. The sweaters also is lovely.

2
and I needed it so badly.
The veil goes so nicely
with my hat and the
underskirt is just the
serviceable kind I
wanted. I expect the
waist will come along
later.

The peace celebration
yesterday was terribly hard
for me. I got sick to take
me away to the country
for the day. This is the
hard time.

I can't believe Thias is
so near - I am pretty tired
out helping make it easy
for sick through the epidemic.
For two weeks the phone
has rung night and day

To Professional Services:

Every few minutes-
fortunately we have
a good office girl.

I shall write the
dates after I wear
my truss and see them
in day light.

Love to you all
Your loving daughter
Ella,
